Government of West Bengal (India)

Dated, Kolkata..... 2004

FOREWORD

It is gratifying to note that Annual Report of School Education Department, 2003-2004 is going to be published with added information. This department is concerned with different stages of education viz., Primary, Secondary, Higher Secondary and Madrasas and consequently this department is to look after the well-being of about 2 crores of younger children who are enrolled to all this institutions Similarly, more than three and half lakh teachers are engaged in the noble profession and this department is to look after their well-being also, In view of the present world scenario, the responsibilities of this department along with other departments have been immensely increased. Not only the people directly concerned with education are interested to know all this particulars and information concerning education from this department but the people of other field of activities even people residing outside West Bengal are highly interested to know all this information.

I hope, the thirst of the concerned people will be quenched to a considerable extent by the present report.

Any suggestion and constructive criticism of this report will be accepted with gratitude.

It is a matter of great pleasure on the occasion of publication of the 8th Annual Report of the School Education Department, Government of West Bengal, covering the period 2003-2004 which is primarily aimed at to cater to the need of the concerned persons interested in the gamut of spreading of education and involved in the system of education especially pertaining to the information base.

Basically this report tried to cover the achievements and expansion of education with a motive "Education for All" and endeavoured to furnish a consolidated information base, helpful for the readers mainly researchers and the activists in the field of social upliftment.

To ameliorate the plight of the primary level students in West Bengal, in spite of the financial stringency of the State, being a very common feature among the other States also in our country, different programmes have been taken up.

Hope this issue will definitely benefit the readers and enrich them in the use of different inputs in a diverse statistical database.

Still, if there is any shortcoming in the publication, all necessary efforts should be made to supplement those and sketch the next volume accordingly if we get the constructive criticism of suggestion to that effect from the readers.

THE SECRETARY OF THE
TREASURY
WASHINGTON, D. C.
JANUARY 1, 1900

It is a matter of great importance to the Government of the United States that the Treasury Department should be able to obtain the most accurate and reliable information possible regarding the financial condition of the various States and Territories. It is therefore the policy of the Treasury Department to require the submission of annual reports by the various States and Territories regarding their financial condition. These reports should be submitted to the Treasury Department by the first of January of each year. The reports should be in the form of a statement of the financial condition of the State or Territory for the year ending on the 31st of December. The statement should be signed by the Governor or the Chief Executive Officer of the State or Territory. The statement should be submitted to the Treasury Department by the first of January of each year. The reports should be in the form of a statement of the financial condition of the State or Territory for the year ending on the 31st of December. The statement should be signed by the Governor or the Chief Executive Officer of the State or Territory. The statement should be submitted to the Treasury Department by the first of January of each year.

Dated, the 16th August, 2004

Preface

Annual Report of the School Education Department addresses, covers and sums up the totality of the objectives, policies, schemes, plans and programmes of the Department, performance during the year (2003-04) under report and is supplemented by a wealth of data and statistics. The Report also covers various institutions, organisations and statutory bodies working in the field of School Education in the State and under the administrative set-up of the Department. This is an important document, being the single point and source of all related data and information. The Report seeks to answer what – what we do and seek to achieve, why – why we do, how – how we are networked and where – where we aim at being when we do our job and perform our tasks.

2. *During the year, efforts at achievement and fulfilment of the commitment to provision of Elementary Education for the entire range of target beneficiaries with access and opportunity, improvement in the physical infrastructure in different spheres and overall quality of education were sustained and intensified. Important projects of the Department such as District Primary Education Programme, Sarva Siksha Abhiyan and expansion of coverage under Cooked Mid-Day-Meal Programme, Computer Literacy Programme made significant strides during the year. Special attention has been given to Paedagogical intervention, improvement in the quality of teaching and learning and class room environment and ambience. Due emphasis had been given to ensure that the benefits of strengthening of Elementary and Primary Education are reflected in wider coverage and improved quality at Upper Primary and Secondary and Higher Secondary levels. Considerable emphasis has laid on further expansion consolidation and strengthening of teaching and education through Madrasah Institutions. The Report has also covered relevant aspects of Human Development Report of West Bengal, the Census data, 2001 and the provisional statistics and data of 7th All India Educational Survey (Flash Data).*

3. *I am grateful to Shri Kanti Biswas, M.I.C. and Smt. Iva Dey, M.O.S for their advice and keen interest in publication of this Report and also thankful to my colleagues who have put in sustained and commendable effort to make the Annual Report comprehensive and user - friendly and bring out the salient aspects and highlights of the functioning and activities of this Department. I hope those concerned with management of education at different levels and interested in and associated with education will find it useful and handy. Their feedback and considered views will help us make it more comprehensive in future.*

Ex-officio Principal Secretary

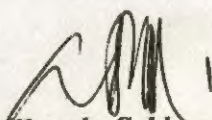

School Education Department

GOVERNMENT OF WEST BENGAL
SCHOOL EDUCATION DIRECTORATE
 BIKASH BHAVAN (7TH FLOOR), SALT LAKE
 KOLKATA 700 091, PHONE : 2334-4504

It is my great pleasure that the Annual Report of School Education Department for the year 2003-2004 is being published. It is the 8th Issue and we have rendered our efforts to enrich the report covering the activities and performances of this Department. The report possibly will cover the activities of all the sectors of this Department .

Great emphasis has been given in regard to achievement of Universalization and Elementary Education through effective implementation of Sarba Siksha Abhiyan. Not only the activities of this Department but also the statistical information of allied Departments, such as Human Development Report of Development and Planning Department of West Bengal Government and Census Department etc. have been incorporated in this report. All efforts are being made to improve the quality of education including teaching and classroom transaction process through introduction of SLIP/ILIP in elementary schools. The relevant portion of budget for 2004-2005 of School Education Department has also been inserted in this volume. Some provisional statistics of the 7th All India School Education Survey have also been included in the report and such statistical information may be of immense help to the education practitioner, researcher and other education loving people.

Still I believe there may be some gaps and lacunas which may be covered in the next report and we also invite constructive criticism in regard to considerable improvement of this report in future issues.

INDIA

DENSITY OF POPULATION

2001

Map of West Bengal Showing The Districts

CHAPTER I

Demographic Profile of West Bengal

West Bengal is the most densely populated state in the country.

A fundamental feature of West Bengal is the very high population density, which is nearly 3 times that of the Indian average. There has been a great concentration of population over the centuries in the alluvial lands of the Gangetic plains of West Bengal. Historical and socio-economic factors have determined the present very high density of population in the State. Apart from the internal migration from the neighbouring states such as Bihar, Orissa and Uttar Pradesh to Calcutta, Haora and other industrial areas of the State, partition led to an almost continuous stream of migrants into the State from across the Indo-Bangladesh borders. The phenomenal growth of population in some of the Northern districts such as Koch Behar and West Dinajpur and also in the Southern districts of Nadia and 24 Parganas in the first forty years after Independence gives an indication of the enormity of migration. The density of population consequently increased sharply in a number of areas of the State. With a population density of 904 persons per sq. km. in 2001, West Bengal is currently the most densely populated State in the country.

Greater population pressure inevitably puts more pressure on basic infrastructure as well as on the provision of health and education services. The extremely high population density obviously affects per capita resource allocation, so whatever West Bengal has achieved has been in spite of this critical negative factor of having the highest population density in the entire nation. The variation across districts in this regard also needs to be borne in mind when considering inter-district differences in human development indicators.

Table 1.1 Districtwise population density (persons per square km)

	1991	2001	Annual Population growth rate 1991- 2001, per cent
Darjeeling	413	510	2.4
Jalpaiguri	450	547	2.2
Koch Behar	641	732	1.4
Uttar Dinajpur	604	778	2.2
Dakshin Dinajpur	555	677	2.9
Malda	706	881	2.5
Murshidabad	890	1101	2.4
Birbhum	562	663	1.8
Bardhaman	861	985	1.4
Nadia	981	1172	2.0
Kolkata	23783	24760	0.4
North 24 Parganas	1779	2181	2.3
Hugli	1383	1601	1.6
Bankura	408	464	1.4
Purulia	355	405	1.4
Medinipur	592	685	1.6
Haora	2542	2913	1.5
South 24 Parganas	574	694	2.1
West Bengal	767	904	1.8

Source: Guha Roy (2003) using Census of India.

As Table 1.1 indicates, there is substantial variation across districts even with respect to density of population, even if we exclude those districts which are dominantly urban (Kolkata) and suburban (Haora). Nor is there any clear pattern with respect to growth of population.

Birth and death rates have declined more quickly in West Bengal than in India as a whole.

Contrary to some popular perceptions, it is not very likely that recent increases in population density have resulted dominantly from in-migration from neighbouring countries. Out of the nineteen districts (Medinipur has recently been bifurcated) of the State, nine have international borders with Bangladesh. Two such districts—Jalpaiguri and Koch Bihar—show uniformly a declining rate of growth over the decades from 1961-71 to 1991-2001. Nadia, another border district, also experienced a sharp decline in growth rate from 3.3 per cent in 1971-81 to only 2.0 per cent in 1991-2001. In the cases of 24 Parganas and Dinajpur, the increase in growth rates from 1971-81 to 1981-91 was followed by a sharp decline in 1991-2001. The other two border districts Malda and Murshidabad contributed a little over 12 per cent to the decadal (1981-91) growth of population of West Bengal.

All the border districts together account for 44.5 per cent of the 13.4 million population that were added to 1981 census aggregate to make the State population size stands at 68 million in 1991. On consideration of the contribution of natural growth (that is, excess of births over deaths), which is not insignificant, a major concentration of recent migrants in the border districts does not seem to have occurred. Non-border districts accounted for 55.5 per cent of the total population growth of West Bengal in 1981-91. Given the moderate levels of vital rates, this implies that the reported increase in immigration over the decade was not confined to a few border districts, but has possibly undergone a spatial diffusion to other parts of the State.

West Bengal has been successful in bringing down both birth rates and death rates, with one of the most rapid decline in birth rate in India. As Table 1.2 indicates, the decline in the birth rate has been nearly double that of the all-India average over the period 1991-2001, while the decline in the death rate has been one and a half times that of the national average. Infant mortality had also decline at a marginally more rapid rate than all of India.

Table 1.2 Vital Rates of India and West Bengal (per thousand)

Year	Birth Rate		Death Rate		Infant Mortality Rate	
	India	West Bengal	India	West Bengal	India	West Bengal
1990	30.2	28.2	9.7	8.4	80	63
1996	27.5	22.8	9.0	7.8	72	55
2000	25.8	20.7	8.5	7.0	68	51
2001	25.4	20.5	8.4	6.8	66	51

Source: Sample Registration System, Register General of India.

Life expectancy in West Bengal is well above the national average, and the State is one of the better performing States in this regard, even in terms of increases over time. However, there are certain districts with life expectancy well below average, which require special attention, such as Malda, Koch Behar, Birbhum and Murshidabad, all of which have average life expectancy of below 60 years.

Table 1.3 Life expectancy at birth, (estimated for 2001)

	Female	Male		Female	Male
Darjeeling	71	67	North 24 Parganas	71	66
Jalpaiguri	63	61	Hugli	73	69

Haora	881	906	2.8
South 24 Parganas	929	938	1
West Bengal	917	934	1.8
India	927	933	0.6

Source: Census of India, 2001.

Sex ratios have shown faster improvement in West Bengal than in most other States.

The sex ratio in West Bengal has historically been worse for women than the national average, but it has shown greater improvement in the recent period, so that it is now just above the national average. Further, the sex ratio for the age group 0-6 years, which has recently shown rapid deterioration at the all-India level, does not indicate such a decline in West Bengal, where it was 963 in 2001 compared to 927 for all-India. This is higher than the sex ratio for all age-groups, which is a very positive sign.

Literacy and Education

This chapter will examine the important features of the State with respect to literacy and primary education. While higher education, including scientific education and technical training, is obviously of great significance, this will not be covered in this report, although subsequent reports may take this up in more detail. The literacy rate is generally considered as one of the important indicators of the development of a population, and the educational level of a population is seen as an important determinant of its quality of life. In addition, of course, education interacts with other human development variables in crucial ways. For example, universal education and special attention to the education of women are critical in improving the health practices of a community. Universal education is also likely to be necessary for meaningful and effective decentralisation, especially in the coming phase when panchayats are being given greater responsibility for a very wide range of activities.

The literacy rate in West Bengal has always been higher than the all-India average, and West Bengal ranks sixth among the major States in this regard. But until the last decade, the improvement in literacy has been relatively slow in the State, especially for women. However, in the past decade, the State government has been making concentrated efforts through various special schemes such as 'total literacy campaigns', 'non-formal education', etc. apart from formal schooling for children to achieve the goal of 'education for all' as soon as possible. As a result, according to the Census, the literacy rate in West Bengal has increased from 48.6 per cent in 1981 to 57 per cent in 1991 and to 69.2 per cent in 2001. While rural literacy is predictably lower than in urban areas, it has improved more rapidly in the recent past. Furthermore, as can be seen from Figure 7.1, while literacy among rural females is still low compared to other groups, it has increased most rapidly in the recent past, going up by nearly 16 percentage points in the last decade.

Change in literacy in West Bengal

Some pockets of illiteracy required special attention

It is encouraging that the largest improvements in literacy in the past decade have been in some of what were the most "backward" districts and especially among females. Table 7.1 provides evidence of the changing profile of literacy rates across districts, according to the Census. Increases in the female literacy rate have been in excess of 20 percentage points in Dakshin Dinajpur and Koch Behar, and more than 15 percentage points in Jalpaiguri, Murshidabad, Malda, Darjeeling, Nadia and Birbhum, in the period between 1991 and 2001. So there is substantial improvement in literacy—and especially female literacy—in the recent period.

Table 7.1 Literacy rates across districts

	Aggregate literacy rate				Female literacy rate		
	Rank in per capita income	2001	Rank	% point change over decade	2001	Rank	% point change over decade
Darjeeling	2	72.9	6	14.9	63.9	6	16.1
Jalpaiguri	4	63.6	13	18.5	52.9	12	19.7
Koch Behar	13	67.2	9	21.4	56	10	23.7
Uttar Dinajpur	18	48.6	18	9.3	37.2	17	9.3
Dakshin Dinajpur	12	64.5	11	25.2	55.1	11	27.2
Malda	10	50.7	17	15.1	41.7	16	16.8
Murshidabad	15	55	16	16.8	48.3	15	18.7
Birbhum	17	62.2	14	13.6	52.2	13	15.1
Bardhaman	3	71	7	9.1	61.9	7	10.4
Kolkata	1	81.3	1	3.7	77.9	1	5.8
Nadia	6	66.6	10	14.1	60.1	8	15.7
North 24 Parganas	11	78.5	2	11.7	72.1	2	14.1
Hugli	5	75.6	4	8.8	67.7	4	10.8
Bankura	7	63.8	12	11.8	49.8	14	13.2
Purulia	16	56.1	15	12.8	37.2	18	13.9

South 24 Parganas	14	70.2	8	15.1	59.7	9	19.1
West Bengal		68.2		11.5	60.2		13.6

Source: BAES and Census of India, 2001.

Nevertheless, despite these improvements, there still remains a lot to be done in terms of improvement, and certain pockets of illiteracy in particular need to be addressed. According to the NSS, in 1999-2000, 27 per cent of households in rural areas and 12 per cent of all households in urban areas did not have any literate adult (15 years and above). The proportion of households without any female adult literate was substantially higher, at 51 per cent and 31 per cent in the rural and urban areas of West Bengal respectively. (the corresponding figures for the best State, Kerala, were 9 and 10 per cent respectively). Further, the literacy status of Scheduled Castes, Scheduled Tribes and minority community households is significantly worse than for other households, especially in rural West Bengal.

In literacy, agricultural labourers constitute the most deprived occupational group

Even among the literate population, a sizeable proportion (around 17 per cent in 1998-99 according to the NFHS-2) is only literate at "below primary" level. However, there is clear evidence of progress even in terms of level of education of the population. By 1998-99, 48 per cent of rural males and 27 per cent of rural females in the age groups of 15 years and above were estimated to have completed at least primary education, and around one-third of these had completed secondary education or above. In the urban areas, 79 per cent of adult males and 62 per cent of adult females were found by the NFHS-2 to be literate at least up to primary level or above.

Literacy by Socio-economic categories

While there has been overall improvement in literacy in the State, there are clearly significant differences across socio-economic groups, which persist and suggest that access to literacy and education is still differentiated and may need to be addressed with targeted interventions. Figure 7.2 describes the variations in literacy rates across

occupational groups in rural West Bengal for all the population above 7 years, and separately for females above 7 years. The relatively most deprived occupation group appears to be that of agricultural labour households, of whom more than half of all such population, and nearly two-thirds of the females, are non-literate. Households consisting of the self-employed in agriculture show the highest rates of literacy, for men and women in rural parts of the State. Gender gaps remain substantial, and women of rural labour households (both in agriculture and non-agriculture) are the worst off among the rural population in terms of illiteracy.

Interestingly, gender gaps in literacy appear to be slightly less marked in urban parts of the State. Here, as Figure 7.3 indicates, casual labour households are the worst off, and nearly half the women in such households are illiterate. In urban areas, those households where the main source of income is from regular wages, as well as "other" households, show the lowest rates of illiteracy.

Non-literacy by occupation in rural West Bengal

Non-literacy by occupation in urban West Bengal

As could be expected from this, income categories are also relevant in determining access to education. People from the bottom 20 per cent of households according to income are more than twice as likely to be illiterate as those from households in the top 20 per cent income category. At the other end of the spectrum, those from the top quintile income group are more than 12 times as likely to have completed education up to higher secondary and above, than those in the bottom quintile. About 66 per cent of rural females of age 7 years and above are non-literate in the lowest quintile as compared to 30 per cent in the richest quintile. Further the percent of non-literate rural females decreases with increase in the quintile group. However, it should be noted that while these differences appear to be sharp, they are less so than in other parts of the country as a whole, and the apparent occupational discrimination in education is less in West Bengal (especially in rural parts of the State) than in India as a whole and in most other States. Furthermore, the income gaps in access to education have narrowed in the past two decades.

In terms of social and caste categories, the level of literacy among persons of age 7 years and above in the ST households is uniformly lower as compared to all other social categories. The problem of illiteracy is particularly acute among rural women from ST households, with 70 per cent of them being non-literate. Quite obviously, females in the ST households in the rural areas of West Bengal need special attention to improve the education levels in the rural West Bengal. Next come SC households, where more than half of the women are illiterate. The gender gap seems to be approximately equal across caste category, indicating that gender discrimination is not more marked among any particular caste group, but is shared across all castes. In the rural areas, interestingly, Other Backward Castes have the highest rates of literacy, better than "others", which includes not just Hindus of other castes but also other religious communities.

The low levels of literacy among ST households indicate that the problem also has a spatial or regional dimension, since ST households tend to be concentrated in certain regions/districts/blocks, and poor physical infrastructure in such areas makes communication and the provision of basic public services including education much more difficult. These have also been the groups less directly affected by Total Literacy and other such campaigns. Districts with higher proportion of ST population, and especially those with more remote and inaccessible blocks also tend to have lower rates of literacy in general because of this problem. The problem of intervention therefore has to address the need to rectify this regional imbalance, which then expresses itself also as an imbalance of social category.

However, it should be recognised that there has already been some progress towards rectifying this regional imbalance. It used to be observed that literacy rates in West Bengal were highest in Kolkata and deteriorated in concentric circles around that metropolis, with the more distant districts showing lower rates of literacy. The only exception was Darjeeling because of the impact of Siliguri. That was certainly true up to even as late as 1991. But in the last decade, as Table 7.1 indicates, while the top and bottom ranks have remained broadly the same (in terms of literacy rates) there has been much greater movement in the middle ranks of districts. While they can still broadly be classified in terms of distance from Kolkata, the literacy gap has reduced across different districts, especially for women.

Non-literacy by caste in rural West Bengal

Non-literacy by caste in urban West Bengal

From Figure 7.5 it is clear that even in urban areas, the literacy situation of STs and SCs is the worst. However, the absolute levels are not as bad as they are for rural West Bengal. Once again, for a given social category, there are disparities in the education levels among males and females. The most deprived category—female members of ST households—would require special attention to improve literacy levels. In this case, since remoteness, absence of physical infrastructure and communication facilities are less evident, the required targeted intervention may be simpler to achieve.

There also appears to be some inequality in access to literacy and education across religious groups, although once again, this is not as marked as it is elsewhere in India. The important religious communities in the rural areas of West Bengal are Hindus (66 per cent of the population) and Muslims (32 per cent). The level of illiteracy among persons of age 7 years and above in the Muslim households (at 46 per cent) is uniformly higher as compared to the Hindu households (35 per cent). However, Muslims as a group are not more educationally deprived than either STs or SCs, both of which show higher rates of illiteracy in rural West Bengal. Nor is the gender gap among Hindus, indicating that the general perception that Muslim women are less likely to be educated than their Hindu counterparts, is not borne out by the data. In urban parts of the State, however, the differentials according to religious community are more marked than they are in rural areas, so Muslims in urban areas tend to be relatively more excluded from literacy/education than Muslims in rural areas. This may reflect the fact that land reform (in terms of tenancy registration and redistribution) disproportionately benefited rural Muslims from landless households, many of whom in consequence have experienced a general improvement in social conditions including in the access to education.

Primary school enrolment

Progress in literacy and education is depended upon the propensity of children to go to school and also to complete at least primary level of education. But this often means that lack of progress can become self reinforcing, in terms of reducing the incentive among children to carry on with schooling when the parents are also not educated. It is well known that enrolment ratios of children in primary school tend to be strongly related to the educational levels among adults in the same households. This is also true of West Bengal, where studies indicate high correlation of both enrolment and attendance with parental literacy and with parents' education levels of primary and above as well as secondary and above, in both rural and urban areas. (Nagi Reddy 2003)

However, enrolment data are notoriously prone to inaccuracy for a variety of reasons. Official data based on school records tend to inflate enrolment, because of the pressure upon school authorities to indicate high levels of enrolment, because enrolment figures, especially for Class I, are typically taken as the relevant indicator for assessing the performance of the school authority as well as the resource requirement for that school. Regular attendance of students also tends to be overestimated for similar reasons. However, data based on sample surveys are often underestimates, for different reasons. A large number of children join school at pre-primary age, even in rural areas, because of the absence of local pre primary schooling or creche facilities, and they all tend to be conflated into "Class I" in the data. So the "Class I" group tends to contain children in the age group 4 to 8 years, even if they are not actually "studying" in that class. This is one of the reasons why there appears to be a high dropout rate between Class I and Class II, because of the large number of underage children classified into Class I.

One proxy indicator of enrolment is literacy ratios among girls and boys of school-going age, since non-literates in this age group would suggest that such children are not and have not been enrolled in schools. It is evident from Figure 7.6 that a significant proportion of children in the age group 6-14 years were not effectively enrolled in schools in the rural West Bengal even in 1998-99. Data from the NSSO regarding school enrolment in 1995 are presented in Table 7.2. This shows that attendance rates for boys were generally slightly lower than the all-India average and substantially lower than the best performing State, which is Kerala, in both urban and rural areas. However, attendance rates for girls aged 6-10 years in rural West Bengal were generally better than the all-India average, although in urban areas the rate in West Bengal was slightly lower. For girls aged 11-13, attendance rates were higher or the same as the all-India average. Table 7.2 also indicates a surprising feature—higher attendance among the age group 11-13 years, for both boys and girls. This may be because the median age for school entry is above 7 years, and therefore taking the age group 6-10 years inflates the denominator.

Age specific school attendance ratios (per cent) in 1995

	6-10 years			11-13 years		
	Boys	Girls	Children	Boys	Girls	Children
	West Bengal					
Rural	69	61	65	74	67	71
Urban	79	75	77	83	83	83
Total			67			74
	All India					
Rural	71	58	65	75	57	67
Urban	84	82	83	87	83	85
Total			69			72
	Kerala					
Rural	96	97	97	97	98	97
Urban	98	97	97	97	98	97
Total			97			97

Note: Age specific attendance ratio is defined as the percentage of children attending school in the age group 6-10 years.

Girls' schooling

Malini is twelve years old, the younger daughter of a retired soldier who now lives in a village in Naxalbari in North Bengal. Malini is now in class VII, but cannot attend the Army School which is 15 kilometres away, so she walks 2 kilometres to a higher secondary school in a neighbouring village. However, because this school cannot accommodate all the students together, it functions three days a week for girls and three days a week for boys. There are no separate facilities for girls, including a common room, and Malini feels that the quality of instruction does not compare with the teaching at the Army primary school that she studied in previously. She would like to study further, but is not sure that she will gain admission to higher levels.

Shipra Singha's parents are illiterate, but she passed her Madhyamik school examination. Because her father, a small cultivator with 2 bighas of land, is a panchayat samiti member in the area of Darjeeling where they live, she has been appointed a sahayika in the village Sishu Shikha Kendra, even though officially only women above 35 years are eligible. Shipra believes that now there is no constraint on girls studying, but that their job prospects are more limited even after education. Her brother, who unlike her failed the Madhyamik examination, has a job as a peon earning Rs. 3,000 per month.

In the village school in one of the poorer and more backward islands of the Sunderbans region of South 24 Parganas, girls now outnumber boys in the middle and senior classes by a ratio of 2:1. The teachers believe this is because they are more serious and consistent as students, but others suggest that girls are keener to learn simply because they realise that they have access to something that was denied to their mothers. The examination results in this area tend to confirm that girls are performing better; in both Madhyamik and Higher Secondary examinations, girls' pass percentages and overall marks have been higher than those for boys in recent years.

It has been found by a number of studies relating to different parts of the State, that the never enrolled children tend to be more concentrated among the lower income groups and the Scheduled Tribe and minority populations.¹ This reinforces the point that was already observed, that regional differences tend to dominate in questions of literacy and education, with less developed and more inaccessible regions indicating less delivery of public education systems. At one level, this also makes it easier to identify the focus areas for policy intervention – mainly those regions with high ST/SC/ Muslim population.

Per cent of non-literates in the age group 7-14 years

There are a number of reasons for the relatively low ratio at attendance of schools in West Bengal, compared to say, Kerala. The most important reason relates to the sheer physical lack of schools in the vicinity. Lack of basic infrastructural facilities continues to be a serious concern for the proper growth of primary education in West Bengal. Not only are there not enough schools, even those that exist often do not have buildings to speak of, not to mention other facilities and equipment. Despite the rapid increase in the number of schools and school teachers over the 1990s, there are very severe gaps in physical availability of schools. The number of schools with no room is depressingly high, and amounts to nearly one-fifth of all schools, as can be seen from Table 7.3. When a school does not have a building, it does not only affect the quality of the learning experience; it can even affect the quantity of instruction, since such schools cannot function, for example, on rainy days.

Schools with only one room amounted to nearly another one-fifth. This suggests that all the primary classes are therefore taught together in one room, which also cannot be considered desirable, since multigrade classrooms are clearly less conducive to learning and can become major sources of distraction. While the average number of teachers per school is 3, this is still below the number of classes, which must cover at least Class I-IV and sometimes also Class V. This means that at least two classes would be taught together on average. It was estimated in 1997 that more than half the schools had only one or two teachers, so that multi-grade simultaneous classes were the norm in this schools. This makes the teacher-student ratio, which otherwise seems to be reasonable at under 50 students per teacher, appear much more problematic.

In addition, there are major inadequacies with respect to the physical condition of schools and the absence of necessary fitting and fixtures, toilets and basic equipment and teaching materials such as blackboards. Many rural school buildings are characterised by poor natural light and often no electricity, with inadequate toilet facilities (especially for girl students) and mostly very insufficient furniture, which make them unattractive places to be in for young children. Separate urinals for girls are very rare, while latrine facilities do not exist in most rural schools.

School facilities

Year	1986	1993	1997
Percentage of schools with			
No room	4.9	5.0	18.0
One room	26.9	23.5	18.0
Two rooms	23.0	32.4	23.1
Three or more rooms	45.2	39.1	40.9
Teachers per school	3.2	3.0	3.0
Students per teacher	36	46	47
Percentage of trained teachers	64	63	66

Source: Nagi Reddy (2003).

Very clearly, the infrastructure has not kept pace with the increase in the student enrolment which might have resulted either from the various reforms introduces at the primary education level or from the effects of the total literacy campaigns in changing parental attitudes towards education. This is despite the significant increase in the number of schools and school teachers in recent years, after a period in which all such expansion was stayed by a decision of the Calcutta High Court. There has been some improvement in basic infrastructure in terms of school buildings, as Table 7.4 below indicates. However, the number of students per teacher appear to have increased, even according to the official data.

The recent increase in the number of schools has still not been enough to meet the evident requirement and desire for education among the population. Sheer lack of physical infrastructure and facilities is therefore now a major bottleneck on the expansion of primary education facilities in the state. This suggests that the issue of finding more resources for education – especially for increasing the availability and quality of the physical infrastructure – is likely to become a crucial one.

The quality of primary education continues to be a serious concern.

Another important issue relates to dropout from school, especially in the early stages of primary education.² It has already been suggested that the dropout rates that are typically presented may be over estimates, mainly because enrolment itself is over estimated at the primary stage and therefore subsequent data for letter classes do not capture similar numbers. This is confirmed by field studies conducted by IIM Kolkata, which have found that the dropout of rural children from primary school is insignificant, at less than 3 per cent, compared to around 27 per cent of children who were never enrolled in this age group.³ Therefore the problem of high dropout at primary level may not be as severe as generally imagined. It should also be noted that all surveys point to high and growing positive interest in schooling among the population, including among less advantaged groups in society, which tend to ensure at least some continuation of schooling regardless of inherent difficulties. The typical reasons for dropout that surveys have revealed include lack of interest in education, inability to meet the expenses, distance of the school from the home, and the need to attend to domestic and other household duties, including collection of fodder and water. In Urban West Bengal, the most important reason that surveys have highlighted is the inability to meet the expenses associated with schooling.⁴ Dropouts rates tend to be higher in the 10-14 years age group, at around 18 per cent. This is not surprising, because of the shift from primary to middle school, and because of the lesser likelihood of middle schools in the vicinity.

There are serious and continuing concerns about the quality of primary education, in both urban and rural areas. The 1992 Report of the State Education Commission made a number of comments about delivery of public education, which were repeated by a more recent report of 2002 by the Pratichi Trust.⁵ Some of the areas of concern identified in both reports include: poor infrastructure and inadequate equipment in schools; sporadic and irregular attendance of some teachers; lack of accountability of teachers; and inadequate school inspection. The District Inspectorate has such a huge task that it is impossible for it to meet its responsibilities adequately. There is an average of 90 schools per sub-inspector, in addition to which this sub-inspectors are responsible for a large number of other administrative tasks, such as enforcing service and leave rules of teachers. This suggests that there may be a need to restructure the organisation and administration of schools, to make them amenable to greater local community control.

Public expenditure on education

The State government in West Bengal is directly responsible for much more of the overall educational system than in many other more "advanced" States, and therefore the public sector in West Bengal bears a disproportionate burden of the primary education system in particular. Education expenditure grew faster than the State domestic product during the 1980s until the early 1990s, and slowed down thereafter. As a result, education expenditure as a proportion of SDP increased from about 3 per cent in the early 1980s to 4.8 per cent in the early 1990s, and was around 3.5 per cent in the late 1990s.

It is essential to find more resources for universal schooling

The growth of education expenditure has been faster than the population growth. Per capita real expenditure on general education more than doubled during 1980-81 to 1997-98. Total expenditure on general education as a proportion of the total expenditure of the West Bengal government has similarly increased, from less than 6 per cent in the early 1980s to more than 7 per cent in the late 1990s. More than 90 per cent of the total public expenditure on education is spent through the Education Department. The remaining part is spent through Social Welfare, Tribal Welfare, Rural Development departments, etc.⁶ A very small proportion of the education department's expenditure (less than 1 per cent) is incurred on capital formation. The plan expenditure of the education department as a percentage of the total plan expenditure of the West Bengal government has remained constant around 7 to 8 per cent during 1980-81 to 1993-94 and declined substantially in recent years.

Per student expenditure at 1997-98 prices was about Rs. 590/- in 1980-81 and increased to about Rs. 1302/- by 1997-98. Since this does not include the spending by private unaided schools and Central schools, it may be an underestimate. However, it is worth noting that the relative importance of elementary education as a proportion of total general education expenditure fluctuated around 36 per cent during 1980-81 to 1987-88 and fell to around 33 per cent by the late 1990s. However, it increased subsequently, largely due to greater outlay on salaries after the Pay Commission award.

Salaries have been the largest single element of the expenditure on elementary education, accounting for about 90 per cent of the total during the triennium ending 1999-2000.⁷ The next most important items are textbook printing and school construction and repairs, each of which accounted for about 2.1 per cent of the expenditure. For mid-day meals, the expenditure incurred was 1.5 per cent, for teachers training 0.4 per cent and for inspection 1.6 per cent.

There are currently more than 2000 schools providing mid-day meals, and this number is likely to reach 5000 by the end of 2004. The provision of mid-day meals is an important step towards ensuring better nutrition among the young as well as providing incentives for children to attend school regularly, and clearly can be crucial in improving human development conditions generally. However, the problem of finding finances to support a mid-day meal programme for all the children in public schools at elementary level, still remains a difficult one. Besides the financial cost (currently an additional estimated Rs. 600 crore per year) there is the associated infrastructure requirement in terms of utensils, people to cook, centralised kitchens, etc.

A National Fund is necessary to ensure mid-day meals for children in government schools in all States.

However, the preparation of mid-day meals need not be within the school, and the State government is actively considering using other institutions for the purpose, such as involving ICDS and anganwadi workers in the activity, as well as getting the participation of parents' groups as in some other States. It is possible to argue that since the provision of mid-day meals in schools is both desirable and feasible at a country-wide level, but not so easy for State governments with hard budget constraints, a National Fund should be set up specifically for this purpose. This remains an area where the State government should take active steps to ensure universal provision.

The universalisation of primary education has become an important subject both for the State and Central governments, and the State government is making efforts to achieve the goal of free and compulsory primary education for all in spite of its resource constraints. Currently, there are around 54,000 primary schools in West Bengal, with more than 1.5 lakh teachers.⁸ However, universalising primary education would require substantial expansion of even these large numbers. This would require about Rs. 2,328 crore of additional expenditure including about Rs. 1000 crore as recurring costs. The State government also estimates that more than 7,000 new primary schools would need to be constructed.⁹ While there has been considerable progress in terms of recruiting new teachers, constructing new schools, constructing additional rooms in the existing schools, etc. in recent years, this still remains a gigantic task, for which the issue of resource mobilisation is now the most immediate concern.

Recent developments in primary education

The West Bengal DPEP¹⁰ was formally launched in 1997-98. The main objectives of the DPEP project are to support the public education system through interventions designed to enhance student enrolment, reduce dropout rate, provide enhanced access and better facilities for primary education, etc. It therefore involves recruiting additional trained teachers to cope with the expected enhanced student enrolment, as well as providing increased access to children for primary education by constructing new schools and appointing additional qualified teachers in those schools etc.

The project was launched initially in five districts of West Bengal (Bankura, Birbhum, Koch Behar, Murshidabad, South 24 Parganas) with a project cost of Rs. 200 crore over a period of 7 years. The project cost for each district is

Rs. 40 crore, out of which a maximum of 24 per cent can be spent on civil construction (basically building support for primary schools) and 6 per cent on administrative costs. The remaining 70 per cent of funds is to be spent mainly on access, retention, equity and quality improvement interventions as planned by each district, essentially training of teachers and members of the Village Education Committees. The DPEP project has recently been expanded into another five districts (Dakshin Dinajpur, Jalpaiguri, Malda, Purulia, Uttar Dinajpur). It has been found that the enrolment, retention and awareness of parents to send their children to schools have increased to some extent in the DPEP districts. The DPEP also has contributed in devising programs to provide primary education to deprived urban children and to disabled children.

However, the changes brought about by the DPEP programme may not have been as dramatic as originally hoped for. Table 7.4 shows the recent pattern of facilities as between primary schools in DPEP and non-DPEP districts. While official enrolment ratios are marginally better, it is evident that for several other indicators such as teachers and rooms per school, the non-DPEP districts are slightly better off even without the large additional resource outlay that has occurred in the DPEP districts.

Primary school data as on 1 April 2003

	DPEP districts	Non-DPEP districts	Total
Number of schools	23852	25976	49828
Number of teachers	71328	81744	153072
Net enrolment rate (5-8 years)	94.95	89.85	92.1
Teacher per school	3.11	3.19	3.15
Per cent 1-teacher schools	11.8	4.1	7.8
Per cent 2-teacher schools	34.6	26.7	30.5
Pupil-teacher ratio	56.62	57.07	56.84
Per cent without building	1.6	1.4	1.5
Per cent with 1 room	31.6	15.2	23

New Schemes of alternative schooling are being developed

In 1997 a new system of alternative schooling was launched by the State government, the Sishu Siksha Karmasuchi. The purpose was to provide access to basic education to the large number of children in the age-group 5-9 years who are unable to get enrolled in the formal primary school because of lack of easy access, unsuitable school timings, lack of accommodation or similar problems. Under this programme, more than 11,000 Sishu Siksha Kendras, or Child Education Centres, catering to 7.5 lakh students, were set up between 1997 and 2001, and many more are envisaged. The programme is under the supervision and control of the Department of Panchayats and Rural Development, which in turn means that the local panchayats have authority over the SSKs in their own villages and monitoring is done by the Village Education Committees. The SSK programme allows for an SSK to be set up in any village where there are twenty or more children in the age group 5-9 years who do not have access to the formal school system, with the proposal coming from the gram sansad and being vetted by the panchayat system. Each SSK has a Managing Committee constituted by the gram sansad, with 7 representatives of guardians, 1 person interested in education and 1 member of the gram panchayat – and at least 3 out of the 9 members must be women. The SSKs have to run for at least three hours a day for 200 days in a year, but all timings are flexible and depend upon local suitability. There are at least two teachers (called Sahayikas) in each SSK, who must be women above 35 years of age. They are appointed by the Managing Committee on an annual contractual basis at a monthly honorarium of only Rs. 1,000, compared to the normal monthly salary of a primary school teacher in the formal system, of at least Rs. 5,000 to 6,000. On average about 80 children are enrolled in each SSK.

The SSKs do not receive any infrastructural facilities from the State government. All such facilities, even buildings, etc., are to be provided by the panchayats from own resources. The State government provides the salaries of the Sahayikas and the free text books (which are the same as those used in the formal system) but there are no arrangements for other incentives such as mid-day meals or school uniforms.

The SSKs have apparently been deemed to be successful, which is why they continue to grow in number and similar schools are being opened in wards of urban municipalities. The programme is now being extended to cover middle school children as well. The Madhya Siksha Karmasuchi was launched in 2001, to provide community managed secondary education to children in the age group 9 years and above, who for various reasons are unable to attend formal secondary schools. The system is broadly similar to the SSK. However, the teachers can be male or female without age bar; the head teacher receives Rs. 3,000 per month and the other teachers Rs. 2,000 or Rs. 2,500 depending upon their degrees.

... but these should not divert attention and resources from universalising and strengthening the public education system.

There are many positive features of the alternative system, such as greater flexibility, greater responsiveness and approachability of the teachers, and more possibilities for supervision by and accountability to the local community through the Managing Committee and the panchayat. This may explain the enthusiasm on the part of the State government and many other observers for this programme.¹¹ However, there are problems with making this the basic way forward in expanding the scope of primary education in the State. Apart from proper infrastructural facilities, quality education is another important factor to be considered immediately for these otherwise out-of-school children. In many more backward areas where such education is really required, it is difficult to find a woman above 35 years who is able to teach primary children. More importantly, the basic assumptions, that anyone can teach children and that pedagogy is unimportant at elementary school level, must be faulted. The lower salaries paid to teachers, the lack of infrastructure and the absence of proper facilities all point to the creation of an inferior level of education compared to the formal school system, rather than ensuring equal opportunities for all children. Therefore it is necessary to avoid the possibility of this parallel system becoming another means of class differentiation in school education.

In turn, it is necessary to devise ways of making the formal system more responsive to local needs and to the specific requirements of children from disadvantaged groups, perhaps by increasing community participation in the supervision of such education. There is therefore a strong case for increasing the control of panchayats over the formal school system in the State. This is possible given the already evident strengths of panchayats and their greater degree of democratic representation in West Bengal. The model provided by the Kerala experience, whereby the primary education system was brought under the supervision and control of panchayats, may be useful in this context.

¹¹ The Pratichi Report, for example, finds instruction in SSKs to be more effective than formal schooling especially for children from backward and underprivileged groups.

BRIEF OUTLINE OF ACTIVITIES OF SCHOOL EDUCATION

On account of emphasis on Elementary Education since the introduction of National Policy on Education, 83rd Constitution Amendment declaring Education as fundamental right has posed a renewed thrust for elementary education with satisfying quality. With the launching of SSA from 2001-2002, the emphasis on Universal Elementary Education has been laid largely. SSA provides additional resources for strengthening core areas of elementary education to achieve UEE. State Government will provide 25% of the total outlay for SSA during the 10th Plan.

Before introduction of SSA and during implementation of the programme also, the State Government keeps on performing certain activities which were taken up as welfare measures for development of education in the State. These are as follows:

a. Incentive Schemes

i. **School Dress:** Supply of school dress is ensured to all the girl students irrespective of caste, religion and economic condition, from Class I to IV. Rs. 10.4250 crore was spent last year (2002-2003) for the purpose.

ii. **Text Book:** Text books with 86 titles and in five languages were distributed to the primary school students as well as to the students of Sishu Siksha Kendras (SSKs). For this, Rs. 20.25 crore (approx.) was spent during 2002-2003 and Rs. 23.58 crore (approx.) has been spent during 2003-2004.

iii. **Mid day Meal :** The scheme is in operation all over the State including Kolkata among about 1 (one) crore children in primary schools during academic year 2003-2004. The scheme has been extended to cover the children of Sishu Siksha Kendras (SSKs) also from this year. From January, 2003, cooked meal is being supplied in 1100 primary schools covering 1,76,500 children in five selected districts of Paschim Medinipur, Bankura, Birbhum, Murshidabad, Jalpaiguri. This year, the programme of supplying cooked food has been extended to 6000 schools covering about 9.60 lakh children in 14 districts of this State. UNICEF made a survey on the efficiency of the programme in above-mentioned districts. The survey report has a positive note on this issue. Remaining districts will also be brought into the arena of this scheme in phases. To provide cooked meal under MDM Rs. 19.26 crore (approx.) has been spent from the State Exchequer.

iv. **Expanded Operation Blackboard Scheme:** From the launching of the scheme, the School Education Department received a total sum of Rs. 11059.00 lakh towards Teaching-Learning Material (TLM) and Teachers' salary till 2001-2002, out of which Rs. 10809.78 lakh has so far been utilised. Steps have been taken to utilise the unspent balance.

b. Introduction of English from Class I

Abiding by the report of Pabitra Sarkar Committee on introduction of English in primary classes, English was introduced from the second semester of Class II. Now it is further reviewed and keeping pace with the increasing demand among masses for English-learning, it is finally decided that English will be introduced from Class I from the academic session 2004-2005.

c. Review of Curriculum, Syllabus and Text Books at the Primary Level

The curriculum and syllabus introduced in 1980-1981 have been revised to keep pace with the modern outlook of our changing society. The new curriculum and syllabus have given due priority on Health and Physical Education, Environmental Studies, Value Education, Competency-based Teaching-learning and Evaluation System with modified form. Text books are also revised to conform to the renewed curriculum and syllabus. Textual matters with clearly identified competencies for each lesson and with elaborate exercises to promote self-learning have been developed through workshop and group meeting.

The syllabi of different subjects taught in the schools have been taken up for revision after a lapse of nearly twenty-five years and new syllabi are to be introduced from the Academic Session 2004 in non-hilly areas and from 2005 in hilly and Dooars area. Books in 'Olchiki' scripts have been published for benefit of students to pursue their studies in upper primary classes in Olchiki.

d. Teachers' Training

i. **PTTI:** There are 58 Primary Teachers' Training Institute (PTTI) in the State at present out of which 35 are Govt. Institutions, 16 are Govt. Sponsored and 7 are Govt. aided Institutions. The present total intake capacity of PTTIs is 6596 of which 50% are for untrained serving teachers and the rest are for the freshers. Under the revised Recruitment Rules of Primary Teachers, no untrained candidate can be appointed in the post of primary teachers. In order to cope with the

increased demand of trained teachers, W.B. Primary Education Act, 1973 has been amended to the effect that the Govt. would allow NGOs to run PTTI without any financial support from the Govt. Accordingly, 37 PTTIs have been accorded permission from this end.

ii. DIET: There will be at least one District Institute of Education and Training (DIET) in each district. Establishment of 16 DIETs (13 through upgradation of existing PTTIs and 3 by new construction) is under progress. Civil works of 16 DIETs have been completed. Govt. has sanctioned 90 posts of teaching and non-teaching staff for five DIETs and efforts are on for sanction of 325 posts for remaining 11 DIETs. Interview for the above 90 posts has been held by the PSC. The candidates will join shortly.

iii. Orientation of Primary Teachers: Orientation of teachers in Science has been emphasised greatly and special emphasis has been given on the methods to promote the power of observation of the pupils learning from the local environment. With introduction of English as second language, WBBPE has developed module on English and completed one cycle of orientation for more than one lakh teachers. Moreover, in a bid to invigorate the momentum of orientation of teachers for teaching English, a 15-Day Orientation Programme was organised for the Key Resource Persons by the Board in close collaboration with the British Council. This will be conducted for general teachers from the next academic session.

Further, with a view to promote the system of health care for the students and formation of hygienic habits among them, the WBBPE launched Primary School Health Programme through workshop. The proposed plan of action involves orientation of teachers & other stakeholder, organization of occasional Health Camps for check-up of health of the children by physicians, establishment of liaison between the teachers and the guardians/parents, hospitals and NGOs, distribution of medical kits and first aid boxes among schools.

e. Diagnostic Achievement Test to strengthen the continuous and comprehensive evaluation:

In a bid to strengthen the system of continuous and comprehensive evaluation, the WBBPE introduced since 1999 an external diagnostic achievement test for the students completing the last semester of Class II. The tests in the subjects—like, first language and Arithmetic have been meticulously administered this year as well involving as many as 15 lakh of students.

f. National Level Achievement Survey at the end of Upper Primary Level:

SCERT (WB) in collaboration with NCERT and WBBSE conducted a National Level Achievement Survey for students at the end of Class VIII on 17th and 18th May, 2003. 50 Schools were selected from each of the districts—Kolkata, Hooghly, Burdwan and Darjeeling.

g. District Primary Education Programme and Sarva Shiksha Abhiyan:

Being launched in 1997 in five districts of West Bengal, DPEP has thereafter been extended to another five districts and is being implemented in 10 districts in total with an aim to universalise primary education in terms of access, enrolment, retention and quality education. The programme has become a part of Sarva Shiksha Abhiyan (SSA) from 2001–2002 which was launched in all the districts of West Bengal both in primary and upper primary levels of education with the following targets:

- Universal Enrolment by 2003
- Universal retention of Primary Education by 2006
- Universal retention of Elementary Education by 2010

AWP&B of 2003-04 envisages the following major achievement and activities:

- School Chalo Karmasuchi, an intensive enrolment drive for the children of 5+ to 13+ age group was launched. Nearly 9.00 lakh out of school children enrolled by 30th September. The rest will be covered this year by opening of alternative schooling centres.
- Nearly 811 New School Building (NSB) and 2051 Additional Classroom (ACR) have been constructed and construction of 461 NSB, 2466 ACR, 312 D & W facilities are in progress. This year (2003-2004) construction of 359 NSB, 13035 ACR and 2454 D&W facilities have been approved. Facilities for Drinking Water (DW) Toilets have been provided in 649 schools.

- Nearly 250000 teachers are being provided with TLM Grant @ Rs. 500/- per year. 62000 schools (primary & upper primary) being provided with school grant @ Rs. 2000/- per year and 50000 primary school being provided with Maintenance Grant @ Rs. 5000/- per year. Nearly 350 Circle Resource Centres were constructed and the rest will be constructed this year.
- Nearly 250000 teachers will be provided at least 10 days' training on different subjects.
- For effective implementation of 'Sarba Siksha Abhiyan', the Government of India has accorded approval for part-time appointment of 23,500 Primary Teachers and 40,000 Upper Primary Teachers. Necessary steps are being taken in the matter. Monthly honorarium of Rs. 1000/- and Rs. 2000/- respectively, has been fixed for the part-time primary and upper primary teachers.
- The members of Managing Committee and Headmasters [60000 + 12000] of the Upper Primary Education sector were provided 3 days' training this year.
- Moreover, District Project Offices have taken up appropriate action with regard to Integrated Education for the Disabled by creating resource support at the district and sub-district level.
- For quality improvement of the children of the primary level, a new initiative called Integrated Learning Improvement Programme (ILIP) is initiated in 4350 schools.
- For the above activities, Govt. of India has already approved a budget amounting to 723 crores, out of which 162.41 crores is the State share.
- Implementation of the DPEP project in the Madrasah and organising a seminar for collection of information of 102 Senior Madrasahs under this project for preparation of a Survey papers are held in all districts. The Madrasahs have been provided with teaching-learning materials and library book grant. Initiatives are taken to make SSA a success in Madrasah by holding seminars for enrolment in the concerned locality.
- Two workshops were organised by SCERT with the financial assistance from SSA in September, 2003, for formulation of Guidelines and development of model scripts for educational broadcast's suitable for upper primary classes.
- The HMs of all the recognised Jr. High, High and Higher Secondary Schools were provided 3-day training wherein the members of Managing Committee of those schools were also covered under this training programme. An SSA Cell is opened at Derozio Bhawan to conduct these activities. Teachers and schools are provided TLM grants @ Rs.500/- per head and school grant @ Rs. 2000/- per school.
- To cover the out of school children at the age group of 9+ to 13+ under school facilities, alternative centres named Rabindra Mukta Vidyalaya Study Centre in the Classes VI - VIII will be opened this financial year. The RMV is preparing materials for their centres.
- Till October, 2003, Rs. 13013 lakh was expended out of the fund placed by GOI & GOWB [12328 lakh + 3880 lakh = 16208 lakh in total].

B. IMPROVEMENT OF MADRASAH EDUCATION:

The West Bengal Board of Madrasah Education, a statutory and autonomous body, set up by Act of this Legislature, has been catering to the educational need of the poorest of the poor to the remotest corners of the State. It has always been striving for improving the academic standard and efficiency of the teachers and the taught.

The Board has now 508 recognised Madrasahs.

For modernisation and need-based re-orientation of Madrasah Education, eminent educationist and Ex-Governor Dr. A.R Kidwai has submitted his report. The same is being implemented by the State Government in a phased manner.

In collaboration with the SCERT, the Jadavpur University, Netaji Subhas Open University and West Bengal Council of Technical Education, the Board has endeavoured to open up vistas in the field of Education to the students of different Madrasahs.

Computer education and Computer literacy has been introduced in the Madrasahs.

5 Madrasahs in the districts of 24-Parganas (North), Malda and 24-Parganas (South), Murshidabad, namely Hatiara High Madrasah, Fatekhani B.M.S. High Marasah, Akra High Madrasah, Danga High Madrasah and Chhaighari Girls' High Madrasah respectively have been upgraded to the status of Higher Secondary Madrasah bringing in a total of such Madrasah to 28.

C. SCHOOL SERVICE COMMISSION:

The West Bengal School Service Commission Act, 1997 (West Bengal Act 4 of 1997) was enacted by Notification No. 936-L dated 1.4.1997 and came into being with effect from 1.11.97 for the purpose of recruitment of teachers including Headmaster/ Headmistress/ Superintendent of Senior Madrasah in recognised non-Govt. aided schools including Madrasahs in West Bengal.

The first Regional Level Selection Test for selection of Asstt. Teachers was held on 10.5.1998 followed by the second R.L.S.T. 1999 held on 26.3.2000, the third R.L.S.T. 2001 held on 14.10.2001 and 29.12.2001 (for Eastern Region only) and the fourth R.L.S.T. 2002 held on 16.3.2003. R.L.S.T. for Headmaster etc. was held in 1999, 2001 and 2003. The process of selection for the Headmaster etc. for R.L.S.T. 2003 is going on.

The total number of candidates recommended by the School Service Commission since inception would exceed 40,000 after completion of the recommendation process for R.L.S.T. 2002 tentatively by January 2004. The Central Commission in addition to the conventional system of publication of the panel utilised the popular and modern technology by displaying in the website whereby the candidates have been immensely benefited.

D. STATE OPEN SCHOOL (RABINDRA MUKTA VIDYALAYA):

State Open School, West Bengal, named as Rabindra Mukta Vidyalaya, was set up in 1997 for providing quality education to those who have been deprived of educational facilities under the formal system. The rural people, backward classes, urban poor people, persons belonging to Scheduled Castes and Tribes and women are being benefited under the system. RMV imparts open learning through study centres run by Secondary, Higher Secondary, Madrasah and NGOs by means of self-study materials and personal contact programmes.

The year 2003-2004 has been a year of further consolidation and expansion for Rabindra Mukta Vidyalaya.

Study Centres:

The number of study centres increased both for the Madhyamik (Secondary) and Uchcha Madhyamik (Higher Secondary) courses during the period under report.

	No. of accredited study centres	
	2002-2003	2003-2004
Madhyamik (Secondary) Course	10	125
Uchcha Madhyamik (Higher Secondary) Course	32	44

Learner enrolment :

Enrolment of learners for the Madhyamik course takes place twice a year. There has been a sharp increase in the enrolment of learners this year.

	2002-2003	2003-2004
Enrolment for Madhyamik (Secondary Course)		
June	4092	7513
December	3925	15,328

Total enrolment up to June, 2003: 28391*

(*This does not include the figure of on-going enrolment of learners for December, 2003 Session.)

There has been a steady increase in the number of enrolment of learners for Uchcha Madhyamik course also. Enrolment for Uchcha Madhyamik Course takes place once a year.

	2002-2003	2003-2004
Enrolment for Uchcha Madhyamik (Higher Secondary) Course	848	1242

Examination: The Ninth Madhyamik Examination was held from 10th June to 21st June, 2003. The result was published on the 14th August, 2003. The next Madhyamik Examination was held from 9th December, 2003.

Uchcha Madhyamik (H.S.) course was introduced in August, 2001. First Uchcha Madhyamik Examination has been held this year (18th November to 3rd December, 2003).

A workshop for study material writers for Uchcha Madhyamik science subjects was organised on 9th and 10th September, 2003. On the basis of the outcome of the workshop study materials on science subject are being prepared by experts.

Survey for the introduction of Vocational Course: With a view to introducing vocational education discussions have been held with the representative of different organisations /Govt. Departments who are working in the field of vocational education.

Preparations are on for the district-wise survey to assess the region specific needs of vocational subjects. Districtwise conventions have been/are being organised for promotion of open learning system of education and also for balanced expansion of the system in all the districts.

E. PHYSICAL EDUCATION & STATE SPORTS SCHOOLS:

For all round development and promotion of sports and games among the school students, schools are provided with funds for sports equipment, swimming platforms, gymnasium for organising coaching camps for school children and for holding Central Refresher Course for physical education teachers. Funds are also provided for holding sports and games for school children throughout the year. Most of the sports and games activities and the coaching camps are organized through different 'District School Sports Association (DSSA)' under active supervision of the mother organisation 'West Bengal School Sports Association (WBSSA)' which shares the major responsibility of these activities on behalf of the School Education Department.

From 2001-2002 academic year, the only Government Sports School in the State under the title of 'Dr. B. R. Ambedkar Sports School' started functioning temporarily at Banipur Education Complex in North 24-Parganas with 30 students in class V. It is a fully residential Sports School. From 2002-2003 the Sports school has been established permanently at Banipur with 60 students who are trained in Athletics, Gymnastics and Archery for the present. In 2003-2004 academic year 86 students are being trained in Athletics, Gymnastics and Archery. In the 49th National School Games, performance of 14 students selected for athletics was outstanding. Most of them won medals.

F. COMPUTER PROGRAMME IN SCHOOLS:

School Education Department introduced Computer Literacy Training Programme (CLTP) in Schools and Madrasahs during 2001-2002. Initially, the programme was introduced in 100 selected schools through WEBEL-NIIT in 2001. The

Department took up additional 200 schools and Madrasahs from May, 2002. Children can take computer as an additional subject in Classes IX and X and sit for Madhyamik Examination. Beside CLTP in schools, the State Government is setting up Practical Computer Centres in all the districts of the State under the Upgradation Programme of the Eleventh Finance Commission. So far 17 centres have already been set up out of the 34 centres for which funds were released to the Zilla Parishad.

G. IMPROVEMENT OF HIGHER SECONDARY EDUCATION:

The West Bengal Council of Higher Secondary Education has revised the syllabi of different subjects on three criteria – (i) keeping in mind and considering the syllabi at Madhyamik level, (ii) in conformity with the syllabi with ISC and other Boards and Councils in the country and (iii) higher education at University level. The aims of education at the Higher Secondary stage are to equip students enabling them to contribute the human values, free thinking and strengthen the concept of 'unity among diversity' and tradition of Indian Society.

The Council has re-introduced specified activities, viz. NCC, NSS, Social Community Service and physical education as compulsory co-curricular activity from the ensuing academic session. The Council has initiated steps to revise the existing Admission and Examination Regulations to cope with the demand of education at the higher level.

H. ADMINISTRATIVE BUILDINGS:

i. New Bhawan of WBBPE: A new building named Acharya Prafulla Chandra Bhawan started functioning from December, 2003.

ii. Regional Offices of WBCHSE : A project for construction of Administrative Building has been undertaken by the Council at Burdwan on the plot measuring approximately 8.5 cotta allotted by the Bardhaman Municipality. The preparation of plan and estimates of the proposed building is in progress.

Another project for reconstruction and remodelling of Midnapore Regional Office has also been undertaken. In this project, the existing building at MRO will be vertically extended up 2nd floor. The Municipal Engineering Directorate has been requested to furnish the plan and estimate for the purpose.

iii. The work of construction of Zilla Siksha Bhawans in Midnapore District is complete and the building has been taken over.

iv. Hooghly Zilla Siksha Bhawan has also been completed.

I. UPGRADATION OF SCHOOLS:

To meet the demand of the students for access and Higher Education, 7 Jr. High Schools have been newly set up, 16 Jr. High Schools have been upgraded to High School and 131 High Schools and 5 Madrasahs have been upgraded to Higher Secondary Schools / Madrasahs. This will met the demand of nearly 30,000 children of the State.

J PART-TIME AND FULL-TIME ADDITIONAL POSTS:

Nearly 131 part-time additional posts and 68 full-time posts have been sanctioned whereas 279 posts have been approved for schools which are recently upgraded to H.S. Schools.

K. IEDC:

The centrally sponsored scheme of Integrated Education for the Disabled Children (IEDC) is to provide educational opportunities for the disabled children in common schools, to facilitate their retention in the school system. The disabled children who are placed in special schools should also be integrated in the common schools once they acquire the functional communication and daily living skills at functional level.

18.1.2008
12990

Proposed Plan of Action:

Keeping in mind of the above stated concept & position following activities have been proposed to be undertaken:

- (a) Assessment of children;
- (b) Training of teachers;
- (c) Construction of Resource Room in four districts namely Nadia, West Midnapore, Burdwan & North 24 Parganas;
- (d) Construction of Ramp & Handrails in selected schools.

L. AREA INTENSIVE PROGRAMME FOR THE EDUCATIONALLY BACKWARD MINORITIES:

Under this important Centrally Sponsored Scheme, basic educational infrastructure and facilities are provided in the areas of concentration of educationally backward minorities. The scheme is in operation since 1993-94, and at present, construction of additional rooms in the existing primary and upper primary schools and also construction of new primary schools are being taken up under the scheme.

M. RETIREMENT BENEFIT OF TEACHERS AND NON-TEACHING STAFF:

According to figure furnished by the Director of Pension, Provident Fund and Group Insurance (DPPG), over 1 lakh 54 thousand pensioners from teaching and non-teaching staff are receiving pension as on 31.03.2004. Nowhere in India such a large number of teaching and non-teaching staff of Govt. Aided Schools are in receipt of pensionary benefits. At present 4724 thousand cases are pending in the said office. Pensionary benefits have been revised as per provision of ROPA, 1998.

Due to special initiatives taken by the Finance Department to expedite the payment of the retirement benefit to retired teaching and non-teaching staff and to clear and pending cases there has been sharp drop in the number of outstanding cases. Serious attempt are being made, including extensive use of computers to clear pending cases as early as possible.

CHAPTER II

OVERVIEW OF EDUCATION SCENARIO IN WEST BENGAL

In 1977, the erstwhile Education Department of the State was bifurcated into 2 separate Departments i.e. School Education Department and Higher Education Department to meet the needs and requirements of Education in the State.

The School Education Department was entrusted with the task of looking after the School Education including Madrasah Education, Social Education and Library Services.

The Minister-in-charge of School Education along with Secretary and Secretariat, take policy decisions in respect to matters related to School Education including Madrasah Education. The Director of School Education implements the policies of the Government through the inspectorate located in the districts, sub-divisions and circles.

The entire School Education system has been decentralised into separate tiers. The educational and administrative system which run the primary schools in the districts are managed by autonomous bodies viz, the District Primary School Council (DPSC) under the supervision and guidance of the West Bengal Board of Primary Education (WBBPE).

The West Bengal Board of Primary Education is a unique feature of the School Education Department under the Government of West Bengal. The Board is responsible for formulating strategies, policies and taking decisions on issues related to primary education in West Bengal. The Board deals with the followings issues:

- (a) To provide, by regulation, the syllabus and the courses for study.
- (b) To maintain and publish the list of books approved for use in primary schools.
- (c) To supervise and guide District Primary School Council on the methods/techniques of teaching-learning process related to primary education.
- (d) To exercise general supervision and monitoring of the activities of District Primary School Councils.

Under the guidance of West Bengal Board of Primary Education, District Primary School Councils are set up for each district. They have the following responsibilities:

- (a) To look into administrative matters like the appointment of teachers and other staff, transfer cases of teachers and other staff and maintenance of service books of teachers in the districts.
- (b) To construct, repair and manage all primary schools under public management.
- (c) To set up new primary schools, on the terms and conditions set up by the government from time to time. In West Bengal, primary education involves 4 grades from classes-I to IV.

The West Bengal Board of Madrasah Education is entrusted for upgrading the Madrasah Education under centrally sponsored scheme, in this State since 1995-96 covering all recognised Madrasahs in phased manner. The object of the scheme is to encourage Madrasahs and Mokhtabs by giving financial assistance to introduce Science, Mathematics, Social studies, Hindi and English in their curriculum so that the students may get opportunity to acquire basic education compatible to the National Education System.

West Bengal District Primary Education Programme provides support to the Madrasah Board. All teaching-learning materials and training manuals developed by WBDPEP have been translated into the required languages for effective utilisation.

The SCERT, under the direct control of the School Education Department, looks after the issues of educational management, research and training.

ADMINISTRATION OF DIRECTORATE OF SCHOOL EDUCATION

The Administrative Section of School Education Directorate, West Bengal looks after all administrative and allied matters. A Report to highlight the achievement of this segment during the year 2003-2004 is as follows:

- (1) For decentralisation of educational planning and administration of School Education system in West Bengal, offices at the Sub-divisional level have been restructured with an officer of W.B.E.S. (Inspection Branch) as head of the office for strengthening Inspection and supervising Administrative works at the Sub-divisional level (both Primary and Secondary) during 2003-2004 and for expeditious disposal of the works relating to salaries, Provident Fund and the pension cases of the teaching and non-teaching employees of the Secondary Schools.
- (2) Arrangement for In-service Training of Inspecting Officers (Sub-Inspector of Schools) have been made during the year 2003-2004 at ATI, Salt Lake, West Bengal for effective educational planning and administration. Officers in the rank of Asstt. Inspector of Schools, District Inspector of Schools, Asstt. Director of Schools and Dy. Director of School Education were deputed/nominated to undergo training at ATI, Salt Lake, Kolkata and at NIEPA, New Delhi on different issues and programmes of School Education during 2003-2004.
- (3) To meet the grievances of the public and assistance to and suggestions from them, a separate Public Grievance and Assistance Cell has been functioning in the School Education Directorate. Out of 205 applications received up to 31.12.2003, 175 cases have been disposed of from Directorate's end and District Authority's end.
- (4) For Educational Administration, there are educational complex (Siksha Bhawan) in the District of Bankura, Purulia, Burdwan, Murshidabad, Malda, Dakshin Dinajpur, Cooch-Bihar, Darjeeling. Admn. Building for educational administration for Howrah, Hooghly, North 24-Parganas, Jalpaiguri, Nadia and extension of buildings of the office of the D.P.S.C. of Murshidabad are under construction as per sanction of the Government during the year 2001-2002. North 24-Parganas and Howrah districts are functioning in the new Education complex.
- (5) List of participants who attended one such administrative Training along with the tabulated course schedule are illustrated in the following page in order to improvement capacity building as well as discharging of academic & administrative functions of the newly entrant Inspecting Officer right from grass root level.
- (6) For qualitative and quantitative improvement of education (Primary and Secondary) importance has been given to inspection and supervision of Schools both at Circle level, Sub-divisional level and District level.
- (7) For the sake of smooth administration and setting up of well co-ordination in different sectors and for quick implementation of difference Central and State Sponsored Educational Schemes in different districts, Joint Directors and Dy. Directors have been assigned as Area Officers of each district in order to minimise the problems as well as updating the works of the District through co-ordination and linkage with the District authorities like D.M., Sabhadhipati, Chairman, DPSC and District Inspector of Schools.

ADMINISTRATIVE TRAINING INSTITUTE

GOVERNMENT OF WEST BENGAL

In-Service Training programme for the Sub-Inspector of Schools**From 21.6.2004 to 25.6.2004****[FN-02]****21.6.2004 (Monday)**

10.00 a.m. – 10.30 a.m.	Reporting and Registration
10.30 a.m. – 10.45 a.m.	Briefing by the Course Director – Sri P. N. Kundu, Additional Director, ATI
10.45 a.m. – 11.45 a.m.	Inaugural Address – Sri A. S. Biswas, IAS, Director of School Education and Ex-officio Principal Secretary to the Government of West Bengal
12.15 p.m. – 1.30 p.m.	West Bengal Education Policy – Maps and Gaps – Sri D. G. Ghatak, WBSES, Dy. Director of School Education, West Bengal
2.30 p.m. – 3.45 p.m.	Sarba Siksha Abhijan – A privilege for pace setting – Sri A. K. Sanyal, WBSES, Dy. Director of School Education, West Bengal
4.00 p.m. – 5.15 p.m.	New pedagogy – how to main-stream to slow learners – Sri Prasanta Kr. Bhowmik, Director, Rabindra Mukto Vidyalaya

22.6.2004 (Tuesday)

10.30 a.m. – 11.45 a.m.	Equality versus Equity in terms of gender/caste/minority – Sri Rajib Sinha, IAS, Consultant, UNICEF
12.15 p.m. – 1.30 p.m.	Pension Rules and maintenance of Service Book of Teachers – Sri S. N. Roy, WBA&AS, Dy. Director (Audit & Accounts), West Bengal
2.30 p.m. – 3.45 p.m.	West Bengal Service Rules – Sri A. K. Mukherjee, WBA&AS, Dy. Director (Audit & Accounts), West Bengal
4.00 p.m. – 5.15 p.m.	Value based administration – Sri M. L. Bhattacharya, Dy. Director, ATI

23.6.2004 (Wednesday)

10.30 a.m. – 11.45 a.m.	Grant-in-aid Rules in Secondary Schools in West Bengal – Sri D. K. Sengupta, WBES, A.D.S.E., West Bengal
12.15 p.m. – 1.30 p.m.	Retention of children at elementary level: Strategy with special reference to centrally sponsored scheme – Sri M. C. Doloi, WBSES, Jt. Director of School Education, West Bengal
2.30 p.m. – 3.45 p.m.	Management Rule in Secondary Schools – Appointment of DDO, Administrator and their functions – Sri N. Sinha, WBSES (Retd.), Jt. Director of School Education
4.00 p.m. – 5.15 p.m.	Effective functioning of office administration and maintenance of office records – Sri M. M. Mohasin, WBSES, Jt. Director of School Education

24.6.2004 (Thursday)

10.30 a.m. – 11.45 a.m.	Legal affairs – relating to Court cases and its processing and follow up of actions – Sri S. Islam, WBES, Asstt. Director of School Education
12.15 p.m. – 1.30 p.m.	Filing of Affidavit and case studies on legal matters – Sri A. K. Sarkar, WBES, Asstt. Director of School Education
2.30 p.m. – 3.45 p.m.	Duties and responsibilities of S.I.S. and relationship with different agencies – Sri S. K. Ghosh, WBSES, Dy. Director of School Education
4.00 p.m. – 5.15 p.m.	Behavioural Management in modern administration – Sri T. K. Ganguly, Addl./CCT/WB

25.6.2004 (Friday)

10.30 a.m. – 1.30 p.m.	Inspection and supervision: The 3rd eye of an Inspector – prospect and feasibility – emphasizing the academic inspection – Sri B. K. Mukherjee, WBSES, Dy. Director of School Education
2.30 p.m. – 3.45 p.m.	Total Quality Management – a new outlook in the field of School Education – Sri R. N. Dey, Director, S.C.E.R.T.

Sub-Divisions are treated as Separate
Educational Districts]

CHAPTER III

Primary Education

Primary Education, a top priority sector of the Government of West Bengal, is free for all children in the age group 5 to 9. The instruction of language at the primary stage is the mother tongue of a child, english has been introduced as second language in Class II. No detention policy has been introduced in primary classes since 1981 as per recommendation of different Education Commissions. With the nation-wide declaration of the programme "Sarva Siksha Abhiyan (SSA)" the State Government has also undertaken some effective strategies to universalize elementary education for all children in the 6 to 14 age group by 2010. The renewal of Text Book and curriculum, capacity building of teachers through Training & Orientation, supply of teaching learning materials, set up of new Primary Schools & Sishu Siksha Kendras, sanction of addl. teachers and sahayikas, alternative schooling/EGS (Education Guaranteed Scheme), infrastructural & environmental development, convergent planning among various departments and initiation of some incentive schemes are the main strategies of the State Government to materialise the aims and objectives of the SSA (Sarva Siksha Abhiyan).

The Project office of SSA with the help of district project office and wide participation of community has taken effective steps towards its successful implementation and completion. The State Government has a strong vigilance on it.

Some Major Incentive Schemes in Primary Education during 2003-2004

With a view to attaining universal Free and Compulsory Primary Education, between the age group of 5 to 9 years, to attain Universal retention thereof, and to improve qualitative development of human resources from early childhood through effective teaching learning process, the main thrust area of activities of the Government is to provide the following incentive schemes:

1. Supply of free school dress to all Girl Students in Primary Schools

The supply of free school dress in an attractive incentive scheme in Primary Education which had a limitation to supply among 100% S.C., S.T. Girls & 25% General Girls including the Girl students of other backward classes but since 2002-2003 the Government decided to provide school dress (free of cost) to all Girls Students of Primary School irrespective of caste, creed and pecuniary condition.

2. School Sports

School Sports is one of the most enthusiastic incentive programme which has long been taken up by the Government of West Bengal in Primary Schools. It involves all Primary School students from Classes I to V for development of their physical and mental growth, increase of sense of punctuality, fellow feelings, sense of national integration, community participation and other finest qualities which are essential in every walk of life. The School Sports are organised in six different tiers viz., School Level, Anchal, Circle, Sub-Division, District and finally ended in State Level Sports Meet with active participation of Students, Teachers, Guardians, Government & non-Government organisations. Scholarships are awarded to the successful competitors of State Level Sports Meet. The successful competitors of the State Meet represented the National Level Sports Meet.

Nationalised Text Book

The scheme of supply of free Text Books to all children of Class I to V of the recognised Primary/Secondary schools was also continued during the year 2003-2004. During the current session about 5.50 crores of books in 90 titles and five languages i.e. Bengali, Hindi, Urdu, Nepali & Olchiki are to be printed and distributed free of cost. Oriya medium books forr Class I to IV were collected from the Orissa Government at free of cost and distributed to the Oriya medium schools in this State. Sishu Siksha Kendras under the Panchayet Rural Development Department have been included in the programme of distribution of free text books. Bengali medium books are also supplied to the authority of Andaman & Nicobar Island free of cost for the Bengali Medium students of the area. Free text books are also supplied for the Sikshalaya Prkalpa under D.P.E.P. in West Bengal and the Railway Schools managed by Eastern Railway at free of cost.

Revised Scales of Pay for posts in Primary Schools (Ropa-1998)

Supervision and Monitoring set up for Primary Education

The administrative section of School Education Directorate, West Bengal looks after all administrative and allied matters of primary education at State level. At the district level, the monitoring and supervision is mainly entrusted upon the District Inspectorate for Primary Education. District Inspector (PE) is the head of the District Inspectorate for Primary Education. In order to further decentralize, Additional District Inspector of schools are being posted in the districts with financial powers. The sub-district level or the circle is looked after by the SI of schools. In DPEP districts, each circle has a Circle Resource Centre (CLRC), with SI of School (PE) being the ex-officio Circle Project Coordinator (CPC) and in charge of the CLRC.

Provision of Drinking Water & Toilet facility in Schools:

Apart from basic construction, DPEP fund is also utilized for the provision of Drinking Water and Toilet facility in schools. In addition, the Total Sanitation Campaign programme is utilized where the fund from other sources such as fund from UNICEF or Zilla Parishad is dovetailed for covering each school in the district.

Child Friendly Element (CFE) in School

For ensuring child attractive school environment, the child friendly elements are also included in the construction activity. In each district some construction for CFE have already been executed. The internal elements are ledges along walls, children's chalkboards of various shapes and sizes, display boards etc. External elements are open sitting arrangements, amphitheatres, slides, swings, play walls, sand pits etc.

Community Mobilisation

Community Mobilisation is an important component of DPEP. The active involvement of community members is the key factor towards the success of **Universalisation of Primary Education**. The platform for community participation in UPE is the Village Education Committee (VEC) in rural areas and the Ward Education Committee (WEC) in urban areas. Through regular meeting/training of the members of VEC/WEC, an ownership pertaining to education in the locality has gradually been developed.

As a result, the involvement of the community is a pre requisite in civil construction, enrolment, retention and quality education of children, micro level and planning and implementation, establishing alternative schools, ensuring attendance of the teachers and students, etc.

During 2002-03, following activities were undertaken:

District Level Activities

- Capacity building of RPs and VEC/WEC members through meetings/issue based training at local/CLRC levels.

Districtwise Status Report of VEC & WEC

Name of District	Total No. of Gram Sansad	Total No. of Ward	No. of VEC formed	No. of WEC formed	Total No. of VEC & WEC Members	No. of VEC & WEC Member Trained

- Maintenance of child register with latest information of the children.
- Developing and printing of materials for capacity building of VEC/WEC members.
- Different activities for enrolment and retention like:

(i) Folk campaign particularly in pocket areas

(ii) Issuing of Green cards and Pink cards particularly for migrating children

(iii) For the wider sensitization of Parents, Teachers and the community at large on the issues of Universalisation of Primary Education, hoarding and wall writing have been put up at important public places, Block Office, Municipalities as well as at School campus.

State Level Activities

- Review meeting with the CM Co-ordinators of the concerned district.
- Meeting with the State Resource Group members.
- Meeting with representatives from Teachers Organisation.
- State level meeting with the ADMs, DPOs and Teacher's Organizations on enrolment drive.

Habitation Planning

Besides the forgoing activities on community mobilisation, the Habitation Level Planning activities were conducted at different places of those districts as a strategy for ensuring active participation of the community. A few examples on Habitation Level Planning activities are given below:

Micro planning exercises, in the form of Habitation Planning taking into account all the available secondary and primary data, are being conducted in each DPEP district. With the help of external facilitator, VEC members and other representatives of the community carry out this exercise and make comprehensive plan on their own, for their

localities related to access, enrolment, retention, quality improvement and also for bridging gender and other social category gaps. There is a vision to initiate this process in each habitation and to continue the same under Sarva Shiksha Abhiyan even after DPEP period.

At the initial stage, Habitation Planning exercises were utilized to establish the linkage between selected ILIP schools and the concerned communities. On the line of the said objectives, a few experiments have been undertaken in Malda, Murshidabad, Dakshin Dinajpur, Cooch Behar and Jalpaiguri districts.

The importance of community participation is injected through Participatory Learning & Action (PLA) in Habitation Planning. The outcomes of such micro-planning exercises with communities have been incorporated to habitation plans with thrust on quality of education.

A number of Habitation Planning trainings/workshops has been organized at State Level. The participants in those workshops were District Project Officer, Additional District Project Officer, Deputy District Project Officer, Sub-Inspector of Schools and other Co-ordinators from the 10 DPEP districts.

(a) **Habitation Planning at Malda:** The habitation planning exercise was organised at Malda on April 22-24, 2002 through a workshop which was attended by 2 Resource persons from each Block. The programme was organised by District Project Officer, SSA & DPEP, Malda with support from SPO, PBRPSUS. The programme was conducted jointly by a team comprising two officials from SPO and 2 Key Resource Persons already trained at Kalna. The programme was designed with the objective of capacity building of about 2 Key Resource Persons (External Facilitators) coming from each Block on habitation planning for UEE through hands on training; capacity-building of Animators from selected habitations and Chairman and Secretary of each of the concerned VECs (Internal Facilitators); and ultimately the preparation of 3 *Habitation Plans for UEE* at the end of the programme.

(b) **Habitation Planning at Dakshin Dinajpur:** Micro-planning exercise was organized at district level of Dakshin Dinajpur between 5th-7th December, 2002, through a field based training-cum-workshop by State Project Office with support from the District Project Office. The participants in this workshop were Sub-Inspector of Schools, who are the Co-ordinator of CLRC, Resource Teacher, Member of the Gram Panchayat and District Resource Persons. The main objectives of this workshop was to orient of the District Resource Persons with the methodology of formulating **Habitation Level Plan** by applying PLA techniques.

Similar micro-planning exercise was undertaken at Uttar Dinajpur, Jalpaiguri, Murshidabad and Cooch Behar districts on 25th -27th November, 2002, 24th-26th November, 2002 and 24th-26th October, 2002.

Alternative Schooling

Various complicated socio-economic, cultural and geographical reasons have come in the way of infringing the rights to basic education of many children. There are children who are living in difficult circumstances and are still outside the purview of formal schooling. This ground reality compels the educational planners and educationists to put much emphasis on more flexible alternative systems of education so as to ensure universal access, enrolment and retention of the children of the deprived section.

Shishu Shiksha Karmasuchi in West Bengal

❖ The existing Alternative School system in the name of Sishu Shiksha Karmasuchi is being run by the Panchayat and Rural Development Department, Government of West Bengal to ensure access in unserved habitations, in areas having geographical barriers and even in the served habitations where the enrolment pressure is high. The Shishu Shiksha Karmasuchi is being implemented through community managed schools named Sishu Shiksha Kendras (SSKs) with the involvement of Shiksha Sahayikas (SS) recruited from the locality.

Districtwise Status Report on SSK

District	No. of SSKs running	No. of Sahayika	Total No. of Children enrolled

Total	7527	17636	487178

❖ Bridge Course

Bridge Course programme initially started as pilot basis in collaboration with UNICEF. The pilot project has been implemented in 2 DPEP districts in West Bengal. The Bridge Course programme is mainly conducted for those children, who are dropped from the formal school system or the children never enrolled to schools. After successful completion of Bridge Course curriculum, those children will be mainstreamed either in formal schools or in Alternative schooling system.

Status of Pilot Bridge Course Programme

District	No. of Centres Opened	No. of Learners
Murshidabad	29	654
Jalpaiguri	25	673
Total	54	1327

Activities for Bridge Course:

- Bridge Course materials for Class-I to V has already been prepared.
- District Support Team Members have been recruited in the concerned districts for academic support and for monitoring the centers.
- Training imparted to the District Support Team Members, Bridge Course Instructors and the Resource Persons of Bridge Course.

❖ Opening of EGS Centers run by NGOs

State Government has already decided to involve to NGOs in alternative education system for hardest to reach children for specific period. As a result the following initiatives have been undertaken for opening of EGS Centers to be run by the Non-Governmental Organizations:

- An eleven member Grant In Aid Committee (GIAC) has been constituted for giving approval to the proposals submitted by the NGOs.
- Advertisement published in the local daily inviting proposals from bonafide NGOs for opening EGS Centers.
- Guidelines for opening of EGS Centers have been sent to the districts.
- NGOs are submitting proposals to District SSA Office.
- The District Project Offices from different districts have forwarded few proposals to SPO. These are to be placed before the GIAC.

PEDAGOGY

The main indicator of the quality education is the learners' achievement both in scholastic and non-scholastic areas. Keeping in view, the objective of DPEP intervention particularly the quality education of all children, both the teachers' based modular training and child centric, learners' based pedagogical activities are being organized at different levels even down the school level. It revolves around the quality of infrastructure and support services, curriculum and teaching learning materials, classroom processes, pupil evaluation, involvement of community, monitoring and supervision etc.

The thrust under DPEP towards quality education

- Organising Workshop/training for teachers on a periodical basis and with a follow up mechanism.
- Creating and sustaining teacher motivation through workshop at CLRCs
- Revitalizing supervision system for quality elementary education.
- Organising Workshop with teachers on the issue of district specific needs.
- Development of competency based and contextual teaching-learning materials.
- Improving teaching-learning processes and emphasizing activity based child centred joyful learning through hands on support to the teachers and students.
- Providing remedial teaching and enrichment programmes for all.
- Sustaining the process of regular and comprehensive evaluation and grading system.
- Emphasizing the participatory management in elementary education with community support.
- Orienting the district key functionaries on quality issues under SSA.
- Orienting the teachers on SSA intervention
- Capacity building of teachers in few districts on new pedagogical concepts focusing micro level intervention for the qualitative improvement of each individual child.
- Capacity building of CPCs on role & function of CLRC.
- Provided TLM grant @ Rs. 500/- p.a. to all in position teachers.

Activities undertaken are of two kinds:

↳ Macro level activities.

↳ Micro level activities.

➤ In Macro level activities, its main emphasis has been laid on in service training of Primary Teachers, training of CLRC personnel, Resource personnel, support like supply of modules for Teachers' Training, TLM Grant, School Grant and monitoring.

Micro level activities like SLIP (School based Learning Improvement Programme)/ILIP (Integrated Learning Improvement Programme) have been introduced in 10 DPEP districts of West Bengal. It focusses the need for a shift from teaching improvement initiatives to learning improvement initiatives by providing school based, need based and hands on support to teachers and students with simultaneous institutional arrangement for ensuring management of change on a sustained basis.

State Level

- Training of KRPs on 3rd module (150 KRPs of 10 DPEP districts)
- Development of training materials on Role & Function of CLRCs/CRCs/CPCs/RTs.
- State Level Workshop for District Resource Persons of DPEP Districts on Role & Function of CLRCs/CRCs/CPCs/RTs.
- Development of training materials on Multigrade/Large size class room situation/Effective use of Library books in collaboration with Distance Education Cell.
- State Level Workshop for District Resource Persons of DPEP Districts on Multigrade/Large size class room situation/Effective use of Library books in collaboration with Distance Education Cell.
- State Level Workshop for District Resource Persons on Noon/Afternoon Workshop.
- Revision of class-IV Text Books by West Bengal Board of Primary Education.
- State Level Workshop for development of module on Health Education By WBBPE.
- State Level Workshop for development of module on English Training By WBBPE.
- State Level Workshop for Revision of curriculum and syllabus By WBBPE.

Circle Resource Centre (CLRC) & Cluster Resource Centre (CRC)

In order to co-ordinate activities relating to implementation of DPEP at the sub-district level in general and to provide academic resource support to the teachers of primary schools in particular, CLRCs in place of BLRCs in the DPEP districts have been set up. This has a novel peculiarity that the CLRCs are developed at the circle level with 60-70 schools and 120-150 teachers. In West Bengal Circle is the lowest administrative set up at sub-district level for primary education. Sub-Inspector of Schools of the circle has been authorised to function as Circle Project Co-ordinator (CPC) of the concerned CLRC in addition to normal duties. All academic and administrative functions have been carried out from CLRC. Since SSA has been launched in the State and demand of quality education of each district is the area of concern of the local community, the concept of CRC with 10-12 primary schools and upper primary schools under each gram panchayat or in municipal level has been developed. The CRC is headed by one CRC co-ordinator. CRC is mainly looking after the quality of education within the area and co-ordinate all the agencies in the field of primary and upper primary education under the guidance of CPC. The CLRC has two resource teachers—one for primary and other for upper primary intervention. It provides resource support to the schools, conducts evaluations, monitors and supervises organised mobilisation of community and support to strengthen the planning and management process.

In 10 DPEP districts major activities of CLRC

- ★ RTs are holding noon and afternoon workshops for VEC members and teachers respectively.
- ★ Each school and each VEC are being monitored by RTs/CPCs once in two months. School visit is being held regularly.
- ★ Field level data are being compiled at CLRC level and being used for planning and monitoring.
- ★ Compilation of data coming from VEC through monthly reporting system.

Integrated Learning Improvement Programme (ILIP)

From 2002-2003 academic years SLIP (School based Learning Improvement Programme) was renamed as ILIP (Integrated Learning Improvement Programme) in consultation with WBBPE. Presently the programme includes 4018 schools in 8 DPEP & SSA districts viz. Bankura, Birbhum Murshidabad, Coochbehar, Jalpaiguri, South 24 Parganas, Uttar Dinajpur, Dakshin Dinajpur and 7 non-DPEP viz. Kolkata, Howrah, Hooghly, Purba Midnapore, Nadia. The programme has been extended up to Class-II in 3506 schools, where Class-I had been covered by the said programme in the previous year.

This programme is running extensively with support of the organizations like:

- ★ WBBPE
- ★ DPSC, of each district
- ★ DSE, West Bengal
- ★ SCERT, West Bengal
- ★ UNICEF

A. Principle

Overall development of a “child” through holistic approach involving community at large with introduction of scientific “Learning Initiatives” in the class-room

B. Aim:

Qualitative improvement of primary education through

- ★ Self Learning
- ★ Peer Learning
- ★ Co-operative learning
- ★ Elimination of existing disparity among the “advantaged” and “disadvantaged” group within the class room.
- ★ Shifting from teaching improvement initiative to learning improvement initiative.
- ★ Reduction of gender and social gaps.
- ★ Ensuring community participation.

C. Activities undertaken

Administrative and managerial

- Engagement of VRP from local community to high PTR.
- Formation & functioning of DQMT (District Quality Management Team).
- Engagement of DRF (District Research Fellow)
- Addressing the infrastructural inadequacy, the morning shift introduced in some schools.
- Monitoring each school by DQMT and State Team.

Capacity Building

(i) Workshop

- Three State Level Workshops—sharing and feedback of different prior activities and prepare action plan on forthcoming activities.
- Sensitization of district functionaries.
- Sensitization of sub-district functionaries.
- Regular CLRC afternoon workshops (monthly/bimonthly) for sharing feedback, planning, finding out solution for specific problem related to class-room teaching.
- District Level TLM workshop—grade and subject specific preparation and improvisation of TLM.
- On class-room transaction with relevant teaching-learning material.
- Workshop with concerned organization on the issue of convergence.
- ILIP packages in relation to existing text-books.

(ii) Training

- DQMT Training
- KRP/RP Training
- Teachers' Training
- VRP Training

Different training programmes for the members of the District Quality Management Team, Resource Persons/ Key Resource Persons, Teachers and Voluntary Resource Persons have been organized at the district level.

(iii) Research, Study & Analysis

- BAS, to assess learners' level of achievement.
- Terminal evaluation to assess and compare learners' level of achievement time to time.
- Comparative study between ILIP and non-ILIP schools under similar infrastructural condition and manpower in position.
- Circlewise comparative study of a particular district.
- Study on attendance with progress of the programme.

(iv) Material Development

- Designing of worksheet for drill & practice, evaluations.
- Moderating worksheet
- Preparing teachers' manual & handbooks.
- Developing low cost, highly sustainable, competency based user-friendly TLMs of each subject.
- Preparing training materials, training schedule.

(v) Others

(i) Community ownership programme

- Conducting Participatory Learning and action (PLA) Programme to generate awareness and ensure participation of community as beneficiaries.
- Conducting regular meeting through MTA

(ii) Media and Documentation

- Video photography on PLA.
- Visual documentation on workshops, training and class-room transaction.
- Audio documentation on reading skill.
- Updating database of various activities.
- Exhibition of several documentation and teaching learning material in Vidyasagar Mela.

D. Achievement:

(i) Inside Class-room

- Teacher attached entirely for Class-I as group teacher in most cases.
- Participatory learning culture through large and small group activities.
- Teacher as a facilitator.
- Responsible function of group leader.
- Articulation of team spirit and co-operative work culture.
- Active engagement of student in task and sub-task.
- Flexible management between time and task
- Interlinking between cognition and experience by the VRPs in identification of relatively slow learners and also providing remedial teaching.
- Qualitative improvement of students' independent reading writing and comprehensive ability.
- Qualitative improvement of student in mental computing and systematic problem solving activities.

(ii) Outside class-room

Communities/parents have now become more conscious about importance of education. They have become more keen to attend PTA/MTA/PLA in order to solve basic problems of schools. They have turned towards quality consciousness.

GIRLS' EDUCATION

Awareness Generation Campaign

Lalmohan Bagdi and Chhaya Bagdi of Nutangram (Joypur Circle, Bankura) are the parents of a son and 3 daughters. The couple, who work as wage-labourers, live in a mud house with a tin roof. Their eldest daughter, thirteen years old Moyna, works as a domestic help while the other three go to the nearby primary school.

This pattern of life has changed a bit after a unique event in the locality. Chhaya and her daughters attended a 'Ma-O-Meye-Mela'—after which chhaya was compelled to think in a more positive way about the necessity of educating her daughters—especially Moyna, who had dropped out of school in Class II.

Ma-O-Meye-Mela—an event organised by DPEP—provides a platform for the rural womenfolk to come together and exchange their views on the need for educating their daughters. The events organised in this Mela give the mothers and the daughters a chance to explore their hidden talents, and participate in a cultural forum with a message.

An Impact Study conducted by DPEP, Murshidabdd, on the Ma-O-Meye-Mela has brought to light the following facts:

- ***38.11%** of the mothers attending the Mela were motivated to enroll their children in school

- ***16.28%** felt they now had become aware about the issues of education, health and recreation of the girl-child

- ***16.64%** of the mothers had been motivated to check the drop-out tendencies of girl children

- *An overwhelming **98.86%** of the members interviewed had opined that Ma-O-Meye-Mela is a positive step of DPEP towards ensuring education of the girl-child.

Meena video shows and Ma-O-Meye-Melas are conducted at Block, CLRC, GP, VEC and school levels in all DPEP districts. In Coochbehar and Malda, all GPs were covered by this intervention, whereas in Murshidabad, school level Melas were conducted in selected schools for micro-intervention activities.

World Womens' Day was observed on the 8th of March, 2003 at CLRC level in all DPEP districts through rallies, cultural programmes, debates and discussions, etc. in which all participants are women and girl-children.

Sensitization Programmes

Sensitisation programmes on gender issues with focus on Girls' Education under DPEP is conducted for project personnel, educational personnel, district and block level functionaries of the administration, Panchayet functionaries, VEC members and teachers. A total of 50586 Primary Scgool teachers in DPEP districts have been sensitised so far on gender issues with a focus on Girls' Education.

Mother Teacher Associations

As a follow up action of the Ma-O-Meye-Mela, formation of school based **Mother Teacher Associations** (MTA) is in progress in the primary schools of all DPEP districts as a strategy for retention and ensuring quality education for girls. These MTAs are formed through a method of focussed group discussion, where mothers of in-school children choose their own representatives for the MTAs. More than **11000 MTAs** have been formed so far in the 10 DPEP districts. Capacity building exercises for the members of these MTAs are being conducted by specially trained Resource Persons, who facilitate the meetings of MTAs based on specific issues pertaining to Girls' Education. MTAs have proved to be effective in forging a linkage between the school and the community, and at the same time have provided a platform for the mothers to exchange their views on educational issues.

Seminar on Women Education at Salkia Balika 'O' Silpasrama jointly conducted by International Society for Inter Cultural Studies & Research.

Case Studies on MTAs

(A) **Mayureshwar Primary School** is situated in a tribal belt in the district of Birbhum, a Phase I DPEP district. The Mother Teacher Association in this school was formed with the Head Teacher and 8 mothers representing 8 habitations surrounding the school. The mothers themselves in a democratic mode elected one of the mothers as the convenor of this MTA. The MTA members have met several times to discuss enrolment, retention, evaluation and performance levels of children. They also discussed the problems of girls and disabled children, health related problems of children, and functions of the VEC and MTA.

In order to specifically monitor regular attendance of children every month the teacher prepares a list of irregular children and gives it to the MTA members for follow-up action. MTA members who represent different habitations interact with the parents of the concerned children in the respective habitations, and ask them to send their children to school regularly. Later, they also make enquiries in the school to check whether any positive change has occurred in the attendance pattern of these children.

(B) **Dandim Yogendra Primary School** is situated in the hilly, tea-garden terrains of Mal Circle, in the northern part of Jalpaiguri, a Phase II DPEP district. The school, with a roll-strength of 525, uses both Bengali and Hindi as the medium of instruction. The members of the Mother Teacher Association of this school have raised a demand for recruitment of 2 more teachers in addition to the 5 working teachers of the school. 228 mothers were present in the last meeting of this MTA, where the mothers also held discussions on the Terminal Evaluation, Annual Sports and Health Issues of children. Since several children in this locality were suffering from malaria and gastrointestinal ailments, the mothers unanimously decided to contact the nearest sub-divisional hospital for a health check-up of their children.

These mothers, who had never been consulted on any important issue prior to the formation of the MTA, enthusiastically organized a Ma-O-Meye-Mela in this locality, the first of its kind in Jalpaiguri.

Innovations: Convergence between SHGs & MTAs in MALDA

Self Help Groups (SHG) consist of poverty stricken persons and they were driven to form groups for income generating activities and working together for common gains. They also impart literacy to non-literate persons within the groups as one of their obligatory activities. Hence, it was felt that the SHGs could be mobilized into activities, which could be supportive to the aims of DPEP & SSA. It may be noted here that a majority of the SHGs consisted of women members.

District level orientation camp was conducted with representatives of 5 best functioning SHGs under the scheme of **Swarnajayanti Gram Swarajgar Yojana (SGSY)** from each block in Malda. The main issues taken up in these camps focussed on:

- * The area specific problems of the district
- * The common problems towards Universal Elementary Education
- * Rights and needs of children
- * DPEP and SSA strategies of programme implementation
- * Suggested roles and functions of the SHGs as supplementary to the roles and functions of VECs and MTAs

The participants of this camp were considered as Resource Persons, who in turn would go back to the respective blocks and organize similar camps with other group members to spread the message. Prompt responses have been received from the District Rural Development Cell for providing the desired support to SSA with the help of the Self Help Groups. The current status of enrolment, retention and achievement levels of girls in DPEP district are as follows:

Status of Girls' Enrolment to Total Enrolment in Primary Education
(in Percentage)

District	2001-02	2002-03
Bankura	47.46	47.62
Birbhum	48.59	48.90
Coochbehar	49.42	49.46
Murshidabad	49.77	49.61
South 24 Prgs.	49.77	49.88
DPEP Phase-I Total	49.27	49.27
Dakshin Dinajpur	49.50	49.49
Jalpaiguri	48.88	48.94
Malda	49.57	49.77
Purulia	45.59	46.95
Uttar Dinajpur	47.32	48.13
DPEP Phase-II Total	48.25	48.71
DPEP Total	48.88	49.06

Source: DISE (2001-02 & 2002-03)

The enrolment percentage of girls in the primary sector presents a satisfactory picture. Bankura, Birbhum, Purulia and Uttar Dinajpur districts require focused attention and intensive intervention on Girls' Education.

In the Tables given below, we find a rural-urban, and a caste-wise break up of the DPEP districts with respect to Girls' Education.

**Status of Enrolment of O'all, SC/ST Girls
vs. Gross O'all, SC/ST in Primary Education**

District	PRIMARY					
	Total Girls' Enrol. %	2001-2002 SC Girls' Enrol. %	ST Girls' Enrol. %	Total Girls' Enrol. %	2002-2003 SC Girls' Enrol. %	St Girls' Enrol. %
Phase I DPEP	49.27	48.39	47.37	49.27	48.56	47.70
Phase II DPEP	48.25	48.38	46.49	48.71	48.86	47.36

Source: DISE (2001-02 & 2002-03)

Looking at the social category-wise analysis of girls' enrolment percentage, distinctly different pictures emerge for different social groups, especially for the Upper Primary sector. In the Primary sector, there is a slight gap of around 5% among the ST categories. The scenario for enrolment percentage of ST girls is dismal for almost all the DPEP districts except Coochbehar, and is considerably bad in Jalpaiguri and Dakshin Dinajpur.

Retention and Achievement Levels of Girls in Primary Education

Districts	Drop out Rate %	Repeaters' Rate %	Completion Rate in Four years
Bankura	16.57	18.42	67.25
Birbhum	18.23	36.0	54.42
Coochbehar	16.08	48.05	45.25
Murshidabad	15.76	18.69	68.92
South 24 Parganas	20.37	35.34	52.37
Dakshin Dinajpur	34.67	37.15	37.63
Jalpaiguri	20.20	46.66	43.75
Malda	27.39	27.24	53.55
Purulia	39.87	51.16	30.73
Uttar Dinajpur	46.35	32.63	41.20

Source: COHORT STUDY

The **Drop Out** rate for girls in the Primary sector has dropped below 20% in almost all the Phase I DPEP district except South 24 Parganas, where the rate is marginally higher. However, the scenario of Phase II DPEP districts, especially Dakshin Dinajpur, Purulia and Uttar Dinajpur calls for much more focused attention on those districts in order to ensure Retention.

Except Bankura, Murshidabad and Malda, almost all other DPEP district have reported high **Repeaters' Rate** for girls in the Primary sector. Coochbehar, among the Phase I DPEP districts, Jalpaiguri and Purulia among the Phase II DPEP districts, with more than 40% repeaters, are the worst performers in this respect.

School efficiency or **Achievement Level** of girls in the Primary sector has been assessed by the rate of completing 4 years of schooling in 4 years time. Except Coochbehar, all DPEP Phase I districts have exceeded the 50% landmark. On the other hand, 4 out of 5 Phase II districts have a long way to go to ensure quality of Girls' Education with only Malda crossing the 50% landmark.

Students Obtaining Marks $\geq 60\%$

PRIMARY				
Districts	2001-2002		2002-2003	
	Boys	Girls	Boys	Girls
Phase I DPEP	32.76	31.29	34.53	32.42
Phase II DPEP	25.61	23.43	32.25	30.09

Source: COHORT STUDY

From the reports given above, it transpires that the objective of universal enrolment has been achieved to a large extent in the primary sector of almost all districts, barring a few pockets. Retention and Quality Assurance continue to be major areas of concern with less than 40% children passing out of Primary School with more than 60% marks. Girls in this respect are seen to be lagging behind slightly than boys.

Integration Education For Children With Special Needs

Realizing the fact that the education for children with special needs is complex and require various approaches, WBDPEP has been implementing various strategies and activities to bring children with special needs into mainstream of the educational system.

Enrolment of Children with Disabilities

1. Steps taken by Government of West Bengal in this regard are:

- (i) Circular issued to all schools to admit all challenged children in educational institutions recognized by Education Department.
- (ii) So far 45805 challenged children integrated in 10 DPEP districts.
- (iii) DLROs identified and direct contact programme through Special Educators intensively being done.

Integrated of Children below 5 years of age

Convergence made with Women & Child Development and Social Welfare (WCD & SW) Department on the following issues:

- Enrolment of disabled children in Anganwadi centres
- Training of ICDS workers on identification of disabled / at-risk children
- Creation of barrier free environment in all Anganwadi centres
- Creation of database for the children below 5 years including disabled children
- Development of disabled friendly pre-school materials. TLM provided to 21815 AWCs in DPEP districts.

Integration of Children with Learning Disabilities

Identification of the Learning Disability (dyscalculia, dyslexia, dysgraphia, ADD) is a very technical issue, hence assessing such children in the classroom is not easy. Special educators have been oriented on this issue.

Teachers' Training

- 47434 primary school teachers have been sensitised on integrated education with a 2-days' training. Module and suggested reading materials for the purpose developed and distributed.
- 6 days' (40 hrs.) intensive training has been started for one teacher from each school. So far, 2472 teachers have undergone such training.

Sensitisation of Parent, Teacher & Others

- Every VEC has to select one member from amongst parents of challenged children from Gram Sansad. Parental counseling organised by the experts.
- A dedicated team of Key Resource Persons from the Family (KRPF) has been formed in eight districts. Training of such 320 KRPF members completed in the last year
- Observation of special days' like World Disabled Days' etc. by holding mass rally, cultural competitions etc.

Awareness Generation Activities

- Several Distance Learning Materials on Inclusive Education developed for the parents, teachers and community members. In all these materials simple instruction on tackling the issues related with challenged children and information on various facilities available have been incorporated.
- Leaflets, Posters and Wall writing are used for dissemination of related information at the grassroot level.

Attitudinal Change

- Several workshops, orientation programme and seminars organised at state level for planners, district officials and implementers.
- Different compendium and booklets have been prepared for use by the key functionaries and teachers.

Curriculum Development

Several workshops organised by West Bengal Board of Primary Education (WBBPE) for modification of curriculum for fulfilment of the needs of disabled children.

Resource Support

The state has decided to engage 'District Level Resource Organisations' (DLRO)—who are NGOs having experienced in the field of disabilities. The DLRO ensures availability of three special educators (RCI Registered) in the field of Mental Retardation (MR), Hearing Impaired (HI) & Visually Impaired (VI). 75 special educators under 24 such DLROs have already been engaged in 10 DPEP districts. The special educators of DLRO are working with the integrated children, their teachers, peers and other family members at the grassroot level.

Recently State Government has engaged Speechtherapists and Physiotherapists in all the state general hospitals under health project. The district authority seek the help of such physician as and when required.

Information on Disability

- Detailed data on disabled children up to the age of 16 years is available in the Gram Sansad wise 'Child Register'.
- Screening and Assessment is going on at the sub district (Block) level with the help of technical experts. Type and degree wise data on Disability is being maintained at district level up to the age of 10 years. Last year around 125 assessment camps were held in 9 districts of DPEP.
- Recently a meeting was held with the Principal Secretary, WCD & SW, Commissioner-PWD Act, PWD Act, Principal Secretary, Education Department and SPD, PBRPSUS. It was decided that all the related Department including National Institutes will share data among others for preparing a common database.

Information on No. of Children with special needs

Districts	No. of blocks covered	No. of children screened/identified	No. of disabled children already enrolled in schools		
			Boys	Girls	Total
Bankura	22	2814	2312	1553	3865
Birbhum	19	4619	3540	2509	6049

Total of DPEP districts	4142	47434	2472

Extracts From the 16th JRM

Enrolment and Attendance

There has been an upward trend in both GER and NER in phase I districts, from 100% to 119% and 82% to 93% between 1998/99 and 2001/02 respectively. There remain an estimated 4,01,236 out of school children in 10 districts covered by both phases of DPEP. There are district level plans to accommodate 2,43,476 of these children in government primary schools, SSK, or Bridge Course in the current academic year. Attendance needs to be considered along said basic enrolment data from phase I shown an encouraging trend of improvement, with average attendance now between 60% and 70%. Examination of registers during field visits corroborated this and also noted the habitual absenteeism was rare. Across the 10 DPEP districts block level screening and assessment camps have identified nearly 35000 children as disabled, of which 43% remain out of school on account of the severity of the disability and non-availability of aids and appliances by different agencies. The mission noted during the field visit the significant attention being paid at CLRC level to children with disabilities, in particular the influence of peer groups on the participation of disabled children.

Retention

Phase I districts show significantly lower drop out rates (17.2%) than phase II (33.8%). Besides repetition rates in phase I district is 29.9% and phase II 39.3%, both being relatively high. Drop out rates for both SC and ST children in phase I districts are significantly lower than in phase II districts. The drop out trend in phase I is decreasing, repetition rate in 4 of the 5 phase I districts show an increasing trend, as high as 25% in one district.

Completion

Phase I data show a higher rate (58.7%) of 4 year completion of the primary cycle than phase II (41%), with a further 13% completing in five years in both phases. The percentage of ST children completing in four years is worked by lower (46%) than the average, with SC rates only marginally less (54%). End of cycle performance data

is available through DISE giving overall pass rates in connection with data available on progression to class V (upper primary) which in DPEP districts show 64% transition.

Quality and Equity

There are numerous initiatives being developed to monitor and improve the quality of primary education through DPEP. At the state level the text books for class I to class III have been renewed by the WBBPE and those for class IV are currently being developed, WBBPE has also developed multi-grade teaching modules.

At the district level the quality enhancement initiatives center around the 327 Circle Level Resource Center (CLRC), which have become the focal points for improvement in the teaching and learning process. Regular afternoon workshops are held focusing on difficult areas (hard spots) and Teaching Learning Material (TLM) development. The formation of District Resource Group supports the CLRCs in these efforts. Further support is extended through a programme of school visits by CLRC based Resource Teachers (RTs) under the aegis of the Circle Project coordinators (CPCs). There is a welcome move away from formal inspection to more supportive supervision.

The most significant intervention is the School based Learning Improvement Programme (ILIP). This is a multi faceted programme involving the community, the school and the Circle Resource Centers (CLRCs). Under SLIP/ILIP efforts have been made to further engage the community in the management, infrastructure, environment and the class room. School improvement has become the subject of VEC meeting, and focus group discussions amongst mothers on providing support. Through this schools are introducing more learner centred pedagogy with a greater range of class room activities enabled through increased use of worksheets and other non-text book teaching and learning materials. Greater emphasis is being placed on class I under SLIP/ILIP, with an overall objective of improving learning outcomes and progression. Over time this should contribute to reducing the high repetition rates in class I.

An early study undertaking in Birbhum district shows higher levels of learner achievement in SLIP/ILIP schools. If the findings of this wider evaluation are similar, consideration should be given to incorporate ILIP in SSA plan. External evaluation carried out through the WBBPE show improving trend in learning achievement in basic mathematics and language skills.

Institutional Capacity and Progress of Programme Implementation

There are some unique features to be overall institutional framework for DPEP in West Bengal. At the state level involvement of the board of primary education (WBBPE) in DPEP activities has been mainly in renewal of text books, development of training modules, training of KRPs and MRPs and package development of ILIP and micro intervention module.

Government of West Bengal has so far sanctioned 16 DIETS and 415 posts. Of them, 5 DIETS are due to become operational in May, 2003, with 90 sanctioned posts.

The CLRCs have taken the leading role at sub-district level for pedagogic renewal through training and supportive supervision. Sub-inspectors of school have been designated CPC and are supported by the teams of RTs. The effective functioning and impact of CLRCs depend on the capacity of the district resource group. The agreement to now establish DIETS in West Bengal will ensure that the academic support for the CLRCs is sustained beyond the period of DPEP. The effectiveness of the CLRC has been well recognized at district level and at State level where their creation has been extended to NON-DPEP districts.

One of the key strengths of DPEP has been the way in which it has involved communities in education. The formation of VECs under DPEP has not only broadened awareness but has also contributed significantly to improving access and attendance by involving communities more directly. VEC members clearly articulated their vision for school improvement and it is encouraging to note that the agenda of VEC meetings is expanding to include quality.

Programme Implementation

The receipt of funds against the EFC is 69% in phase I districts and 22% in phase II districts. Against this 65% of the EFC cost has been expanded in phase I districts while 17% of the EFC cost has been expanded in phase II districts.

A MOU has already been signed between State Director of DPEP and State Director, Shishu Shiksha Mission for better coordination to educate the out of children up to the age of 14.

SUSTAINABILITY

Policy

The state vision of Universal Elementary Education is articulated in state level plans under the national programme for SSA. A beginning has been made to view the further activities of DPEP in the light of the financial norms specified under SSA.

The information base developed under DPEP is already being used and expanded in support of SSA. At the district level the DPEP structures and institutions, particularly the SPO and CLRC are assuming key responsibilities for SSA.

Capacity

DPEP has clearly enhanced capacity to plan, manage and monitor primary education at all levels of the systems. This has been achieved through extensive state and district level support and supervision at primary level. An effective state level management team is in place, and district and sub-district personnel system have been well developed. Systems of data collection have been well established.

**A CRITICAL VIEW ON
DISTRICT PRIMARY EDUCATION PROGRAMME
BY 19TH JOINT REVIEW MISSION
WEST BENGAL STATE REPORT
10-17 JULY, 2004**

1. As part of the 19th Joint Review Mission, a team comprising of Amita Sharma (GOI) and Amarjeet Sinha (DFID) visited West Bengal from 10-17 July, 2004. The team started its work with a detailed presentation by the State Project Office (SPO) under the Chairmanship of the Principal Secretary, School Education Department. It then went on a field visit to Malda, a Phase - II DPEP district. On its return journey, the Mission spent some time in Murshidabad district as well. The team could visit Government Primary Schools, SSKs, and Non-Residential Bridge Courses. Besides the DPO functionaries, the team also interacted with the District Magistrate, Sabhadhipati, DPSC (in Murshidabad), the CLRC functionaries, members of VECs and MTAs. On its return from field visit, the Mission met the Hon'ble Minister of School Education, the Chairman of the State Primary Education Board, the Director of School Education, the Principal Secretary of School Education, Secretary, Panchayat and Rural Development Department, DPOs of all the ten DPEP districts, and the planning and pedagogy team at the State level. The team would like to thank all for their kind support to the Mission in learning more from the work in DPEP, West Bengal.

2. West Bengal had been visited by the 18th JRM in November—December 2004 and many specific recommendations were made for the consideration of the Government of West Bengal and the SPO. This Mission is happy to record the significant progress made on those recommendations especially with regard to decision on appointment of contract teachers, setting up of CRC, engagement of Resource Persons for CLRC and CRC from among serving teachers as well (not just retired teachers), release of funds to SSKs of the Panchayat and Rural Development Department, and speedier implementation of the programme in districts. While major policy decisions have been taken and have paved the way for more effective implementation of DPEP, a lot more needs to be done to ensure speedier implementation of these decisions as they have a direct bearing on the performance of the Project. The recommendation regarding cleaning Class-I enrolments of under age, over age, repeaters by concerted follow up action after the school Chalo Karmasuchi (Enrolment drive 2003) needs to be re-emphasized in order to reduce the levels of drop out or discontinuance of learning in schools/SSKs, especially by poor children.

3. The Mission was convinced during its visit that Universal Elementary Education is a priority of the Government of West Bengal and significant efforts are being made to reach the goal of quality education for all by 2010. Financial constraints has led to a non-expansion of the formal Primary and Upper Primary Schools and non-creation of additional posts of formal school teachers, leading to the establishment of SSK and MSK even in large villages, by the Panchayat and Rural Development Department to meet the needs of the community that is convinced about the social norm of schooling for all children. Decentralization and participation of people in the process has led to strong community action through the Panchayat, VECs, MTAs at the local level in articulation of demand for schooling. This is putting pressure on the school/SSK system reflected in the large number of children coming to them. Though pragmatic decisions like SSKs, Bridge Courses, Volunteer Resource Person in ILIP schools, and now appointment of contract teachers is being taken up, there is a need for a clear articulation of the long term vision on how these short term efforts will get integrated to ensure access to quality primary education for all children. The biggest challenge for the Government of West Bengal today is to fulfil its obligation of quality elementary education for all children as the community seems well-prepared to demand the right to education for its children.

Quality of Access

4. The SPOs presentation to the Mission regarding progress was encouraging with regard to the DPEP goals of Universal Primary Education, drop out rate of less than 10 percent, bridging gender and social gap to less than 5

percent and improvement in learning levels by 25 percentage point over the recorded base line. While assessing progress against DPEP goals we must bear in mind that it is only a project and did not have a mandate for the entire sector. Non-recruitment of teachers, slow development of school facilities, slow pace of pedagogic renewal and quality thrust, often slowed down the pace of change. There are also other factors like Hot cooked meals/dry rations that influence participation and therefore all gains cannot be attributed to DPEP alone. The Table below presents some of the changes since the DPEP started in West Bengal.

	1998-99	2001-2002	2003 2004
5-13 Out of school children	4.09 lakhs	3.91 lakhs	2.15 lakhs
Number of Primary School/SSK	24384	29819	32697
Drop out rate in Phase - I districts		Overall 18.05 Girls-17.69 SC-18.46 ST-26.28	
Completion rates for Class I-IV in 4 and 5 years in 2001		Phase-I-72.3 Phase-II-54.92	
Completion rates of children in 4 years		Phase-I-72.3 Overall-57.3 SC-54.3 ST-46.23	
Average score in Language/Mathematics in Class III	54.07/51.38	65.46—56.76	

Enrolment trends in 2002-2003:

	Class-I	Class-II	Class-III	Class-IV	Percent of SC girls to total SC enrolment	Percent of ST girls to total ST enrolment
For the State	25,72,107	18,26,509	1,72,524	16,28,329	49.1	47.7
Malda 2003-2004	2,02,352	1,00,332	83,288	67,695		
Murshidabad	2,13,512	1,72,000	1,70,572	1,66,525		

Enrolment in SSKs 2003:

Class-I	Class-II	Class-III	Class-IV	Total
5,59,539	2,52,671	1,49,105	82,126	10,43,441

Malda District — Class -wise Gross Enrolment 2003-2004:

Class-I Boys - 1,02,656	Class - IV Boys - 33,241
Class-I Girls - 99,696	Class - IV Girls - 34,452

5. The improvement in completion rates, in spite of all the above constraints, is perhaps the best indicator that DPEP has been partially successful in its efforts, especially in the Phase-I districts. With only about one lakh 5-8 age children reported out of school after the 2003 enrolment drive and opening of Non-Residential Bridge Courses, the State is nearing its first goal of UPE. The field visit, in remote backward regions with high minority population, confirm an improvement in enrolment of children at age 5-7 in schools/SSKs/Non-Residential Bridge Courses. Without adequate thrust on improving retention through better quality of learning and basic learning conditions, there is a probability, especially in the backward districts and Blocks, of children dropping out without successful completion. The State level EMIS data suggests significant improvement in completion, if those who complete in five years is also included. The data also point to the need for a greater thrust on completion among tribal and minority girls. Special focus on districts with minority and tribal population and special thrust on girls' education in the backward pockets need further strengthening. The classwise enrolment captures the trends in drop out. As is clear, there are still a large number of children dropping out as they move towards Class - IV. Even in the SSKs, high enrolment in Classes-I and II suggests either children moving on to formal school for Class-II and Class-IV or just repeating and dropping out. Unless basic learning conditions are ensured in schools and SSKs, enrolment drives will have only partial success as children may not successfully complete primary education.

6. Financial constraint has compromised norm-based establishment of Primary and Upper Primary Schools. This is being made up through the Panchayat Department's SSKs and MSKs even in large villages. SSK is not based on notion of geographical access in remote and dispersed habitations. In fact many SSKs are like the nucleus of a new school with their own implications for strengthening and improvement. The Mission recommends an assessment of SSKs that need to be developed as regular schools so that the State could articulate a policy for their integration, without altering the service condition of teachers engaged in such centers. The running of SSKs and MSKs by another Department leads to a lack of holistic access planning and ownership leading to weak management, supervision and timeliness of financial resources. With the establishment of CRCs and CLRCs, the supervision and support for SSKs ought to be in a common structure of quality monitoring. The Mission recommends a dialogue with the Panchayat Department to sort out the quality supervision needs of SSKs. The inadequate training for Sahayikas of SSKs and Non-Residential Bridge Courses also requires attention as it compromises the quality of access.

7. The State has started Non-Residential Bridge Courses on a large scale for the out of school children who could not be admitted to Schools/SSKs during the School Chalo Karmasuchi 2003. These are of six months duration and have never enrolled and dropped out children. Learning material has been specially prepared for these centers to facilitate learning by older children. SSK is the other alternative strategy that has expanded on account of the non-expansion of the Primary School System. SSK has local women as teachers who are selected by the Gram Panchayat. Even though lacking in proper infrastructure and adequate training, the SSKs have attracted poor children in large numbers. Since many of them ought to have been new schools, they require to be strengthened with better infrastructure and quality support. They use the same texts as formal schools. Inadequate and untimely funding of SSKs has led to its unsatisfactory supervision and quality improvement. The Mission recommends an early settlement of the issue that is already a priority for the Education and the Panchayat Department.

8. The State has finalized its policy of recruiting contract teachers and the directions for selections have been sent to the districts. The districts are hopeful of engaging contract teachers by August. This will go a long way in improving the teacher pupil ratio that has reached unacceptable levels (more than 1:60) in a large number of schools. Placement of Resource Persons in Cluster Resource Centre (CRC) and in Circle Level Resource Centres (CLRCs) are also under way. These decisions are likely to improve the quality of access. The condition of school buildings needs attention. Even though DPEP buildings have improved space available per child, in a large number of schools, the space is much below the norm of 7-8 square feet per child. With the EMIS data providing detailed schoolwise information on space availability, the State has objective criteria for planning its civil works intervention. There are many schools that the Mission visited that have undertaken meaningful minor repair with SSA funds. There are, however, many buildings that require major repairs that are not being undertaken at present. The Mission recommends an assessment of the feasibility of undertaking large scale major repairs with community ownership and suitable technical guidance. The State also needs to work out its civil works needs over and above

what is being covered under DPEP/SSA as part of an infrastructure plan as space constraint does interfere with the quality of access.

9. Free text books have started reaching schools and children now and there is a need to improve the management of service delivery for such critical inputs. Good reading skills among children suggests that the text material is useful for children. DPEP has also developed useful ILIP and bridge course learning materials and the State Board make like to assess some of these initiatives to see whether text books can incorporate some of the good practices in these newer modules, which have also been developed in partnership with the State Board.

10. There is a clear emphasis on ensuring universal enrolment, evident in the significance attached to the child registers available for each village to track enrolment of children and in meticulously forgoing strategies to reach out to each child through the provision of a basic learning facility, like an SSK or a bridge course, besides the Government Primary School. The concern for universal enrolment is evident in the strong emphasis on community mobilization and village level participatory structures such as VEC and MTA. Interaction with members of these bodies elicited from them a strong articulation of interest in their children's education.

11. What is needed now is a rationalization of the access criteria whether based on geophysical or academic needs to improve targeting and efficient planning of resource. There is a need for greater conceptual clarity regarding their roles vis-a-vis each other. At present an SSK is often seen as a temporary intervention but the road map for it is not clear. Its basic attributes are the same as a GPS, except for the recruitment and remuneration of the SSK teacher. In that case, it becomes a low cost primary school that best serves the access need of unserved habitations mapped on a distance criteria and its co-existence in the same place as a GPS does not appear justified. A Bridge Course implies a temporary intervention, but in some places they appear to have come up where a permanent school is needed on even a simple distance criteria. Some children enrolled in a Bridge Course of the age 6-7 years really need to be enrolled in a full time permanent school.

12. It is necessary that the State Government rationalize the criteria for SSK, and Bridge Course to ensure appropriate targeting and optimum use of resources. SSKs in the same place as a GPS should be reviewed and the alternative of strengthening the existing GPS by addition of teachers and classrooms be considered. Bridge Courses cannot be a substitute where permanent school facilities are required.

13. The thrust for Universal Primary Education is very strongly expressed at the level of the community and it is commendable that VECs, MTAs, SHGs, Panchayats, DPSC have all focused on getting every out of school child to a school, an SSK or a Non-Residential Bridge Course. The community is clearly prepared for Universal Primary Education, recognizing special needs of educationally backward groups like tribal children and minority girls. Integration of disabled children has also been attempted at all levels. While DPEP and Government of West Bengal decisions has helped in partially improving school infrastructure, innovative learning practices through ILIP, expansion of outreach through SSK and NRBC, there is still a long way to go in ensuring basic learning condition for all children. Besides the need for more teachers and improved school facilities, there is a need to institutionalize the quest for quality improvement through the network of CRC and CLRCs, working under the supervision of DPSC/District Pedagogy Group. Without the latter happening, there is a danger of children who are admitted during enrolment drives dropping out without completing primary education. Also the separate management of SSK by the Panchayat Department is leading to delays in providing honorarium, training and supervision support through the network of CRC/CLRC leading to a compartmentalized access planning for UPE. West Bengal has a Statutory Primary Education Board at the State level and DPSCs at the district who have a mandate to provide quality primary education. The Mission is of the view that closer partnership for quality improvement between the Project and the Board/Council at the State/district level will facilitate institutionalized action for quality improvement. Recent efforts to set up a common District SSA Committee involving the Sabhadhipati of the Zilla Parishad, the DPSC and the District Magistrate is a welcome step and needs to be followed by similar efforts for integration at the State level involving the Director, School Education, the State Board of Education, the SCERT and the DPEP Project office, so that institutions having statutory functions are assisted in improving the quality of their intervention.

Quality of Learning

14. The State has shown considerable enterprise in experimenting with diverse academic initiatives to create an appropriate environment of learning. Beside the revision of text books and the introduction of in service teacher training modules as pedagogy modules 1,2, 3, on full scale, the project has attempted innovative packages for school improvement on select scale such as SLIP and ILIP. This is significant because it reveals, so far as academic processes are concerned, an effort at continuous self-reflection and improvement that is the fundamental premise for quality. Based on such experimental processes, the project has now evolved at least two important academic models, the Bridge Course model and the ILIP models. Both are in use. They signify the ability of the project to interpret differential learning needs and to formulate responses to them. Thus the Bridge Course materials are based on the principles of accelerated pace, slightly more advanced cognition abilities as the target group is over age children or drop out usually over age too. The content is oriented towards rural environment since that is the learning context.

15. The learner group is flexibly arranged to allow easy transition of the learners. The Teaching Learning process and the text books of the Bridge Course are designed to facilitate integration with the school. ILIP is based on the principles of enhancing teacher pupil interaction, peer learning, use of supplementary materials to reinforce concepts, continuous reciprocal process of teaching, guided exercise, independent exercise, collective and individual learning, evaluation and reinforcement. Attempt is made to identify slow learners to direct additional attention towards them. Group and whole class learning are flexibly opted for dependent on learning needs. Continuous evaluation is recorded in detailed learner records and followed up. The use of ILIP pedagogy has enabled effective optimum use even of constrained spaces and over crowded class rooms. The effectiveness of ILIP is not only visible in enthusiastic energetic class room processes, high confidence levels of children, but has been captured in concurrent internal evaluations.

16. Table of comparison between ILIP and non-ILIP schools:

**Achievement study on all subjects, South 24-Parganas District
Grade - II 2002-2003, Phase - I**

Type of school	Language	Language	Maths	Maths	EVS	EVS
	A, B, C	D, E, F	A, B, C	D, E, F	A, B, C	D, E, F
ILIP	70.17	19.73	64.16	35.84	70.02	29.98
Non-ILIP	34.56	65.44	36.52	63.48	29.37	70.63

**2001 - Achievement study all subjects, Grade
South 24 Parganas District 2002-2003**

Type of school	Language	Language	Maths	Maths	EVS	EVS
	B,CA,	D,E,F	A,B,C	D,E,F	A,B,C	D,E,F
ILIP	64.08	35.92	73.83	26.17	62.44	37.56
Non-ILIP	46.19	53.81	46.31	53.69	45.75	54.25

17. Teachers in non-ILIP school have evinced strong interest in the methods and materials of ILIP in order to find solutions to some of their problems, both in terms of class room organisation and diagnostic and remedial teaching through use of TLM.

18. What ILIP needs to do presently is to build on its strength through an external evaluation that will help it refine its concepts and tools. It also needs to strengthen inputs that enhance learning time per learner, both for the slow and fast learner. It could consider the use of libraries, link libraries, SLM, projects as learning devices for this purpose.

19. There is a case for cross learning between ILIP and Bridge Course, and learning from both for improving Teaching Learning processes in all schools.

20. Levels of learning were found satisfactory in almost all schools visited. Teachers were familiar with individual levels of learning. The skill and capacity to deal with slow learners was however missing in most schools. The standard diagnosis was irregular attendance and the standard response therefore was peer teaching. This clearly over simplifies the nuances of individual responses of children and dilutes the role of the teacher in analyzing them and conceptualizing appropriate remedial action. There is a great need to train teachers on diagnostic remedial teaching and this is acknowledged by the State in its formulation of its pedagogy modules and *kajer pata*—a package designed for this purpose. That teachers still continue with standard simplistic responses to uneven learning, suggests that the State assess the impact of the pedagogy modules on the class room processes. It could also consider the use of Bridge Course and ILIP materials to help respond to uneven learning pace.

21. Although a variety of training modules have been designed and implemented, some areas of concern are evident. One, there is no visible impact of the pedagogy modules on the class room processes.

22. Two, there has been no effort on the part of anyone to follow up on training, so that the reason for this state of affairs is not clear to anyone. Three, there is no cumulative build up of training inputs; each training programme is a stand alone, and does not provide the base for its successor. Fourth, the same training programmes are administered to all teachers, irrespective of their academic needs. Fifth, it appears that the training duration, specially for the teachers in BC appears inadequate ranging from one day (BC instructor) to five days.

23. It is suggested that a systematic training needs assessment be done, not just as a routine format but through an intensive process of observation, and discussion, research and study, participatory evaluation and analysis over a period of time to provide the basis for designing relevant training programmes in which follow up and assessment is inbuilt.

24. Much of the problems visible at the class room level are the result of insufficient academic support from the academic structures that have been designed. There is insufficient dialogue between academic groups at different levels. This is aggravated by the existing structural disjunction between text book designing agency and the project training agency as well as by the fact that there is no institutionalised structure for academic support at the district level to set an integrated academic agenda for the CLRC and the schools according to a well designed calendar. Consequently, though there is a format that has been developed for academic monitoring, it is still to get into full swing use. Also there is a need to go beyond the quantitative classification of learning outcomes to a qualitative approach for analyzing teaching learning processes. It is expected that the new CRC would be able to do this. For a start, the available BAS, MAS data needs to be used to initiate an analysis in terms of causal relationships between learning inputs located in the specific context of those schools. This can be linked with more detailed academic studies. There is a need for integrating the various initiatives of material development, training, supervision, evaluation, and research into one package of academic resource support. It is their current separateness that generates problems of quality, even if an input has intrinsic value. This convergence of processes and inputs to create a quality environment of learning has been understood and demonstrated wherever a good practice has started to emerge. The best performing school shows the co-incidence of good infrastructure, low TPR, child friendly pedagogy, continuous supervision, community participation and co-ordinated management—thereby demonstrating the holistic vision of quality that the State has.

25. There is thus considerable learning that the State can do from within itself to carry forward its dedication to improving the quality of learning. The recommendations on this section follow from this understanding.

Quality of Implementation

26. The basic management structures of project implementation are in place and are functioning well. Staffing is complete but for a vacancies that need to be filled up. The key personnel in charge of implementing various project components have a high level of enthusiasm, commitment and ability to engage with complex concepts involved in planning for UPE, and specially for contextual analysis. The mission welcomes recent efforts made in the State to integrate formal institutional structures with DPEP/SSA interventions at all levels. District level coordination through SSA Committee has managed to integrate VECs/Panchayat Samiti, Sabhadhipati of Zilla Parishad with role and function of DPSC. A subcommittee on pedagogy at the district level under the Chairmanship of the DPSC will facilitate greater thrust for quality of learning.

27. These are definite strengths of project implementation, as they enable the state to think through its diverse issues. Planning is to be based on village level microplans. There is evidence of bridge course demands coming up from the VEC but not of village based plans. An attempt at planning was visible at the CLRC level. However, this was more in the nature of a list of inputs needed. The awareness of local problems and the ability to analyse a given situation have not transformed at the CLRC levels in to better plans that reflect a comprehensive data, a clear discussion of problem, the perceived relationship between the input proposed and outcomes and precise targeting thereof. For example, bridge courses and SSKs are demanded without a comprehensive villagewise data on access and shortfalls. Trainings are asked for without co-relating them to academic needs. One of the reasons for the incomplete nature of sub-district plans is the absence of village microplans that are holistic in their needs assessment and approach, and use the data generated at that level to ground specific targeted strategies. This leads to compartmentalized perceptions of inputs. The situation is aggravated by the dual planning for village level interventions on account of the Panchayat Department managing the SSK while the School Education Department manages the rest of it. This also affects the preparedness for efficient plan implementation since there is no anticipation of linkages between activities within a desired time frame. This thwarts the efficiency and effectiveness of strategies and the resources invested in them. For example, lack of training calendars and timely development of training modules lead to teacher trainings spilling over to academic sessions in a big way. Recruitment of contract teachers is still to start off, even while the academic session is on. In some schools text books had not reached.

28. Monitoring and evaluation framework needs strengthening. Though there was evidence at the CLRC level of inspection rosters and at the school level of inspections, the quality of these inspections was not evident at any level. There is a lack of systematic monitoring with clearly delineated parameters and periodicity, and a training on quality monitoring. Even where monitoring is undertaken, there is no effort to systematically record, compile, correlate and follow up. Such ad hoc monitoring inevitably does not build up into an information, analysis review and corrective system. As such the project misses the opportunity of learning from within itself and of harnessing individual abilities into a collective effort. The idea of hierarchical inspection itself needs to transform into a concept of support systems that seeks to foster synergies and collaborative action towards common goals and shared agenda.

29. The Village Education Registers are being prepared, recording details of each child in the 0-13 age group. The School Chalo Karmasuchi (Enrolment drive) is also recording the names of non-enrolled children. The Non-planning process takes note of these developments while preparing its Annual Work Plan and Budget. The Non-Residential Bridge Courses, school infrastructure, teacher engagement, are all planned on the basis of data generated through the community process, the Child Register, the EMIS/DISE data and its use by the District decision-making team. For the process to become more evidence based, the Mission recommends that proposals for the approval of the District level SSA Committee must always be backed by evidence for the intervention suggested. This will help a committee of Government and elected functionaries to have objective criteria for teacher deployment, school facility development, etc.

30. The State level needs to encourage districts to do their own planning on the basis of local needs rather than State directed allocations. With the planning for SSK under the Panchayat Department, there is no holistic planning for UEE. Though habitation planning process has been initiated, detailed Village Education Plans have still to be articulated. The Mission suggests greater use of local needs in determining State level priorities.

31. Most positions at the State and district levels are staffed. The posting of Resource Persons for CRCs and CLRCs are underway and the Mission hopes that all such positions will be filled up by August 2004. Even with the current staffing, the State Government may like to strengthen the District teams through better visioning and orientation, especially for an effective pedagogic improvement thrust.

32. The Table on release of funds given below, indicates that the fund available for implementing the AWP&B is far less than the approval for the year. This normally happens either due to poor utilization of first installment released by Gol to a State or due to delayed and insufficient release by the Central Government. While the earlier was true for most of the earlier period of DPEP in West Bengal, last year seemed to have been on account of the latter. With SSK funding under DPEP and now contractual teacher recruitment and CRC establishment, the Project is better placed to use resources. There has been some improvement in fund utilization over the last six months. The Mission would like Gol to speed fund releases to West Bengal so that it can reach the financial level proposed in the AWP&B. Since Phase-I extension is still under review and Phase-II has another two years to go, it is important to speed up the utilization as proposed in the AWP&B.

Year	Annual Work Plan and Budget Approval	Release of Central and State share (in Rupees Lakhs)	Total release as percentage of approved AWP&B
2000-2001	DPEP-I	3362.00; 533.82	57%
	DPEP-II	1000.00; 176.47	32%
2001-2002	DPEP-I	2000.00; 412.41	43%
	DPEP-II	2200.00; 388.24	51%
2002-2003	DPEP-I	4250.00; 750.00	53%
	DPEP-II	3600.00; 635.29	55%
2003-2004	DPEP-I	3190.00; 319.94	44%
	DPEP-II	4950.00; 509.04	55%

33. West Bengal does not have DIETs as yet. The critical institution is the CLRC headed by the SI. The institution has developed very effectively in DPEP, combining the regulatory and the development functions. In the absence of CRCs, the training of teachers and academic supervision has been weak. In districts with a weak District level pedagogy group, the area of quality improvement has suffered. This affects the timely implementation of AWP&B. DPEP has established useful practices in school construction, development of materials, classroom practice, data generation and community participation through VECs. While some of these good practices have been integrated into the mainstream education system, there is a need for greater institutionalization of good practices. There have been set backs as well like the withdrawal of cost effective strategies in civil works on account of problems in a few schools. The Mission recommends a more thorough assessment of the cost effective technologies to understand how the weaknesses therein could be improved. The Mission found the per child space in schools to be highly inadequate with many schools requiring major repairs. Using the DISE data and the need for school facilities for SSK, it may be useful for the State to prepare an infrastructure plan districtwise, looking at the uncovered gap for learning space/rooms, what can be accessed from DPEP/SSA, and what would still remain an uncovered gap.

34. Visit to Murshidabad was a confirmation on the important role that the District Primary School Councils play in primary education in West Bengal. The implementation of DPEP in close collaboration with DPSCs greatly enhances the impact the Project has in the field. Efforts at institutionalization at the State level needs to be further undertaken to ensure that institutions that are mandated to carry out certain functions are appropriately developed and supported to carry it effectively.

Recommendations

Quality of Access

- While community is tracking every out of school child compartmentalized interventions (School/SSK/NRBC) interferes with thrust on completion and quality. Need to have an integrated access plan to meet diversity of learning needs.
- Need for common supervision and teacher development, learner evaluation and support for schools and SSKs.
- Teacher vacancies/poor school infrastructure interferes with quality of access Basic learning condition needs to be guaranteed.
- Very poor children have come to SSKs/NRBCs/Schools—urgent action required to create minimum learning conditions for all to meet their diverse learning needs.

Quality of Learning

- Extend ILIP to all schools.
- Systematic training needs assessment be done through an intensive, participatory research based process.
- Integrate the various initiatives of material development, training, supervision evaluation, and research into one package of academic resource support with institutional linkages.
- Strengthen the academic support structures, by integrating them at the State level, and institutionalizing them at the district level. Revival of Pedagogy Committees could be considered in a way that they integrate the concerns of all agencies concerned.
- Accelerate the functioning of the CRC (staffing and training) with a clear academic agenda for schools.
- Strengthen accountability of the schooling system to the local community for quality of education imparted through greater involvement of the VEC MTA in improving the pace of learner participation and academic progress.

Quality of Implementation

- Strengthen the capacity for integrated (vertical and lateral) planning at the State and district level and to build microplanning capacity at sub-district levels, CLRC, CRC, VEC.
- Strengthen structural coordination and forge common envisioning between the Director of Education, SPO and the Department of Panchayat, and the State Board of Primary Education and their counterpart structures at the district and block levels.
- Expand the use of data for qualitative analysis in terms of possible relational value of various inputs vis-à-vis each other and vis-à-vis outcomes.
- The pace of fund disbursement and expenditure still needs to improve, to ensure timely payments to education volunteers and schools.
- Systematic monitoring with clearly delineated parameters and periodicity with a support system (not hierarchical inspection) approach, involving CLRC, CRC, VEC, MTA, etc.
- Programme evaluation and studies need to be intensified and used as major feeders for better orientation of resources to needs, cost benefit analysis of available options, plugging critical gaps in implementation at each level.

WEST BENGAL BOARD OF PRIMARY EDUCATION

QUEST FOR QUALITY WITH UNIVERSALISATION

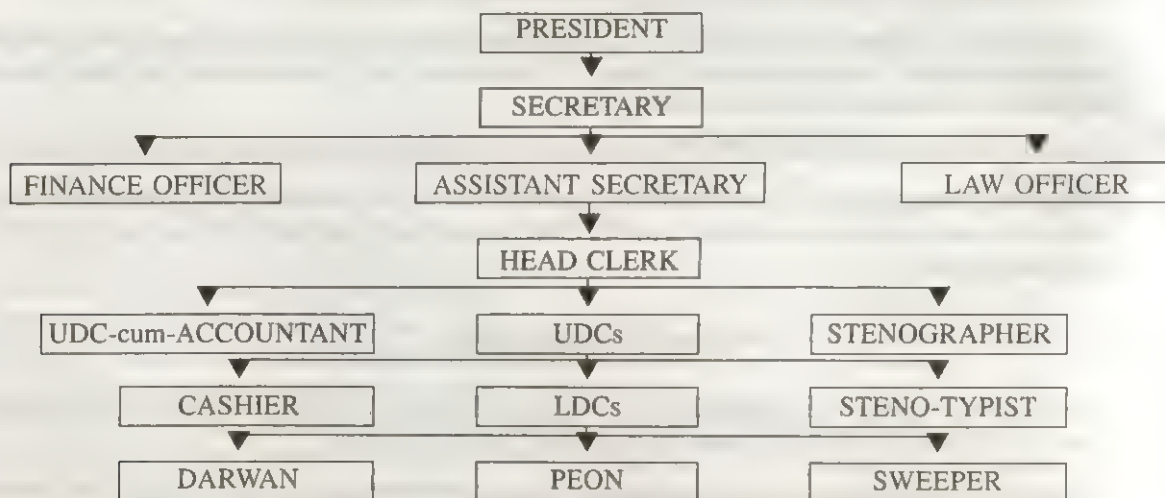

Policies, Functions and Challenges

The West Bengal Board of Primary Education is a statutory autonomous body and unique in nature in India. The responsibility for planning and development of Primary Education in the State is bestowed upon it.

Since its inception in 1990, the WBBPE has been pursuing its policies and schemes as per the provisions of W.B. Primary Education Act, 1973 (which has been amended from time to time) for development, expansion and management of Primary Education.

The functions of the Board as defined in the West Bengal Primary Education Act, 1973 are huge and diverse in nature and the volume of work is expanding rapidly over the years. Recently, the Board has been entrusted to recognize all new Primary Teachers' Training Institutes and to administer and conduct examination and other affairs relating to PTTI by amending West Bengal Primary Education Act, 1973 with effect from 2nd December, 2002. A proposal for strengthening the staff structure of the Board, approved by the then Ad-hoc Committee of the Board, has already been sent to the State Government but it has not yet been possible to create till to-day any new post by the State Government.

Before dwelling on the development and qualitative improvement of Primary Education in the State, the staff structure of the Board as at present and approved by the Government is given below:

Regarding improvement and qualitative development of Primary Education in the State, the Board with the approval of the State Government and with the financial assistance from the State Government, Paschim Banga Rajya Prarambik Siksha Unnayan Sanstha, SCERT and UNICEF, Kolkata has taken up some important plans, programmes and activities some of which are ongoing and some others are expected to be taken up in near future.

An Introduction to the Revision and Renewal of Curricula and Syllabi

Curriculum: What it is

Curriculum is the soul of the educational process, the heart of the educational institutions and the mind of the academic programme. A perfect curriculum plays the dominant role to reach the goal of education. It serves various purposes to foster educational processes. It embraces everything around education the infrastructure with all its

components, teacher and the taught, administrative keenness, congenial environment; it leads to the total upbringing of the learner mentally and physically and pedagogically, to become a social being having democratic outlook and clear vision and distinct knowledge of man and environment.

Curriculum should be psychologically sound and should take into account the advantage of theories of learning and aim at bringing about an intelligent adjustment with the environment itself.

As curriculum development is a dynamic process and should never be static, it should always be in a process of revision leading to modernization, refinement and enrichment. It must be flexible so as to accommodate very many variables.

Making of the Curricula and Syllabi

Structure

The curricula and syllabi for Primary Education prepared under the leadership of the renowned Professor Himangshu Bimal Majumder was scientifically based on environmental approach having multifarious inputs covering almost all academic domains and earned a nationwide reputation. But during long passage of time a drastic socio-economic, physical and environmental changes have taken place and it is predominant everywhere irrespective of rural or urban area. This can be felt in transport, agriculture and industry, health, education, environment, scientific approach towards accessibility to different walks of life, technology and so on and especially on the erosive human values.

Objectives, vision and modalities

In order to keep pace with the advancement and combat adversities and to prepare the child as a self-conscious and self-confident social being, review and modernization of the existing curricula and syllabi was greatly felt. The attempt was made not only for a changeover, but the objective was to give impetus to the children belonging to the lowest level of socio-economic stratum in order to keep pace with all kinds of situations in practical life and the world. It is assumed, it would minimize dropout rates in schools. Special mention can be made here that this curricula and syllabi have been revised in its entirety after about long 24 years.

NCERT and Delor's Committee

Views and suggestions of more than one lakh teachers participating in different orientation programmes were collected before the revision of the curricula and syllabi. Final shape of it was given through vital workshops having been actively participated by subject experts, personnel concerned with education and representatives of different organizations. Besides this, opinion of different erudite educationists of home and abroad reflected in different articles and writings and reports of different commissions and committees, especially committee constituted by the Government of West Bengal to review the comparability and scientific grading of curriculum and syllabi from Primary to Higher Secondary levels of education and that of the School Education Committee were considered very keenly. Not only that, curriculum and syllabi framed by the NCERT and recommendations of Delor's Committee were thoroughly gone through and necessary elements were incorporated.

Indicator to form a bridge between different system

Although the main objective of C & S was to reach Universalization of Primary Education (UPE), in the context of Universal Elementary Education (UEE under SSA) it is not confined only to driving out illiteracy and encourages and enrich literacy programme, but there was the aim to form a bridge between Primary and Secondary levels. Thus it plays a dominant role as a vital indicator to initial stage of Secondary Education.

Some Characteristic Features of Curricula and Syllabi: 2003

Prime emphasis

Prime emphasis has been laid on the comprehensive development of the child in body and mind.

Objectives

Considering the socio-economic condition of the people of West Bengal and mental set-up of the child, the load of course of studies were minimised to provide enough opportunity of exercises and activities and to widen the scope of self-learning.

All attempts have been made to make it practical and time-befitting.

Ideas and ideals of great Indian Educators like Rabindranath Thakur, Sri Aurobinda, Mahatma Gandhi, Swami Vivekananda, Netaji Subhas Chandra and Raja Rammohan Roy and Pandit Iswarchandra Vidyasagar in regard to promotion of female education in particular, were reviewed and given importance to.

Prime priority has been given on Primary School Health Education and Primary Physical Education, Environmental awareness and preservation of the Environment.

Teaching-learning area and instructions to teachers

Despite scholastic area (content-based subjects) co-scholastic subjects like activity based works on Direct Experience and Creative-Productive works have been given equal priority.

For EVS (Environmental Studies from Class I & II), instructional guidance for the teachers has been given.

Guidelines have been provided with for preparing textbooks, teaching-learning materials, methods and procedures of teaching modalities of Evaluation, conducting Teachers' Training Exams. and according Recognition to nearly.

Values

A separate chapter on VALUES has been given. It includes honesty, love for altruism humanity along with animals, close relation between man and environment and its preservation, non-parochial/non-sectarian/non-communal outlook, anti-war attitude, cooperation and harmony, national integration, attitude of sex indiscrimination, international understanding and brotherhood, encouraging the child with special need (disabled) and downtrodden to be self-confident and self-reliant, discouraging child labour and so on. But there should be no separate textbook for this.

Evaluation

Another chapter has been allocated for EVALUATION (continuous and comprehensive and spontaneous, unit-based, periodic and summative) along with the necessity for continuation of Diagnostic Test meant for strengthening CCE, on the basis of the feedback determining success and failure of the existing system and arranging for remedial measures at the midway of primary education—after completion of Class II studies. It may be mentioned here that details of evaluation were not dealt with in the previous curricula and syllabi as these have been given in this present curricula and syllabi. The feedback is an indicator not only to qualitative improvement of the child, but it is also an indicator to the reshuffling of the whole educational system.

Mode of Teaching-Learning

Stress has been laid on competency and activity based teaching-learning of both scholastic and co-scholastic areas to make the learning of the child more sustainable and perennial.

⇨ Hon'ble Chief Minister Shri Bubhadev Bhattacharya is seen giving direction in inaugural programme

7- Workshop of school Education Committee ⇨

⇨ Hon'ble Chief Minister Shri Budhadev Bhattacharaya with commemorative voume.

School Education Committee workshop in progress. ⇨

Competences

The main objective of Primary Education is the attainment of competences by the students. Content is nothing but the medium to achieve those competences.

Educational System

The whole educational system is three dimensional—the child is in the middle of the line of the whole programme of implementation of C & S, on one side of it there is the infrastructure along with all educational requirements and every possible inputs (TLM etc.) and the teacher, the facilitator of the whole system, is on the other side of the line. So, child-centric and learner centric approach has been given great importance to.

Sahajpaath

Sahajpaath—Book I & II by Rabindranath must be dealt with in Classes I & II along with Kishalaya—Book I & II as compulsory subject.

Recommendations

A recommendation for introduction of Pre-primary section has been placed before the Government of West Bengal for approval considering the demand of the people from all sections.

Preamble to Indian Constitution and Snippets of Primary Education Act

In the beginning of the curricula and syllabi Booklet the preamble of Indian Constitution has been given.

At the end of this Booklet Snippets of the West Bengal Primary Education Act, 1973 have been inserted.

Sarva Siksha Abhiyan

An appeal has been made to the Government of West Bengal to release adequate fund from 'Sarva Siksha Abhiyan' for successful implementation of different academic programmes.

Content of Curricula and Syllabi

The curricula and syllabi Booklet comprises aims and objectives of Primary Education, proportional division of time according to subject specific importance, responsibilities to be shared jointly by the Government of West Bengal, Paschim Banga Rajya Prarambhik Siksha Unnayan Sanstha, District Primary School Councils, Teacher organisations, Local Bodies (Local self Government Gram Panchayat etc.) and other agencies concerned for adopting measures in administrative affairs, infrastructural development, proper inspection and monitoring, appointment of teachers through School Service Commission, Primary Teachers' Training Institutes, Community Participation, School Meal for students and change of academic session and so on. Mention of texts and articles contributing information etc. for preparation of this Booklet has been made and there is a lesson plan and simple Evaluation paper for each subject, has been given.

Allied Instructions

In the revised curricula and syllabi particular emphasis has been laid on allied instructions regarding proper transaction and communication at the school level in the classroom situation and in local environment outside. Because it has been our observation during the past years that unless proper instruction and guidance can be provided for the teachers and others concerned, the goals and objectives of the curricula and syllabi can little be accomplished.

Tryout and Press Release

Before publication of the curricula and syllabi through a press conference on August 18, 2003, a tryout of this Booklet was done by sending it to different experts and subject specialities, teachers' organisations,

Educational Institutions and Members of the Board—corrections and recommendations were incorporated accordingly.

NATIONWIDE ACHIEVEMENT SURVEY AT THE END OF CLASS V

[A programme Organised by Department of Educational Measurement & Evaluation,
NCERT, New Delhi]

The Phase I of Nationwide Achievement Survey at the end of Class V was conducted on 15 selected schools from each State on sample basis in 2001. First of all questionnaire on 1st Language, Mathematics and EVS was prepared by DEME with the help of subject experts selected by the WBBPE and survey was conducted successfully. Marks were tabulated and sent to DEME, New Delhi. The marks were analyzed and questionnaires were revised through another workshop at New Delhi and those were prepared for holding second phase of the programme.

The Phase II of Nationwide Achievement Survey (Standardised Test) was conducted in 2002. Four districts from each State of the country were selected through a well designed format (Random Numbers Table) and 50 schools (40 from rural and 10 from urban area) from each district was selected. Number of students appeared at this test is 30 from each school. So, total number of students covered for this survey from West Bengal is $30 \times 50 \times 4 = 6000$. This was a standardised test based on the survey conducted in Phase I in 2001.

The survey entails the following activities:

1. Preparing questionnaire on the basis of the analysis of the tryout results of the Phase I.
2. Selection of sample schools in each State/UT for administration of final tests.
3. Administration of the final tests on a larger sample throughout the nation.
4. Scoring of the tests.
5. Analysis of the results and the writing of the State report and national report.
6. Sharing of results with States/UTs for necessary follow up action.

The Phase II of Achievement Survey was conducted throughout the State successfully and questionnaires were sent to DEME duly for analysis and comparative study.

A 3-day workshop for sharing outcome of the Achievement Survey at the end of Class V was held at NCERT, New Delhi from September 17-19, 2003. The main objective was, 'Baseline Survey at the end of Class V' under SSA. Sri Debaprasad Mukhopadhyay, Assistant State Coordinator of Nationwide Achievement Survey of the Board was deputed to represent the Board.

Sri D. P. Mukhopadhyay attended the workshop and participated in the sharing outcome of the survey. He took out some salient portions of the summary of the report (Draft) prepared by DEME. Analysis of the results is significant one. It reflected that participation from West Bengal is encouraging and results showed a great deal of qualitative improvement of the pupils participated in it. This standardised survey was not confined only to the results of the students reflected in the questionnaires, but it focussed so many aspects related to the total educational set up infrastructure, educational inputs, socio-economic condition of the guardians and teachers, quality of

teachers & their activities etc. This was deducted through three sets of questionnaires meant respectively for the school, the teachers and the students. However, with regard to the results of students of West Bengal in curricular areas it was found that they have performed well and achieved desired competences which are the main objective of Primary Education.

A special mention can be made in respect of West Bengal. Most of the schools where achievement survey was conducted for Class V, belonged to secondary section (as most of the Class V, nearing 95% is held in secondary section). So, results reflected in the analysis of the study denote some variation from other States, as information about the institutions and the teachers is related to secondary section and a little about primary section.

The complete picture of the level of students' achievement at the end of first five years of schooling in the three major curricular areas namely Language, Mathematics and Environmental Studies will be available after the Final Results and analysis of the whole programme will be sent by DME, NCERT in near future.

SARVA SIKSHA ABHIYAN : ROLE OF THE BOARD

Sarva Siksha Abhiyan was launched in 2002 with a view to achieving the goal of universalisation of Elementary Education from Class I to Class VIII by the target year 2010, covering both primary and secondary. The programme surely get impetus from the 86th amendment of the Indian Constitution in the Parliament where it emphasised upon the compulsory education for the children belonging to the age group from 6 to 14 and 15 it has been included in the Fundamental Rights. In respect of financial contribution for the successful implementation of the programme, both Central and State Government have 75% : 25% ratio share.

The main objectives of the Sarva Siksha Abhiyan are as follows:

- (a) Enrolment of children from 5+ to 13+ must be ensured either in format Government Schools or in Sishu Siksha Kendras, Madhyamik Siksha Kendras, in Bridge Course or any kind of non-formal institutions organised by the Village Community under the guidance of School Education Department, Government of West Bengal.
- (b) Completion of Primary Education of all children by 2006-2007.
- (c) To complete Elementary Education of all children by 2009-2010.
- (d) Qualitative and quantitative improvement is earnestly desired for the successful implementation of this programme.

West Bengal Board of Primary Education is an autonomous body to control and conduct Primary Education in West Bengal. It is absolutely a unique one because of the fact that in no other State this system does prevail. So, Board enjoys a definite entity of its own in regard to formulation and fostering of the schemes, modalities and activities in relation to the Universalization of Primary Education in the State.

For this the WBBPE is prepared to rise up to the occasion in the fulfilment of the objective of SSA. It is ready to extend its all cooperation with PBRPSUS, who is in charge of implementing SSA Programme in the State. Although the main objective of the SSA Programme is to enrol all out of school children, Board's view can be added further for proper infrastructural inputs to be provided by the financial aid from SSA.

The WBBPE is entrusted with the framing up of the syllabi and curriculum of primary structure of School Education and developing learning competency-based textbooks, preparing and providing books to be studied in

primary schools, prescribing the curriculum, syllabuses and the courses of studies of the Primary Teachers' Training Institutes, granting or refusing recognition of PTTIs, conducting PTTI Examination, holding periodically continuous and comprehensive evaluation along with a diagnostic test after completion of Class II to ascertain gaps in learning competences in order to ensure remedial teaching-learning measure and so on.

Besides these the WBBPE takes up so many activities like training activities.

As SSA is an integrated programme, there is a Core Committee to initiate this successfully. The MIC, School Education is in the head of the Committee as adviser and the Committee comprises the Principal Secretary, School Education, Directorate of School Education, President of West Bengal Board of Primary Education, West Bengal Board of Secondary Education and West Bengal Board of Madrasah Education, Director, Rabindra Mukta Vidyalaya, State Project Director, Paschim Banga Rajya Prarambhik Siksha Unnayan Sanstha and Director, SCERT, West Bengal.

It has been unanimously resolved that all academic activities must be initiated by the Board in collaboration with PBRPSUS, SCERT, UNICEF etc., but any kind of academic package prepared by any organization for implementation in Primary Schools, must be endorsed and approved by the WBBPE.

The Board has accordingly prepared different strategies to orient teachers, to conduct surveys, feedback and assessment studies. In the case of training or orientation through cascade-cum-concentric mode is in vogue—MRP, KRP, RP and Teacher level. All programmes are divided into two levels—State and District. State level programme will be conducted by the Board by preparing different modules and sensitization and orientation to MRPs and KRPs and some other need based programme, while District level implementation of such programmes will be conducted by the PBRPSUS based on the modules and instructions prepared by the WBBPE in order to carry it to the grass root through orientation of the RPs and teachers.

As such Annual Work Plan and Budget 2004-2005 under SSA, West Bengal, has been submitted for approval. It was prepared on the basis of a format sent by SPO, PBRPSUS and estimated expenses for implementation of different programmes were shown separately as State Level and District Level Expenses.

Preparation, Revision and Renewal of Test Books at Primary Stage by West Bengal Board of Primary Education

In terms of Memo. No. 216-SE(PE) dated 24.07.97 of the School Education Department, Government of West Bengal, revision and renewal of existing text books of primary stage started in 1998. As per recommendation of the then curriculum and syllabus of primary education, all those revised and renewed text books were introduced from the Academic Session of 2001-2002.

Since then the process continued up to the academic year of 2003-2004. But as per Government order, existing curriculum and syllabus was renewed and modernised in the later part of 2003 and some text books of the beginning classes of primary stage have been again revised/renewed accordingly in order to introduce those from the academic session of 2004-2005. The printing works are under process. The names of those text books are as follows:

- (a) All the four (4) text books of 1st Language for Class I in Bengali, Hindi, Urdu and Nepali.
- (b) Arithmetic for Class I in Bengali and versions in Hindi, Urdu and Nepali.
- (c) Natural Science for Class III in Bengali and versions in Hindi, Urdu and Nepali.
- (d) History and Geography for Class III in Bengali and versions in Hindi.
- (e) History for Class V in Bengali and versions in Hindi.

- (f) (i) As it has been decided by an order of the Government of West Bengal to introduce English (2nd language) from Class I from the Academic Session 2004-2005, the text book of Class I has accordingly been prepared by the subject experts in bi-lingual versions of Bengali, Hindi, Urdu and Nepali.
- (ii) English (2nd Language) for Class II in all bi-lingual versions of Bengali, Hindi, Urdu and Nepali has been revised/renewed and this will be introduced from the Academic Session 2004-2005.

Preparation of modules on co-scholastic subjects of curriculum and syllabus:

- (i) Module on works based on Direct Experience, Creative and Productive works for Classes I to V.
- (ii) Module on Primary School Health Education in collaboration with the Health and Family Welfare Department, Government of West Bengal for Classes I to V.
- (iii) Module on Primary School Physical Education for Classes I to V.
- (iv) Module on orientation of Teacher-Educators of Primary Teachers' Training Institutes.

It is to be noted that, some extra inputs like instructions to teachers, contents of syllabus, competencies of each lesson, model lesson plan of transactional strategy etc. have been incorporated in each of the text books to give impetus towards implementation of learner-centred method as practicable as possible.

ENGLISH ORIENTATION PROGRAMME AND PREPARATION OF ENGLISH TEXT BOOKS

Following the recommendations of Dr. Pabitra Sarkar Committee for teaching English as second language at the primary level from the second semester of Class II and acting up on the order of the School Education Department, Government of West Bengal, the West Bengal Board of Primary Education introduced the study of English in the year 1999. Thereafter, in 2000-2001, a massive Orientation Programme was conducted by the Board for providing training to more than one lakh primary teachers with the emphasis on the learner's empowerment. In continuation of the previous programme, further initiative was taken by the Board during 2003 in collaboration with the British Council and the English Language Teaching experts from the Institute of English, Kolkata and from other organizations to make the teaching-learning process more effective by empowering the primary teachers so that they may teach English successfully with emphasis on teacher-talk device that may be instrumental to encourage the learners by reciprocating with desired answer.

With that purpose in view the WBBPE arranged for a two-day English Orientation Programme with the ELT experts from British Council and from our State in April 2003 at the Aikatan Complex, Salt Lake City, Kolkata.

These Master Resource Persons discussed in great details the possibilities for exploring specific areas in the text books where teacher-talk could be developed. Following this, a massive training programme was taken up with the warm cooperation and assistance from the British Council Division, Kolkata. The programme was conducted at three phases:

- (a) School visit from 10.9.2003 to 13.9.2003;
- (b) Development of training materials from 14.9.2003 to 19.9.2003; and
- (c) Training of the Key Resource Persons from 20.9.2003 to 27.9.2003.

All through this programme, Dr. George Raymond Mackay, the noted ELT Expert from the British Council remained along with other State Experts, conducting very effectively the entire schedule of training in which 75 KRPs took part from all the districts of our State.

As the follow-up action of this training programme, the teaching-learning materials developed in the workshop were further developed for the preparation of a Training Module at the Board's initiative. A series of meetings were held with MRPs to give effect to this purpose keeping an eye on the teacher-talk section. The module has been completed and we hope to hand over this module to all the District Primary School Councils shortly. In the successive phases more than one lakh seventy thousand primary teachers will be trained through the cascade-cum-concentric mode in which about 400 KRPs and 1000 RPs from each district will act as trainers. The training of the large number of primary teachers all over the State is expected to be completed within the 31st May, 2004.

Another development programme has also been taken up in respect of revising the syllabuses for English language up to Class V. As directed by the School Education Department, Government of West Bengal English being introduced from Class I from 2004 the text book of English for Class I has been prepared and handed over to the concerned department of School Education so that the manuscript may be printed and the text copies may reach all the District Primary School Councils for distribution amongst the students in time. The text book for Class II has also been revised accordingly with the inputs developed in the latest orientation programme and has been handed over to the School Education Department, Government of West Bengal with modifications. The Board will soon arrange for further training programme of all the primary teachers of our State and will take up the task for developing all the text books up to Class V in the context of the changed scenario in education and in accordance with the revised curriculum and syllabus for Primary Section with an emphasis on the development of the competency of the learners in using English through conversation in the class room situations and in practical situations outside the class room.

PRIMARY SCHOOL HEALTH EDUCATION PROGRAMME

Introduction

"Man is the greatest resource of the world and health is the greatest resource of man".—thus goes the proverb. For the total exploration of human resources and for the interest of the development of the society and nation, the chief elements are two fold—education and health. But it is distressing to say that about 35% of the population of India is suffering from illiteracy and many of our people lack health awareness. So, a slogan "EDUCATION FOR ALL AND HEALTH FOR ALL" should be raised simultaneously and in order to materialise it there should be concerted effort irrespective of any caste, creed or religion to combat all adversities.

The main focus should be reflected on the children who are the future citizens of the country viz. education and health for all children must be ensured, because these future citizens of India would play prime role for total uplift of the nation. If they are deprived of achieving these two things, education and health, it will be very difficult for them to take the initiative in any aspect of activities for promotion of the future of the country. On the other hand, learning of any scholastic subject or participating in any activity work in the school sphere it might become joyless and fruitless for these ill health students. Practically it is not at all desired. There can be no denying the fact that, the drop-out rate and absenteeism of the students is occurring due to ill health along with other allied reasons. So, on one side the children should be enrolled in schools and at the same time importance should be laid on the total development of the health of the children.

With this objective in view, attempt has been made to make primary school health education programme successful. Before going into the initiation of this health education programme in totality, a focus may be reflected on the total scenario of the health of the children throughout the country. Still the mortality rate of the children in India is 70 in 1000, but there is different ratio in different States of the country i.e. 14 in Kerala and 95 in Orissa.

This rate is 95 in 1000 for children up to 5 years of age (in West Bengal it is about 49), the maternal mortality rate is also on the higher side (about 410 in one lakh). About 47% of the children are under weighted. It is mainly due to mal-nutrition. About 20% of the Indian population are deprived of getting pure drinking water and 64% people are not getting sanitary facilities. The condition about lacking in these facilities can be evident in primary schools. Some of the diseases from which the Indian children are suffering, can be mentioned in a nutshell. These are— Anaemia about 74% due to mal-nutrition, vitamin-A deficiency—night blindness, salt-iodine deficiency, water carrier diseases like Amoebiasis, Diarrhoea, Cholera, Hookworm, Psoriasis etc. These are due to non-availability of pure water and lack of awareness about the use of water. Besides these, there are also many other infectious diseases.

Taking all these into consideration, the primary school health education programme has been chalked out for launching. Three major objectives have been given importance to:

1. Annual/Half-yearly Health check-up of the students by the Medical Personnel and expert Physicians through health camps and routine health check-up and screening of children for appropriate referral service.
2. Massive orientation of teachers of all primary schools in West Bengal, Teacher-Educators of Primary Teachers' Training Institutes (about 0.17 million) and other stakeholders of primitive, preventive and curative services. This orientation of teachers comprises regular health check-up of students both mentally and physically, taking down records and sending the children suffering from such diseases which are beyond the knowledge and control of the oriented teachers in respect of health.
3. Education of children for creating health and hygienic habits, health and environment, health and physical awareness and to disseminate this awareness amongst the locality through campaigns and other activities. Besides mentioning of the abovementioned major objectives, some other elements have been taken into account. These are—
 - (a) Attempt should be there to free the students from blind faith, superstition etc. with regard to health.
 - (b) There should be integration of games and sports, physical education, yogas etc. with health education in order to achieve the goal of the Art of Healthy and Productive Living.
 - (c) Students should be made aware about nutritious and well-balanced diet and about their procurement.
 - (d) To prepare a stage for congenial environment in school and outside, students should be trained—they will create their environment themselves by participating in cleanliness, anti pollution environment and keeping their health in good state.
 - (e) A close and congenial relation between the institutions and medical personnel, para-medical persons, voluntary organizations, guardians, Panchayats, representatives of the people and other persons concerned to promote implementation in the right way and make it a success.
 - (f) School Health Education Programme is not an isolated issue, it is a part and parcel of Public Health and also curricula and syllabi of Primary Education.
 - (g) Successful implementation of the programme will surely make a bridge between the society and the institution. Society must be interested in participating in different programmes of the institution and devote all its efforts for the advancement in infrastructural and administrative affairs leading to making of the children as successful citizens of the country.

This programme can only be successful if this is performed in an integrated way. It must be continuous and comprehensive in collaboration with the Health and Family Welfare Department, Government of West Bengal, School Education Department, Government of West Bengal, Gram Panchayats, SSA authority, UNICEF and other trusted and tested voluntary organizations. Above all, concerted efforts from the community concerned will surely may lead this to the destination and fulfilment of "Health for All".

This scheme of the programme can be stated in this way that, it should be implemented through micro-level and macro-level processes. In macro-level stage, it will be executed through cascade-cum-concentric mode—sensitization of the Master Resource Persons and orientation of the Key Resource Persons, Resource Persons and Teachers along with Teacher-Educators from Primary Teachers' Training Institutes. In micro-level stage it will be either school-centered or village or ward-centered, circle-centred and alike. But everywhere the same module prepared under the guidance and control of the W.B. Board of Primary Education along with other organizations, must be used.

For successful implementation of the PRIMARY HEALTH EDUCATION PROGRAMME stress should be given on school health first i.e. school health must be made congenial. It may be mentioned that the health Module for Primary School Health Education programme has been prepared by the Educationists, eminent Medical Personnel and other persons concerned through different workshops.

All the organizations devoted for the successful implementation of this programme expect that this programme will surely find the way to the total upbringing of the children of West Bengal as social beings with democratic outlook and knowledge of man and the world.

UPDATE IMPLEMENTATION OF THE PROGRAMME

Planning

It is a cascade-cum-concentric mode programme. Sensitization of the Master Resource persons and Orientation of Key Resource Persons, Resource Persons and Teachers and Teacher Educators of PTTIs.

In the State level, Sensitization of MRPs and Orientation of KRPs have been completed and in the District Level RPs and Teachers will be oriented in accordance with the Plan and Schedule to be framed by the WBBPE. In the MRP and KRP level it is a 5-day programme and in RP and Teacher level it is a 4-day programme.

The whole programme will be implemented jointly by the WBBPE and Health and Family Welfare Department, Government of West Bengal in collaboration with School Education Department, SSA, UNICEF and other trusted voluntary organizations. In District Level Community Participation is a must, as Panchayats will be entrusted to disseminate health awareness amongst the people of the villages.

Preparatory Stage

Preparatory meeting was held at SCERT on 27.5.2002 and 28.5.2002 for chalking out the plan for implementation of the programme and preparation of the Health Module.

Review of the module and scheme of implementation was done through a workshop held 3.11.2003 and 4.11.2003 at Dirozeo Bhavan.

Hon'ble MIC, Health, Hon'ble MIC, School Education and Minister of State (Health) were present and delivered valuable speeches expecting successful implementation of the programme. Eminent and expert Physicians and Medical Personnel, Chairpersons of District Primary School Councils, Officials of School Education Department, Directors and Administrators of Health and Family Welfare Department, representatives of SSA, UNICEF etc. participated actively and expressed their positive views.

Orientation of Key Resource Persons

It was planned that KRP training would be held in 4 zones, each zone comprising 5 districts:

1. 1st KRP Training in Kolkata was accordingly held from 19.1.2004 to 23.1.2004. It was inaugurated by Prof. Partha De, Ex-Minister-in-charge, Health & Family Welfare Department and School Education Department, Government of West Bengal. About 60 participants including eminent Physicians, Personnel from Health & Welfare Department, representatives of SSA participated in the programme actively. Not only that, demonstration of Road Safety and First Aid treatment was done by Bharat Scouts & Guides and other voluntary organizations. Eminent physicians demonstrated testing of eyes, teeth etc. The programme was very much living and interesting one. The President of the Board chaired the occasion and delivered enthusiastic speech about health and environment.
2. KRP Training in the 2nd zone was held at Paschim Medinipur from 5.2.2004 to 9.2.2004 comprising 5 districts. About 41 participants were oriented. It was also an enthusiastic programme.
3. Next KRP Training was held in Murshidabad from 11.2.2004 to 15.2.2004. forty-seven (47) participants were oriented.
4. From 26.2.2004 to 1.3.2004 it was held in Siliguri Town. Forty-seven (47) persons participated in the programme.

Zonal# venue	Date of holding the workshop	Participants
Kolkata	19–23 January, 2004	50
Berhampore	11–15 February, 2004	47
Medinipur (West)	5–9 February, 2004	41
Siliguri	February, 26–March 1, 2004	47

5 districts in each zone.

After completion of KRP Training R.P. (Resource Persons) Training will be held in different districts. About 200 R.P.s from each district are scheduled to participate in the programme.

In the final stage school teachers along with PTTI Teacher Educators will also be participating.

European Commission has extended its hand with financial assistance to fulfil the mission of implementing the Primary School Health Education Programme. The programme if implemented, will surely lead to minimizing drop-out rate and promoting qualitative improvement of the students.

With the release of the fund from the European Commission preparation of District Resource Persons under the initiative of the DPSCs has already started in the district as the next phase of the entire programme.

Ongoing system of Continuous and Comprehensive Evaluation at the Primary Education Level

With the introduction of the renewed curriculum in 1981 the system of Continuous and Comprehensive Evaluation (CCE) started being implemented at the primary education level in West Bengal recently. The renewed curriculum and syllabus to be introduced from the current academic session also proposed to strictly adhere to the system. The Education Commission (Ashok Mitra Commission) appointed by the Government of West Bengal in 1992 initially examined the status of implementation of the system and identified the weaknesses and suggested certain remedial measures. The West Bengal Board of Primary Education in its bid to make the system more realistic and more effective has been advocating the administration of the entire system in four distinct segments:

- I. Instant tests/tests on sub-unit of a lesson
- II. Unit Test
- III. Periodic or Terminal Evaluation
- IV. summative Evaluation

It is true that success of the administration of the system much lies with the teachers. In spite of best of the efforts all the teachers are yet to be given necessary orientation in this respect.

Diagnostic Achievement Test as an Integral Part of CCE

Application of the CCE at the macro level often fails to detect the intra-state regional or inter-district disparities as well as to identify the hard spots in curriculum. Basically with a view to removing these deficiencies and to make a mid-term appraisal the Board introduced in 1999 a diagnostic achievement test being held externally every year during April-May for the students completing just two years of schooling (i.e., at the end of Class II). Tests on uniform items in the subjects like First Language (Bengali, Hindi, Urdu, Nepali, Telegu and Oriya) and Arithmetic are administered throughout the State in two days.

During 2003, the tests were duly held throughout the State on 22nd and 23rd April, 2003 and spot assessment by the invigilating teachers of other institutions followed. Marks are tabulated and communicated to the parents/guardians.

In the meeting held in 'Acharya Prafulla Chandra Bhavan' on the 16th February, 2004 with the Chairpersons, District Inspector of Schools and Asstt. Inspector of Schools of the districts it was decided that the external evaluation was to take place on the 6th (First Language) and 8th (Arithmetics) of April, 2004 usually. Accordingly the question papers and necessary instructions issued by the Board and the evaluation were duly conducted on the dates as mentioned above.

Recognition to the PTTIs

The Board by an amendment to the West Bengal Primary Education Act, 1973 has been entrusted with power of management, supervision and control of primary teachers' training in West Bengal. Accordingly granting of affiliation to the proposed PTTIs under the initiative of registered societies became a part and parcel of its activities. During the year 2004-2005, 544 copies of application form and prospectus have been sold and 350 applications have been submitted to the Board. After a close scrutiny a number of applications have been found valid and inspections of the proposed institutes as well as for renewal of the ones already selected have been completed. Inspection Reports were placed for consideration to the Recognition Committee.

Holding of the PTTI Examination

The final examination of the one-year certificate course of the PTTIs is now being conducted by the Board and in 2003 the final examinations were conducted in 25 centres. The examination commenced on 27.6.2003. Altogether 6041 candidates appeared at the examination from 56 Government and Government Sponsored PTTIs and two Pre-Primary Teachers' Training Institutes. The stupendous task of examining the scripts, tabulation of the results and preparation of the Mark-sheets was meticulously performed by the Board and the Mark-sheets and Certificates were duly handed over to the relevant PTTIs. The table below gives a bird's eye view:

Results of the Examination

[One-year Certificate Course of PTTIs]

Attainments	Male	Female
First Division	3,383	1,902
Second Division	180	41
Distinction	2	7
External Candidates passed	151	44
No. of candidates failed	260	71
	3,976	2,065

Total Number of candidate passed: 5,710.

It may be noted in this connection that with the granting of the provisional affiliation to 37 more PTTIs the total number has now become 95. Practical examinations in all these colleges have already commenced and the probable dates for holding the written examination have been tentatively fixed from 16.6.2004 to 26.6.2004. Examiners have meanwhile been appointed. The system of Registration of the students has been introduced from the current year.

Networking with National and International Agencies

- The West Bengal Board of Primary Education has become a member of the Council of Boards of School Education in India (COBSE). A brief profile of the Board was duly despatched to COBSE and the paper on Continuous and Comprehensive Evaluation prepared by the President and sent to the conference of the General Body of COBSE held at Mauritius during 2-4 September, 2003 drew wide applause from the participants.
- It is heartening to note that the Board is gradually extending its network with other educational bodies at the national level. A number of Project Proposals sent to the Department of Measurement and Evaluation, NCERT were accepted by the Department and were approved for implementation by the Regional Institute of Education, Bhubaneswar under the aegis of the State Coordination Committee involving participants from West Bengal. Training of Teachers in Research Methodology, Science Teaching in Primary Schools are a few to mention where teachers/teacher-educators from West Bengal participated. Dr. Sarala Rajput in a letter to Board President conveyed her Department's willingness to shoulder the responsibility of holding surveys.

- The West Bengal Board of Primary Education is possibly the only Board that could cater to the demand as per Supreme Court's verdict for study of environmental sciences within its curricular area. The President of the Board, Dr. J. P. Ghosh participated in the national level conference recently held by the NCERT at its campus.
- The President of the Board Dr. J. P. Ghosh was invited by the Department of Elementary Education, MHRD to inaugurate an Orientation Workshop on sharing experiences of Non-Government Organisations on Experimental and Innovative Projects under MHRD Scheme in February, 2004.
- UNICEF, Kolkata has agreed to offer support for (i) Manpower, (ii) Mobility, (iii) Management of Information, (iv) Monitoring and (v) Media and Documentation Management necessary for smooth conduct of the Primary School Health Programme undertaken by the Board.

Networking with the International Agencies

- UNICEF, Kolkata has agreed to offer support for (i) Manpower, (ii) Mobility, (iii) Management of Information, (iv) Monitoring and (v) Media and Documentation necessary for smooth conduct of the Primary School Health Programme undertaken by the Board.
- The representatives of the Department for International Development (DFID), U.K. pays occasional visits to the Board basically to discuss the progress of the on-going programme on interventions known as District Primary Education Programme. The Board is in collaboration with the Paschim Banga Rajya Prarambhik Siksha Unnayan Sanstha for effective implementation of WBDPEP.
- The European Commission with its Sector Investment Programme has already started supporting the Primary School Health Programme and is full of appreciation for the type of programme which is unique in nature in whole of India.

Annual Sports Meet

Annual Primary School Sports Meet originally initiated by the Directorate of School Education, West Bengal is now being organized regularly by the West Bengal Board of Primary Education. From the schools via district level a large number of competitors (nearly 500 as in 2001) finally participate in the State Level Meet usually organized in a district under the initiative of the Board. This is perhaps a unique one in the whole of the country at the primary education level. A number of events (nearly 35) are held including football competition as introduced in the last year. Last year the Meet was held in the district of Nadia. Important dignitaries including Hon'ble Minister-in-charge of the School Education Department usually grace the annual sports meet by their presence. President Dr. J. P. Ghosh is very keen in organizing this annual meet and has declared award of twenty sports scholarships for the competitors scoring the topmost positions in different events. Award of prize for the champion teams in the football competition has also been declared.

It is needless to mention that holding of this type of sports meet at the primary education level is unique in nature and is quite in tune with the objective of the Board to make every student a full-fledged healthy citizen of future India.

The annual sports meet was held this year in the district of Coochbehar. The district of Nadia won the first prize among the districts for the best performance of its competitors. It has been decided that some more prizes and sports scholarships for each event will be awarded under the initiative of the DPSCs.

⇨ Inauguration of the work-shop on curriculum Renwal

⇨ President Dr. J.P ghosh inaugurating Orientation Course in English teaching

Hon'ble Ministers - in charge Sri Kanti Biswas, Dr. Surya Kanti Misra, MDS Sri Protyosh Mukhopadhyay, Dr. Amiya Kumar Hati & Dr. J. P. ghosh, President of the Board in an inaugural session of the Primary School Health Programme ⇨

Inter-District Transfer of Primary Teachers (2003-2004)

The number of applications for inter-district transfer received by the Board is 148 while the number of proposals for transfer already given effect to is 84 and the number of proposals under consideration is 110.

Setting up of New Primary Schools

Besides qualitative improvement the Board also seeks to promote the quantitative expansion as well. The table (as on 11.3.2004) below indicates a bird's eye-view:

Total number sanctioned by the Government	Total approved by the Board	Balance awaiting approval
2572	2070	502

The Board gets its own Accommodation (Administrative Headquarters)

At long last the Board entered into its own house, 'Acharya Prafulla Chandra Bhavan' at DK 7/1, Sector II, Salt Lake, Kolkata 700 091. With enormous jubilation all around over the auspicious inaugural ceremony held on 25.11.2003 and graced by the presence of none else other than our beloved, Hon'ble Chief Minister, Shri Buddhadeb Bhattacharya. While the Hon'ble Chief Minister inaugurated, Shri Kanti Biswas, Hon'ble MIC, School Education Department and Madrasah Education, Government of West Bengal graced the occasion as the Guest-in-Chief and Smt. Eva De, Hon'ble Minister of State, Department of Primary and Secondary Education and Shri Achintya Roy, Ex-MIC, Department of School Education and an well known educationist as Special Guests.

Shri Bhabesh Moitra, an educationist and ex-President of the Board, Shri T. K. Basu, Principal Secretary, Department of School Education. Shri Ranjugopal Mukherjee, Chairman, Rabindra Mukta Vidyalaya, were among other dignitaries present as our guests. Dr. J. P. Ghosh, President, West Bengal Board of Primary Education presided over the inaugural ceremony. Dr. Ghosh extended hearty welcome to all and upheld in his inaugural speech the basic difficulties through which the Board has been passing without however, failing in any way to carry out the stupendous tasks with which the Board has been entrusted. The Hon'ble Chief Minister in his short but pointed speech assured the Board of the supply of adequate manpower to the Board through immediate arrangements for employment of at least 20 more persons. Shri Kanti Biswas, Hon'ble Minister-in-charge, School Education Department, Government of West Bengal. Smt. Eva De, Hon'ble Minister of State, Department of School Education emphasised the need for whole-hearted efforts of all to achieve the goal of Universalization of Primary Education in our State.

By the untiring efforts of the employees of the Board, its office could be shifted to the new premises by the evening of 31st December, 2003. The office of the Board started functioning in its new administrative building 'Acharya Prafulla Chandra Bhavan' on and from the New Year's Day, the 1st January, 2004. It is worth mentioning in this connection that nearly 70% of the works of the premises is over. Finishing works of the 4th, 5th and 6th floors are in progress.

Finally a word on the plan of utilization of the premises

It has been decided that besides accommodation of offices a portion of 6-storied building will be used for accommodating a good exhibition of all the teaching-learning materials, particularly those developed in the districts. A laboratory-cum-science exhibition room will be installed and above all a good and rich library of books mostly on education in particular will be opened to cater to our needs as well as to fulfil the needs of researchers.

Problems and Prospects

The Board it is well-known, on the threshold of entering into a new era of Universalization of Primary Education in West Bengal. It is needless to mention that the growing responsibilities with which the Board is gradually being entrusted also call for adequate manpower, money and management machinery particularly a good management information system to match its capability for discharge of the growing responsibilities. Besides the ongoing programmes the Board has courageously undertaken, the Board proposes to set up (i) one management information system cell, (ii) one impact study cell (cell for evaluation and monitoring as well), (iii) one documentation cell, (iv) a laboratory-cum-exhibition, (v) a good library rich in books, particularly those in education basically to encompass totality of its activities and (vi) an educational research unit.

The Board earnestly hope that its quest for quality with universalization will be crowned with success for renewed onward march.

CHAPTER IV

Secondary Education

10+2 pattern of School Education is followed in West Bengal. In School sector, Secondary stage is divided in two stages viz. Junior High or Upper Primary which ends at the completion of Class VIII followed by 2 years of schooling which leads to first public examination called "Madhyamik Pariksha"/Secondary Examination taken at the end of 10 years of general studies. This is followed by 2 years of Higher Secondary Education. There are different types of schools viz. Junior High Schools, Junior Madrasahs, High Schools, High Madrasahs, Senior Madrasahs and Higher Secondary Schools. All Higher Secondary Schools have Classes V to Classes XII and that of High and High Madrasahs from Classes V to Classes X. Classes VI to Classes VIII are there in Jr. High and Jr. High Madrasahs. In addition to that most of the recognised Degree Colleges have Classes XI and XII of the Higher Secondary stage.

First public examination which a child sits at the end of Xth Class is conducted by the West Bengal Board of Secondary Education or West Bengal Board of Madrasah Education. These two are autonomous bodies and have the provision of representation through election of the teaching and non-teaching staff of recognised Schools and Madrasahs under the respective Boards. The elected teacher representatives constitute the majority in the Board.

At the end of XIIth year of schooling a student sits for the next public examination conducted by West Bengal Council of Higher Secondary Education. The examination is known as "Higher Secondary Examination".

Normal age of completion of Secondary stage is 15+ and that of Higher Secondary is 17+.

All schools sending their children for the public examination of West Bengal Board of Secondary Education, Madrasah Board and that of West Bengal Council of Higher Secondary Education are recognised by those Boards. Mother tongue is the medium of instruction in almost all schools. The students appearing at the public examination can write their answer scripts in Bengali, Hindi, Nepali, Urdu and English. However, as a language Tamil, Telegu, Oriya and some other languages can be offered at the appropriate stages of public examination. English is also the medium of instruction in few schools.

In the Higher Secondary stage students can opt for different subjects from science, humanities and commerce in addition to mother tongue and English. Some schools at this stage also offer vocational courses.

State Government directly controls a few schools, and most of the schools are non-Government aided schools. There is no tuition fees levied by the aided or Government schools in the State up to Class XII. The salary components of teachers of all these schools including post retirement benefits like pension, gratuity etc. at rates as that of a Government employee, are borne by the State Government. Few schools which charge tuition fees are not provided with the salary component by the Government. Few other schools get some aid in the form of D.A. though they charge tuition fees.

There is another type of schools which can be distinguished in terms of the management known as Government Sponsored Schools. These schools are run by a management which is partly nominated and partly elected. Amongst these schools there are a few Ashram Type Schools which are residential schools for Boys and Girls of SC/ST communities.

In addition the State Government also provides non-recurring grant, for the construction of school building, additional class rooms, development of libraries and laboratory facilities as well as some grant for the maintenance of hostels from time to time.

The management of each aided school consists of members elected from amongst the parents and teachers. However, there is a State Government nominee in the management.

GRANTS-IN-AID (2002-2003)

In West Bengal during the last two decades, social demand for education has been increased. Tremendous growth and enormous expansion in school education has been noticed. To meet the new challenges and major thrusts of education, the Government of West Bengal has been shouldering the responsibility to make the system work in a more productive and fruitful way for Human Resource Development and to build a developed society by expanding investment in education.

Grants-in-Aid Section of the School Education Directorate is a unit through which social investment passes through for running education particularly at the Secondary level.

For improving the efficiency of the education system and maximising the returns from education, teachers who are one of the main ingredients in the educational system, have an important role in the development of human resources in particular, and society and nation as a whole.

Government Schools of West Bengal

The Directorate of School Education directly controls and maintains 41 (forty-one) institutions within the State. Out of which 39 (thirty-nine) are Government Schools and the remaining 2 (two) are Teacher's Training Institutions. Recently one more school has been established at Bidhannagar, Salt Lake, named as Begum Rokeya Smriti Balika Vidyalaya. This school has started operation from the academic session, 2000-2001 and now able to meet the long standing demand of the local population for a separate Government Girls' School.

Most of the Government Schools have otherwise a long history. Quite a few of them are more than 100 years old. In the districts they are generally known as Zilla School and are held in high esteem for their quality of education and discipline. Every year they make excellent result in both Madhyamik and Higher Secondary Examinations and quite a few student find a place in the merit list of first 20 (twenty) students in both these examinations.

The Government School Section, under the Directorate of School Education (W.B.) is responsible for appointment, posting, transfer, salary, pension etc. of the teaching staff of these institutions. Full financial assistance for maintenance and modifications of these schools are borne by the State Government.

The entry point in these school are generally in Class-I (one) and Class-III (three). The admission of students in Class-I (one) in Government Schools (along with Government Sponsored Schools) is done through draw of lottery. The Directorate of State Lotteries are entrusted with the said job. Last year the draw was held at Malda and Purulia for the schools of North Bengal and South Bengal Zones respectively. The lottery for admission of student in Class-I of Calcutta Zone was held at Derozio Hall, Presidency College, Calcutta the admission of students in Class-III (three) is, however, held through a Common Admission Test in all the Government Schools in West Bengal.

WEST BENGAL BOARD OF SECONDARY EDUCATION

Board of Secondary Education— Status and Jurisdiction

1. West Bengal Board of Secondary Education owes its origin to the West Bengal Secondary Education Act, 1963, (amended from time to time). As per section 2 of this Act, the Board consists of luminaries of the State of West Bengal having vast experience and knowledge in the field of education and administration. The Board is an autonomous body having power to advise the State Government on all matters relating to Secondary Education, to lay down the general policy for development of Secondary Education in West Bengal. However, the State Government has the power to direct the Board on many aspects. The Board has been functioning maintaining harmony with the Director of School Education. New schemes on different programmes proposed by the Board are implemented after obtaining sanction of the State Government communicated either through Education department or through the D.S.E.

2. Major activities of the Board

The Board will be generally responsible for the following matters:

- (i) Holding of Madhyamik Pariksha (Secondary Education) including publication of result of both regular & external candidates and issue of certificates, publication of merit list and felicitation of meritorious students of outstanding performances in the examination.
- (ii) Granting or refusing recognition to institutions.
- (iii) Withdrawing recognition granted to Institutions, after considering the recommendation of the Recognition Committee.
- (iv) Approving or withholding approval of the constitution of the Managing Committee.
- (v) Approving Special Constitution of the Managing Committee.
- (vi) Superseding a Managing Committee and appointment of administrator or Ad hoc committee to manage the affairs of the school.
- (vii) Preparation of syllabus and review thereof.
- (viii) Publication of Text Books for Classes VI-X.
- (ix) Publication of Parsad Varta—Monthly Journal of the Board.
- (x) To arrange for the inservice training and orientation of secondary school-teachers.
- (xi) To appoint committees of experts to advise on the syllabi curricula etc. for the different courses of study.
- (xii) To frame courses of study on the recommendation of expert committees that may be appointed for the purpose.
- (xiii) To draw up panels of question papers setters, moderators, Head Examiners, Scrutineers and Examiners etc.
- (xiv) To frame rules prescribing the minimum condition for selection of examiners, H.Es, scrutineers etc. and generally to frame such other rules as may be necessary for its effective functioning.

The Executive powers needed to implement the recommendation of the Board are vested in the President of the Board.

3. Different Committees and Sub-Committees

The major activities of the Board are undertaken through the undermentioned Statutory Committees:

- (i) Executive Committee
- (ii) Examination Committee
- (iii) Finance Committee
- (iv) Recognition Committee
- (v) Syllabus Committee

(vi) Appeal Committee

(vii) Committee, constituted under Act, 24:

Two Committees are functioning. One deals with affairs of disciplinary matters of teaching/non-teaching employees of aided school. The other deals with prayers for correction of records. One building sub-committee has been constituted to advise the Board in the matter of construction/acquisition of buildings by the Board.

4. Regional Examination Councils

Since 1974, 4 Regional Councils namely (a) North Bengal (b) Burdwan (c) Midnapur (d) Kolkata as a measure of decentralisation of work load in the interest of the students as well as of teachers and guardians etc. have been functioning.

The main activities of these Regional offices relate to the following:

- (1) Processing of registration forms of the students reading in class IX.
- (2) Correction of Mark Sheet/Certificates and receiving and processing forms (in subjectwise).
- (3) Appointment of custodian and officer-in-charge of centre of M.P.(SE).
- (4) Correction of Registration Certificates, distribution of Admit Cards including Mark Sheets.
- (5) Formation of visiting team and selection of Board's nominee for the Centres of M.P.(SE).
- (6) Change of Centre for the candidates as per rule.

Function of the Executive Committee

The Executive Committee performs duties as conferred upon it vide section 19(a) under Chapter III of the Act. It advises the Board on all matters relating to development of Secondary Education like granting, refusing and withdrawing recognition to institutions after considering recommendation of the recognition committee, amalgamating two or more institutions into one institution, shifting from one site to another, approving/withholding approval of the constituted/reconstituted Managing Committee, approving special constitution of the Managing Committee, Superseding Managing Committee and appointing Administrators, Adhoc Committee, maintaining register of recognised institutions, approving syllabus, preparing, publishing Text Book, sanctioning special leave and study leave to teaching/non-teaching employees of aided institutions approving rates of fees of examinees, rates of remuneration to the persons employed in connection with examination, making by-laws duly approved by the State Government and disposing of the court cases by taking hearing in the Executive Committee.

During the year 2003-2004, the Executive Committee took decision in the following matters in nine meetings:

Cases dealt with		Total No. of cases dealt with
	=	02
(a) Extension of Recognition	=	07

- (5) Holding of workshop of Secondary teachers in collaboration with W.B. Prevention of Aids Society "Life Style Education" (Jiban Shaili) from 16.02.2001 to 18.02.2004 at Derozio Bhavan, Salt Lake, Kolkata-91.

Others Areas of Academic Section of the Board

(1) Publication of Santhali Books

1st Language santhali Books, both in Bengali and "Olchiki" scripts have been published by the Board and Candidates having 1st language Santhali have been appeared at the M.P. in this year 2003-2004.

(2) Parsad Varta, the Board's Publication

Parsad Varta, a monthly journal is published by the Board. Answer scripts of the meritorious students of Madhyamik Pariksha are published. Other literary and educational articles, Government Order, Board's orders are also published.

(3) Publication of Books by the Board

Learning English for Class VII has been published in a revised manner and Learning English for Class VIII Step-III, History (English & Hindi medium) for Class VII and History (English & Hindi Medium) for Class VI are going to be published soon by the Board.

(4) Nepali

The syllabus for Nepali as First Language and second language have been finalised and it will be taught after publication of Text Books as per syllabus. Nepali as third language will be introduced from the next academic session in the Hilly areas. The syllabus and books for the purpose are in the process of making.

(5) Bengali as Third Language

The Books of Bengali as third language for Class VI students is finalised and it will be published within this academic session of 2004-2005.

(6) New Syllabus

The Board has introduced new syllabus in the following subjects to be taught in classes from VI to VIII from the academic session 2004-2005. And new syllabus will be introduced also in the following subjects to be taught in classes VII & VIII, IX & X from the academic session 2005-2006.

Class	Session	Subjects
VI	2004-2005	Bengali (Text Book, Grammar, non-detailed study) General Science, Geography, Mathematics (published by the Board).
VII	2004-2005	Geography, Life Science, Physical Science.
VIII	2004-2005	Geography, History, Life Science & Physical Science.
VII & VIII	2005-2006	Bengali (Text Book, Grammar, non-detailed study)
IX & X	2005-2006	Bengali (Text Book, Grammar, non-detailed study) History, Geography, Life Science & Physical Science.

The Board has completed its tasks of preparing text books on the above subjects for the session 2004-2005 within 30.04.2004.

(7) Sarva Siksha Abhijan

The Board prepared projects and started programmes of Sarva Siksha Abhijan in the State for the students at the elementary level (i.e. V to VIII) who are out of formal education. With the approval of the proposals submitted by the Board, State Project Director, DPEP and Sarva Siksha Abhijan released fund in favour of the Board to organize the said programme w.e.f. April 2003. Since then, the Board, has organized several programmes towards successful implementation of the scheme within the stipulated period scheduled for this purpose.

Function of the Examination Committee

Policy decisions and connected affairs in respect of Madhyamik Examination are framed and looked after by the Examination Committee. These are executed through the Examination section. During the year 2003-04 three (3) meetings were held and arrangements for conducting examination of 6,08,823 candidates (Regular + External) have been done. Result of the candidates for 2002-03 also was published in time. A statement of total candidates (Regular + External) enrolled in the M.P. Examination in the year 2003-04 is enclosed (Annexure - 'X').

Function of the Finance Committee

Finance Section of the Board holds a key position. This section has the responsibility to prepare the budget and to mobilize the resources and to control expenditure. Board is dependent on grant from State Government to a great extent to meet the expenditure for conducting examinations, payment of salary to staff etc. With much restraints, the Board has sustained endeavor to mobilize its own resources. As a part of it, the examination fee was increased from Rs. 35.00 to Rs. 155.00 for regular candidates and from Rs. 60.00 to Rs. 500.00 for external candidates. But this is not sufficient for actual expenditure incurred for this purpose. However, the Board has either curtailed or minimised the recurring expenditure to maintain financial equilibrium. During the year 2003-2004 three (3) meetings of Finance Committee were held and Budget Meeting was held on 30.10.03.

Function of the Appeal Committee

One of the unique activities of the Board is to perform quasi - judicial functions which is done through appeal committee. The administrative part of activities is looked after by the Appeal section headed by D.S. (Admn). The Appeal Committee is to decide appeal made by the teachers and other employees against decision of Managing Committee, of the institutions, adversely affecting them. Out of 130 cases for adjudication during the year 2003-2004, 16 cases have been disposed of, 114 cases remain pending. For this purpose 7 meetings of Appeal Committee were held and for 10 cases hearing were postponed.

Function of the Recognition Committee

During the year 2003-2004 8 meetings of the Recognition Committee were held to decide the case of recognition of schools, upgradation of schools and withdrawal of recognition of schools as per government order. 7 schools were recognized as 4 class Junior High Schools, 4 new set up schools were recognized, 1 (one) Junior High School was recognized as per Hon'ble court order, 16 (15+1) schools were upgraded to High Schools and 7 schools were derecognized as per government order and court's order in different districts of West Bengal. Enclosed statements reflect the number of different cases decided and also the schools recognized and upgraded in Annexure "Y".

Publication

The Board publication Text Books numbering about 46 titles almost on no profit no gain basis to make these available to students of different classes in West Bengal.

Arrangement has been made to sell these through the different Regional offices apart from through the enlisted book sellers. Facility of retail sale is also provided by the Board's own Sales Counter at 77/2, Park Street, Kolkata-16. During the year 2003-2004, total no. of books published and available

for sale-	55,79,418
total no. of books sold	43,91,897
Total amount of money collected through Sale Rs.	7,37,89,167/-
List of Board's Publication (Annexure-"Z")	

Library

The Board has a well-equipped library having a collection of about 9,000 books on various subjects. This section has to keep records of the books lent to its members. New books were purchased from time to time but financial crisis of the Board is standing in the way of purchasing new book. Preserving portion of news relevant to the Board and the education at large from different dailies (both English & Bengali) is one of the most important activities of this section.

National Scholarship

The merit list of National Scholarship for M.P.(SE), 2002-2003 has been recorded on the basis of results of M.P.(SE), 2002. The students obtaining total 640 marks came under the purview of National Scholarship.

National Scholarship has been awarded to 868 students out of sanctioned strength of 8918 as per income certificates submitted by the students and the rest of 11440 students is entitled to merit certificate. Total no. or rank holders is 130.

Activities of the Establishment Section

The Establishment section of the Board performed the following activities during the year 2003-2004.

- (1) Took various steps to ensure punctuality in attendance and departure, prompt disposal of work by the employees and officers.
- (2) Performed all works related to M.P.(SE) successfully.
- (3) Performed all works related to promotion, transfer, appointment of staff of the Board.
- (4) Organised Felicitation Ceremony for Rank Holders in Madhyamik Pariksha for year 2003 held at Rabindra Sadan Auditorium on 08.01.2004—Annexure "S".
- (5) Took timely steps for appointment of wards of the Board's employees who died in harness.
- (6) Took steps for instalment of Computer in different sections, Preparation of Software and orientation of employees in Computer training.
- (7) Maintenance and sanction of leaves enjoyed by the staff of the Board.
- (8) Maintenance of Reservation Roster in case of promotion.
- (9) Performed various nature of work through development of staff of different categories from different sections for the successful completion of pre-post examination work of M.P.(SE), 2004.

Apart from unusual activities restraining to it this section has been given responsibility of computerisation of the office of Board. 11 No. of computers (P.C) have been installed, 35 No. of employees have been trained up to handle computer. It is expected that disposal of work through computer will spread within a very short time.

Report of the Court cases of the Board

In the last financial year (01.04.03 to 31.03.04) 1146 cases were filed in the High Court, Kolkata and in different district courts in West Bengal involving this Board as a party. The cases are mainly related to the management of school, election of Managing Committees, appointment of Administrator, Ad-hoc Committee, D.D.O. etc., decision of 24 Committee, Recognition Committee, upgradation, derecognition, amalgamation, Age Correction and Review/Scrutiny of answer scripts of M.P.(SE) etc. The Board decided to contest 551 cases with the appointment of Lawyer and did not participate in 595 cases without engaging any Lawyer. Some court cases were placed under the jurisdiction of Supreme Court also.

Seminar on 'Women Education' - Past & Present.

When Hon'ble MIC Sri Kanti Biswas was delivering speech & Late Chitta Basu (MP) was one of the guest speaker at Kali Krishna girls High School, Barasat. The Institution was sat up by Pandit Iswar chandra Vidyasagar.

CHAPTER V

HIGHER SECONDARY EDUCATION IN WEST BENGAL

In West Bengal, Higher Secondary Education is imparted in Classes XI & XII in Schools, Madrasahs and Colleges. In near future, there shall be classes XI & XII in Schools and Madrasahs only and for this purpose Classes XI & XII will be withdrawn from colleges phase by phase so that there may not arise any accommodation problem to students seeking admission after passing Madhyamik. There are two type of schools in the State for Higher Secondary Education.

The Higher Secondary courses are being taught in two streams. One is called as General Stream and the other is called as Vocational Stream. There are 54 Integrated Institution and 1 Independent Institution where vocational courses are being taught. In 2927 Integrated Institutions and 19 Independent Institutions, courses are being taught in General Stream.

Directorate of School Education is the controlling authority for Schools and Madrasahs imparting Higher Secondary courses and the Directorate of Public Instruction is the controlling authority for Colleges imparting Higher Secondary courses. The Schools imparting Higher Secondary Education means it includes Higher Secondary Madrasahs also. The syllabus and curriculum of Higher Secondary Education followed by Schools and Higher Secondary Madrasahs are same as prescribed by the West Bengal Council of Higher Secondary Education.

West Bengal Council of Higher Secondary Education

As per the Act of 1975, Government of West Bengal, the West Bengal Council has been established in Kolkata with its regional offices functioning in the State till date.

The Head Office is located of Kolkata, Vidyasagar Bhavan, 9/2, Block-D1, Sector-II, Salt Lake, Kolkata.

The Regional Offices are at—

- (1) Bikash Bhavan, 2nd floor, Kolkata-91 for Kolkata Region.
- (2) Bardhaman Regional Office, B. L. Hati Road, Radhanagar, Bardhaman.
- (3) North Bengal Regional Offices in Rahul Sankrityayan Bhavan, P.O. North Bengal University.
- (4) Midnapore Regional Office, Sahid Matangini Bhavan, BE/72 Station Road, Midnapore.

The Council is constituted with the members as follows:

1. President
2. President, West Bengal Board of Secondary Education
3. Director of School Education
4. Director of Technical Education
5. Director of Industries

6. Director of Agriculture
7. Director of S.C.E.R.T.
8. Persons not exceeding eight in number are nominated by the Government of whom one is a woman interested in Education, one is a Principal of College imparting instruction in Higher Secondary Education, one is a Dean of Bidhan Chandra Krishi Viswavidyalaya and one is a Head of a Higher Secondary School.
9. Six teachers of Higher Secondary Schools having qualifications for imparting Higher Secondary Education will be elected from amongst themselves in the manner prescribed.
10. (a) Two representatives of the West Bengal Legislative Assembly are elected by the members of Assembly from amongst themselves in the manner prescribed.
 (b) One representative of the Vidyasagar University of Midnapore is elected by the members of such Court from amongst themselves in the manner prescribed.
 (c) One representative of the Court of Jadavpur University is elected by the members of such Court from amongst themselves in the manner prescribed.
 (d) One representative of the Court of Rabindra Bharati (University) is elected by the members of such Court from amongst themselves in the manner prescribed.
 (e) One representative of the Court of University of Kalyani is elected by the members of such Court from amongst themselves in the manner prescribed.
11. One representative of the Senate of University of Calcutta is elected by the members of such Senate from amongst themselves in the manner prescribed.
12. One representative of the Court of Burdwan University is elected by the members of such Court from amongst themselves in the manner prescribed.
13. One representative of the Court of North Bengal University is elected by the members of such Court from amongst themselves in the manner prescribed.
14. One person elected by the employees of the Council from amongst themselves in the manner provided by regulations.

The Council has five Committees:

- (1) Finance Committee;
- (2) Examination Committee;
- (3) Regulation Committee;
- (4) Syllabus Committee;
- (5) Equivalence Committee.

Syllabus: Council has prepared revised syllabus for +2 course which will come into force from 2005-2006 academic session.

N.S.S. target given by the Centre and State Government has already been achieved.

Journals of the Council named as Samsad Parichiti is being published monthly at a price of Rs. 10 per copy. Annual rate is Rs. 100/-. No separate circulars are sent by post to the schools but all circulars issued by the W.B.C.H.E. are published in Samsad Parichiti.

Construction Programme

- (i) A three storeyed Administrative Building for the North Bengal Regional Office has been completed and the said office has been functioning at the aforesaid building from 1999. One guest house and two officer's quarters are on the way of completion at the above premises.
- (ii) A plot of land has been allotted on lease in favour of the Council by the Chairman, Bardhaman Municipality for construction of the Bardhaman Regional Office. Subsequently, it has been observed that the quantum of land allotted by the Bardhaman Municipality is too inadequate to accommodate the area of the proposed construction of the Bardhaman Regional Office. Therefore, the matter has been taken up with Bardhaman Municipal authority so that an additional land measuring 2.5 cotta is allotted by the said Municipal authority.
- (iii) During the year 1999-2000, an in-house computerised information system has been installed at some of the departments at the Central Office of the Council and also at North Bengal Regional Office and Bardhaman Regional office of the Council with the basic objective of providing a faster and better service to the persons and institutions belong to the Educational Community. This system has been extended to Bardhaman Regional office and Kolkata Regional office.

Vocational Education

Vocational Education in West Bengal has been in effect since 1976 with the syllabus and curriculum in consonance with the National Policy documented and issued by Government of India in 1968. Courses on Medical, Engineering, Agriculture and Pharmacy have been introduced. In order to stretch the scope of Vocational Education and meet the need of the students to make their studies job oriented, special emphasis is being given and for this purpose. Departmental officers of the School Education Department and West Bengal Council of Higher Secondary Education has made some field study in Maharashtra last year. A proposal on study is being considered to reinforce the vocational education in the State linking job and marketability.

The whole syllabus and curriculum is to be strengthened further introducing new spheres of learning in the Vocational Course.

Computer Education

1. 500 Higher Secondary schools are under Computer Literacy Programme up to 2003-2004 academic session.
2. The H.S. schools under Computer Literacy Programme will get permission from the Council to impart lessons on Computer Science and modern Computer Applications as one of the elective subjects and they should apply for introduction of these two subjects.
3. Besides Computer Literacy Programme, some more schools under Vidya Bahini Project have been selected for Computer Literacy Programme.
4. WEBEL has been entrusted by the Government of West Bengal to supervise the above programme.

Number of Higher Secondary Institutions as on 2003-2004
Districtwise breakup

Sl. No.	District	Integrated Institution General Stream	Independent Institution General Stream	Vocational Institution
1.	Kolkata	242	—	2
2.	South 24-Parganas	230	2	3

CHAPTER VI

IMPORTANT ACTIVITIES OF STATE COUNCIL OF EDUCATIONAL RESEARCH & TRAINING (WEST BENGAL) DURING 2003-2004

SCERT (WB) was set up in the early 1980s for the purpose of carrying out research and training in various emerging areas of school education. Over the years, SCERT (WB) has been playing an important role in improving the quality of school education. The various activities taken up during 2003-2004 with these ends in view were:

1. School Education Committee

The Director, SCERT (WB) as the member-secretary and the research fellows and staff of the organization have extended full support to the School Education Committee, West Bengal formed under the chairmanship of Prof. Ranjugopal Mukhopadhyay. The tenure of the committee was extended for one more year after its initial term expired on 31.12.2002.

The Director and the research fellows conducted an achievement survey in several schools on behalf of the committee along with some of its members. The purpose of the survey was to gauge the level of competency attained in Bengali and English by students at the end of class IV. Question papers were set in the two languages. The survey covered 36 schools of 8 districts of West Bengal and about 1,900 students. A questionnaire was also designed to ascertain the various curricular and co-curricular inclinations of the students. The findings of the tests on the two languages and the responses to the questionnaire were tabulated, the results were analysed statistically and presented in the Supplementary Report of the Committee.

A workshop was organized on behalf of the committee during 9th to 11th June 2003 at Ballygunge Government High School to deliberate further on the recommendations of the committee on various issues like Science Teaching, Life-style Education, Vocational Education, School Complex and School Session. Teachers from different recognized teachers' associations, teacher-educators and experts participated in the workshop.

The Supplementary Report containing the recommendations of the workshop and result of the survey was submitted to the State Government on 17th March 2004.

2. National Level Achievement Survey at the end of the Upper Primary stage

SCERT (WB) in collaboration with NCERT and WBBSE conducted a National Level Achievement Survey for students at the end of class VIII on 17th and 18th May 2003. 50 schools were selected from each of four districts of West Bengal — Kolkata, Hooghly, Bardhaman and Darjeeling (Siliguri Education District). 30 students were selected from each school. Four subject areas viz. Language, Mathematics, Science and Social Science were chosen. The question papers, questionnaires and various response sheets set at the NCERT were translated into Bengali for West Bengal and Tripura and were checked by the academic staff of SCERT. The District Inspectors of Schools of the 4 selected districts conducted the test on behalf of SCERT (WB). The response sheets and the various questionnaires were collected, computerised and the results recorded on a CD. The printed data were meticulously checked by the staff of SCERT and the results have been sent to NCERT.

3A. SSA Activity

The Director being a member of the Core-Committee of SSA, took part in its meetings on project proposals.

In the General Council meeting of SSA held at Rotunda, Writers' Buildings on 20th January 2004, it was decided that:

- a) SCERT will monitor teacher training at the upper primary level.
- b) SCERT will select resource persons and deploy them to various places inside and outside the State, as is deemed necessary.

Several projects were sanctioned by SSA and these are going to be implemented by SCERT in the near future.

⇨ Valedictory Session of the Workshop on Adolescence Education.

⇨ Inaugural session of the first workshop on Education Broadcast at Upper Primary Level.

⇨ Valedictory Session of the first workshop on Education Broadcast

3B. Educational Broadcast Programme

Two workshops were organized by SCERT with financial support from PBRPSUS — one from 1st to 5th July 2003 and the other one from 29th to 1st October 2003 for “Formulation of guidelines and development of model scripts for educational broadcast suitable for upper primary classes”. Sri Kanti Biswas, Hon’ble MIC, School Education & Madrasah, inaugurated the first workshop. The two workshops covered all the subjects included in the curriculum for classes VI to VIII and were attended by teachers, teacher-educators and AIR personnel.

Another two-day workshop was held for extending this programme to primary education on 11th and 12th December 2003. The proceedings and recommendations of the three workshops are going to be published in the form of a manual.

4. Environmental Education in School System

This programme is a subcomponent of the Indian Environment Management Capacity Building Project undertaken by the Ministry of Environment & Forests, GOI and supported by World Bank. A Memorandum of Understanding was signed between the West Bengal and Union Government. SCERT (WB) was chosen as the State level implementing agency.

A sensitizing workshop was organized by Centre for Environmental Education at SCERT premises on 10th October 2003. It involved officials of the Department of School Education and other stakeholders.

One part of the programme entails training of 100 school teachers on hands-on experiments related to environmental concepts (GLOBE). SCERT (WB) has started the training in phases.

The second component of the project involves the development and printing of books on environment for classes VI to VIII.

5. National Population Education Project

The UNFPA funding for the project has been stopped w.e.f. 31.12.2002. The project has since been taken up by MHRD, Government of India under the title “Quality Improvement in School Education”. The Project Progress Review Meeting was held from 24th to 26th February 2004 at Bangalore. The Director attended the meeting and submitted the draft perspective plan for the Xth Five Year Plan.

SCERT (WB) organized a workshop on “Modification, adaptation and translation of NCERT document on Adolescence Education” from 29th to 31st March 2004 at its office premises. The workshop involved teachers, teacher-educators, language experts, psychiatrists, representatives from different NGOs, etc. A training manual in Bengali will be prepared for implementing Adolescence Education in the light of Life-style Education proposed by the School Education Committee, West Bengal.

6. Preparation of Perspective Plan for Teacher Education

The task of preparing the Perspective Plan for Teacher Education for the Xth Five Year Plan, as desired by the MHRD, Government of India, was entrusted to SCERT (WB) by the Government of West Bengal. A meeting was held at SCERT on 24th March 2004 to discuss the various aspects of the plan. The Director had prepared a preliminary report earlier after collecting relevant data from concerned organizations. Several stakeholders participated in the meeting and a work plan was chalked out. The Draft Perspective Plan will soon be finalized and submitted to the Government.

7. SCERT & DIETs

A discussion was held on 16th May 2003 at Bikash Bhavan on different aspects of operationalisation of DIETs in the State in which SCERT took an active part. A DIET committee meeting was held on 16th March 2004.

8. Workshop held at SCERT in collaboration with WBBME

The West Bengal Board of Madrasah Education organized a workshop with financial assistance from Sarva Shiksha Abhiyan from 8th to 12th April 2003 at the SCERT premises. The workshop was titled “In-service Training

of Head Teachers of Junior High and High Madrasahs on Educational Planning and Management". The Director and Fellows of SCERT took active part in the workshop.

9. Meeting of the Governing Body of SCERT (WB)

The 3rd meeting of the reconstituted Governing Body was held on 17th March 2004 at Bikash Bhavan. It met only once this year. Several important decisions were taken for the strengthening of SCERT and measures are being adopted accordingly.

10. Networking with National Level Organizations

- The Kendriya Vidyalaya Sangathan organized an orientation course (national level) on 9th April 2003, one 21-day inservice teachers' training from 7th May 2003 and one workshop on 'high achievers' on 26th May 2003. The Director delivered lectures on all the occasions.
- A National Seminar on 'Education for All' was organized by the National Institute for Educational Planning and Administration (NIEPA) in collaboration with UNESCO, New Delhi on 6th and 7th September 2003. The main objective of the Seminar was to share '**State level perspectives on EFA goals and strategies**'. It also provided an opportunity to exchange ideas on innovative approaches being adopted in different States of moving towards the goals of EFA. With this in view, special papers were prepared and presented by eight States including West Bengal. The Director prepared a document for the State and presented a paper entitled '**Decentralisation, Empowerment and Education for All — a journey towards human development in West Bengal**'. The paper highlighted the measures taken up by the State Government in various areas of school education.
- Director, SCERT attended the following national level meetings/workshop:
 - i) Departmental advisory meeting of Department of Education for Groups with Special Needs (NCERT) on 5th and 6th January 2004 at New Delhi.
 - ii) A two-day workshop on initiatives taken, problems faced and other related matters of 'multigrade teaching' at Guwahati on 27th and 28th January 2004.
 - iii) A meeting on Continuous Comprehensive Evaluation organized by NCERT on 26th March 2004 at New Delhi.
- The Director was selected member of the Eastern Region Committee (Council for Indian School Certificate Examinations) for selection of candidates for the Government of India National Award for Teachers.
- SCERT (WB) provided support in holding the interviews for National Talent Search Examination from 25th to 28th July 2003.

11. Participation of Director and Research Fellows in various Workshops and Seminars

- A seminar was organized on primary education curriculum by an NGO on 26th April 2003 at SCERT (WB). The Director and two research fellows of SCERT attended it.
- A one-day workshop was organized by Netaji Subhash Open University in collaboration with SCERT at the latter's premises on 6th May 2003. The aim was to design curriculum framework for capacity building of the Shiksha Sahayikas of Shishu Shiksha Kendras in West Bengal. The Director and research fellows of SCERT participated in the workshop.
- A workshop was held by Paschim Banga Rajya Shishu Shiksha Mission on "Intensive Induction Training of Quality Managers of SSK" on 13th May 2003. The Director attended the workshop.
- The Director attended a seminar organized by A.B.T.A. on "Problems of children entering class V" on 24th May 2003 and delivered a lecture on the subject.
- WBBPE held a workshop on "Health Education in Primary Schools of West Bengal — training of key resource persons" from 19th - 23rd January 2004. One of the research fellows participated in the programme.

- One research fellow participated as Evaluator in the National Children's Science Congress (State level) organized by Science Communicators' Forum held at Loreto Day School, Sealdah, Kolkata on 29th - 30th November 2003.
- A workshop was organized by WBBSE on "Life-style Education in Schools" during 16th - 17th February 2004. It was attended by the Director and one research fellow.
- A workshop on "Sex Education : Issues related to Gender and Mental Health" was organized at Centre for Women's Studies, Jadavpur University on 26th and 27th March 2004. It was attended by one research fellow.
- A two-day workshop was organized by SSA on 'Role and function of sub-divisional working group'. One of the research fellows attended the workshop.

12. Other Programmes

- i) The Director, SCERT (WB) being a member of the Syllabus Committee of the West Bengal Council of Higher Secondary Education took active part in several of its meetings for the formulation of new syllabus for 2004-2005.
- ii) Several meetings were held with Netaji Subhash Open University and Paschim Banga Rajya Shishu Shiksha Mission to design curriculum for the training of the Shiksha Sahayikas.

13. Recruitment of Research Fellows:

In a bid to strengthen SCERT (WB), the West Bengal Public Service Commission advertised for recruitment of 11 Research Fellows (Grade-II) vide Advt. No. 14/2003 dated 22.11.2003. This was in accordance with the Gazette Notification published in September 2002. The process has been initiated .

Important Programmes to be undertaken during 2004-2005

1. Assessment of educational needs of children belonging to SC, ST, Minorities and for children with disabilities to design suitable interventions in view of UEE.
2. Development of educational materials like text-books, teachers' guides and other class-room materials.
3. Capacity building of the Inspectors of the Schools for academic supervision. Creation and maintenance of database in collaboration with DRCs, CLRCs, VECs, etc.
4. Purchasing of slots on AIR to broadcast educational programmes developed by SCERT (WB).
5. Analysis of educational software available in the market to study the scope of computer-assisted multimedia learning at the upper primary level in West Bengal.
6. Preparation of Perspective Plan for Teacher Education in West Bengal.

CHAPTER VII

Report on Anglo-Indian Schools In West Bengal

In West Bengal there are 67 Anglo-Indian D. A. getting schools (out of which 64 are Secondary Schools and 3 are Primary Schools) at present, affiliated to I.C.S.E. which are provided grants by the School Education Department in the form of Government D.A. & Ad-hoc Bonus. Besides, there are 167 schools affiliated to I.C.S.E. Council, New Delhi as on 30.11.2003, and 60 C.B.S.E. Schools other than Kendriya Vidyalaya as on 30.12.1999. These are called listed schools. Apart from these there are 44 Kendriya Vidyalaya Schools affiliated to C.B.S.E. Delhi. In the year 2003-2004 total fund released to the 57 Anglo-Indian Schools amounts to Rs. 9,68,32,589/-. 10 such erstwhile D.A. getting schools (list enclosed) have foregone Government D.A. at present (i.e. w.e.f. March, 2003).

The State Government has also two Government Schools, one for boys and other for girls affiliated to I.C.S.E. Council, New Delhi. Victoria Boys School admits boys in Class IV while Dow Hill Girls School admits both boys and girls in Lower K.G. which is the pre-primary stage and maintains co-educational status up to Class III. In Dow Hill Girls Schools students (both Boys & Girls) are admitted in Lower K.G. Class through selection by lottery held in Kurseong. Both boys and girls in respective schools of Victoria Schools and Dow Hill Girls School are admitted in Class IV through common admission test held in Kurseong. Both the schools are residential and the medium of instruction in English. Second languages are Bengali, Hindi and Nepali in these two schools. To maintain the boarding and other establishment cost (including salaries to the staff) Rs. 2,39,32,731/- were released to these schools in the year 2003-2004.

There are four Undergraduate Teachers Training College which teach a course leading to the certification known as T.T.C. (Teachers Training Certificate) for Primary Schools. It is a 2 year course and medium of instruction is English. A Joint Committee of 9 Members headed by Director of School Education, West Bengal finalises results of T.T.C. Examination. Under the signature of Director of School Education, Dy. Director of School Education (Anglo-Indian Schools) W.B. and the Principal of the concerned Training College, certificates of the said examination are issued to successful candidates. The aforesaid Committee selects a co-ordinator to conduct the T.T.C. Exam. in each year. The co-ordinator prepares the panel of paper setters and examineers and submits the same to the Director of School Education for his approval. The State Government arranges for printing and distribution of question papers. In the T.T.C. Exam. 2003, 103 candidates appeared out of which 88 qualified.

N.O.C.:—Schools seeking affiliation to I.C.S.E. and C.B.S.E. New Delhi, have to obtain 'No Objection Certificate' from the State Government matters relating to issuance of NOC are processed in the Anglo-Indian Schools section of the School Education Directorate under the supervisor of the D.D.S.E. (AIS) W.B. The Schools seeking (NOC) must at first fulfil the primary requisites for obtaining proforma. The primary requisites are as follows:

- (1) The school must be run by a registered Trust or Society and must have duly constituted Managing Committee for the school with 2 secondary teachers in the Managing Committee. Memorandum of Association and Receipt for Registration (if not yet registered) of the society should be submitted. Powers and functions of the Managing Committee should be clearly incorporated in the Memorandum of the society.
- (2) Suitable accommodation either owned by the school or leased with clear lease agreement duly registered and with rent receipts in the name of the school for at least 20 years. School accommodation including that of Classrooms, Laboratory, Library and other rooms, and the campus area of the school should be adequate.
- (3) Suitable qualification for the head of the school at least an honours Graduate (Regular/Master's Degree holder with B.T./B.Ed. and a minimum of 5 years teaching experience in a recognised school or in a school seeking recognition for a secondary level. In the I.C.S.E. guidelines it is Graduate with B.Ed. for 10 (ten) class schools. At least 80% of the teachers must be trained.
- (4) Enrolment should not be less than 30 per class with a minimum of 100 for the school for the secondary section.

- (5) The school must have at least Rs. 60,000 in reserve fund in fixed deposit in a Nationalised Bank or in Post Office.
- (6) The pay-scales and allowance of the teachers and non-teaching staff must be commensurate with the pay-scales and allowances prescribed by the State Government for the aided schools. Those should be indicated in the appointment letters issued by the Secretary/M.C. of the school and duly received by the staff.
- (7) There should be accepted Service Rules and Leave Rules (duly accepted by the staff) for teachers and non-teaching staff, as per provision in the Code of Regulations for Anglo-Indian and other listed schools, 1993.
- (8) The school must have conducted regular audit of the school funds and submit Audited Statement of A/c. for the last year ending on 31st March, prior to the date of application.
- (9) Mother tongue of at least 50% of the students should be other than Bengali if there is not adequate facility of schooling for children of people whose mother tongue is not Bengali.
- (10) There must be adequate arrangement for Library and Laboratory.
- (11) Whether there is any and if so, how many Junior. High/H.S. Schools including I.C.S.E./C.B.S.E. affiliated Schools within a radius of 2 k.m. (4 km. in rural areas)?

How good is the academic performance of these schools (in terms of percentage of candidates successful in public examinations with reference to the number sent up).

Transfer Certificate: In case of changing of stream or inter-state transfer for studies (I.C.S.E./C.B.S.E.) the Transfer Certificates issued by the authority of Anglo-Indian and other listed schools in West Bengal in favour of the students require counter-signature of Education Officer of the State Government. This job is at present done by the District Inspector of Schools of the concerned district.

List of Schools which have foregone Government D.A.

- (1) St. James School, Kolkata.
- (2) St. Thomas Boys, Kolkata.
- (3) St. Thomas Girls School, Kolkata.
- (4) St. Paul's Mission School, Kolkata.
- (5) La-Martiniere for Boys, Kolkata.
- (6) La-Martiniere for Girls, Kolkata.
- (7) Wellaland Goldsmith School, Kolkata
- (8) St. Thomas Church School, Howrah.
- (9) St. Paul's School, Dajeeling.
- (10) St. Thomas Day School, Kolkata.

WEST BENGAL BOARD OF MADRASAH EDUCATION

Madrasah System of Education

The Madrasah system of education, as it prevails, has two distinct types. The first type is known as the Senior Madrasah Education System and the second one, as the High Madrasah Education System. It had its origin with the development of Indian history and culture. It was started with the advent of the Mohammedans during the medieval period under the Sultanate and Mughals. During that period Madrasahs were the centers of learning for all irrespective of religion, caste and creed.

This system of education had a turning point with the conquest of India by the then East India Company and subsequently with the establishment of Calcutta Madrasah in 1780 under the initiative of Lord Warren Hastings, the then Governor General of Bengal, Bihar and Orissa. As per available records the said Madrasah was established for the education of muslim students for imparting training for recruitment as Governments Servants in the revenue administration and judiciary. Subsequently so many changes and developments were introduced in Calcutta Madrasah including English Education, medical education etc.

The Madrasah system of education with the traditional and new Calcutta Madrasah system had a new turn in 1915 under the initiative of the British Government. The then Government, on the recommendations of the Mohamaddan Advisory Committee, and the suggestions from Moulana Abu Naser Md. Waheed, the then Principal Superintendent of Dacca Senior Madrasah introduced the teaching of general subjects like history, geography, English in Addition to Islamic Studies. These Madrasahs are known as the New Scheme of Madrasah or High Madrasah Education System. At the same time some madrasahs continued their old traditional pattern of Madrasah Education and these are known as Senior Madrasah under the system of Senior Madrasah Education System. Notable among them being Calcutta Madrasah (Madrasah Alia only), and FurFura Senior Madrasah in Hooghly district. Different Boards were entrusted for conducting the new High Madrasah and Senior Madrasah Examination. The Board of Islamic Intermediate and Secondary Education. University of Dacca used to conduct the High Madrasah Education and the Board of Central Madrasah was established in 1927 for conducting the examination (Alim, Fazil and M. M. as were in existence from time to time) of Senior Madrasahs spread over Bengal, Bihar and Orissa. The same situation continued up to 1947 when India was partitioned with attainment of Independence.

After the partition the main Board was shifted to Dacca and an interim Board named West Bengal Madrasah Education Board was set up in Hooghly Islamic College (now Hooghly Madrasah) with Principal of that Colleges as Ex-Officio Registrar Calcutta Madrasah was also reopened in 1949 at the initiative of Moulana Abul Kalam Azad, the then Education Minister of the Government of India, the Madrasah Board was then transferred to Calcutta Madrasah with its principal as Ex-Officio Registrar and the D. P. I., West Bengal as its President. In 1964 the Board was renamed as West Bengal Madrasah Education Board. In 1973 the Board was reconstituted with 15 members with President and Advisory Body. The post of Registrar was abolished and a Secretary was appointed for running the daily administration. A new building for the Board was constructed at 19, Haji Md. Mohsin Square, Kolkata-700 016 with an approx. expenditure of Rs. 15 lakhs. It was inaugurated by Shri Jyoti Basu, The then Chief Minister of the West Bengal on 19th May, 1992.

The Government of West Bengal has recently allotted a plot at DD-45, Salt Lake City, Kolkata, Hon'ble Chief Minister of West Bengal Sri Buddhadeb Bhattacharjee has laid the foundation of stone for the new building namely 'Maulana Abul Kalam Azad Bhavan' on 18th February, 2004.

Autonomous Board

The year 1994 was a historic day in the history of the Board when on 28th June, 1994 the Board had been given autonomous status through the passing of the West Bengal Board of Madrasah Education Act, 1994 (West Bengal Act XXXIX of 1994) in the West Bengal State Legislature. It enjoys status and privileges like other State School Education Boards/Council in West Bengal. It functions within the jurisdictions of the Act/rules and on the guidelines framed by the School Education Department, Government of West Bengal.

The Board executes its different functions with the assistance from and advice of the following committees :

- (i) Recognition Committee,
- (ii) Syllabus Committee,
- (iii) Examination Committee,
- (iv) Finance Committee,
- (v) Appeal Committee,
- (vi) Committee Constituted under Section 18 of the Act.

Major Functional areas of the Board

Educational activities:

It will be appropriate to mention that the term "Madrasah"—an arabic word, means educational institutions, schools imparting education to all irrespective of religion, caste, creed and gender—a unique example in India not only at present but coming down from the historical times since the Medieval and British India. The recognized Madrasahs under the Board do not enjoy the minority status. With the promulgation of the Constitutional principles of liberty, equality, justice, Secularism and Democracy the Madrasah Education in the State is the property of the common people—the cradle for "Education for All".

New Scheme Madrasah Education: Junior and High Madrasah

At present there are 508 recognised Madrasahs in the State of which Calcutta Madrasah and Hooghly Madrasahs are only two Government Madrasahs. The first was established in 1780 under the then East India Company and the second, in 1817 (contemporary of the Hindu School). Calcutta Madrasah was the first unitary type institution imparting education in English, Arabic, Persian and Urdu languages some relevant theological subjects relating the land revenue and judicial deptt. jobs under the Company, Medical Education and Geological Survey and it was thought to develop it as a model centre for introducing and promoting the oriental and occidental cultures. Besides these two historical Madrasahs there are at present 167 Junior High and 238 High Madrasahs which are teaching the same syllabus in general subjects as prescribed by the West Bengal Board of Secondary Education. Recently, the full marks in Geography has been made 100 in place of 50 marks. The management and service conditions of Madrasahs and Madrasah teachers are also same with those of the West Bengal Board of Secondary Education.

Here all teachers are appointed by the School Service Commission, the Department and the Directorate of School Education at the State level and the District Inspector of Schools at the district level have administrative authority to the extent authorised by the West Bengal Board of Madrasah Education Act.

An open & secular system: a large number of non-Muslim boys and girls including S.C. and S.T. students have been appearing at the High Madrasah Examination, as Regular and External candidates. The numbers are increasing year after year.

Almost all the Madrasahs are having co-educational facilities and a large number of girls are in enrolment in these Madrasahs. At present the number of girls' students has far exceeded those of the boys at the High Madrasah Examination.

The enrolments of students in Madrasahs are increasing year after year as appended below:

Number of Students	1948-1949	2002-2003
High Madrasah	1,336	1,90,710
Jr. High Madrasah	6,540	60,180

The Madrasahs, at all levels, have many, from a long time, non-Muslim teachers for general subjects. The trend is appreciable under the West Bengal School Service Commission recruitment. As a result, the Madrasahs have now the same qualified teachers in all subjects as are recruited for High and Higher Secondary Schools.

Equivalence of the Boards Certificate at the State and National levels

The students passing out of the High Madrasah Examination (which is equivalent to Madhyamik and other comparable All India Examinations) have the same privileges for admission to higher educational institutions and

professional courses and enlistment to National Talent Search Examinations and National Scholarships. The Government of India vide its letter No. O. M. No.14021/1/97-Estt.(D) dated 17th April, 1997 has recognized the equivalence the Board's Certificate with those of other Boards. The number of Madrasahs are also increasing since 1947 appended below:

	1947-1948	1977-1978	2002-2003
Junior High Madrasah	90	71	167
High Madrasah	07	92	238

Budgetary Expenditure has been increased from 5 lakhs to 125 crores. This indicates the positive policies pursued by the State Government since 1977.

Higher Secondary Madrasah

Till date the State Government has upgraded 27 existing High Madrasahs into Higher Secondary Madrasahs in different districts. The curriculum syllabus, examination etc. at this stage are under the exclusive authority of the West Bengal Council of Higher Secondary Education and this stage has many students from other communities. High Madrasahs have been upgraded to H.S. level in the current financial year. These are Shamsia High Madrasah, Darjeeling.

In all fairness it can be said that the State Government and the Board desires to keep constant vigil that each recognized Madrasah imparts technical, democratic and secular education developing patriotic and other requisite values based education. Also it should be free from dogmatism and blind fundamentalism.

Senior Madrasah Education System

Under the Board there are at present 103 Senior Madrasah also including historic Calcutta Madrasah. Their system of education has some distinct differences, along with many similarities. It has some distinct phases as the following:

(i) Primary Stage	—Classes I - V	Alim Examination equivalent to the Madhyamik Pariksha of the West Bengal Board of Secondary Education
(ii) Junior Stage	—Classes VI-VIII	
(iii) Alim Stage	—Classes IX-X	
(iv) Fazil Stage	—Classes XI-XII	
(v) Kamil Stage	—Two years	
(vi) M.M. Stage	—Two years	

Expansion of Senior Madrasahs and their students are given below:

	1947-1948	1977-1978	2002-2003	2003-2004
Senior Madrasah	02	74	103	
Number of Students				
Senior Madrasah	450			
Alim			43,050	47,350
Fazil			9,860	10,842
Kamil			3,670	4,083
M.M			600	650
			57,180	62,925

The curriculum and syllabus of stages (i) to (iii) had already been made equivalent to Primary, Middle and Madhyamik level of State Boards of education by bringing up suitable modification and changes. The Alim Final

Examination has been declared, as such, equivalent to Madhyamik Examination in the State. The curriculum syllabus and duration of stages (iv) to (vi) need some restructuring to make these equivalent to the examinations at the corresponding levels at the University & College level. There is popular demand for modernizing the education of these stages to bring equivalence and upgrade the status of these certificates and degrees. The Dr. A. R. Kidwai Committee, 2001 advised to suggest measures in this regard and these are under consideration of the State Government.

Management System

The Madrasah are managed by the Managing Committees constituted in accordance with the provisions of Management Rules framed under Bengal Board of Madrasah Education Act, 1994. The Committee is composed of the members from guardians, teaching and non-teaching staff and includes nominees from Panchayats and Education Deptt. without having 'reference to minority privilege'.

Recognition & Upgradation

The recognition & upgradation of Madrasahs are decided by the Board on strict recommendation of the Government verifying necessary records & conditions which are in force.

Role of Madrasah

The Madrasahs had played a vital role in imparting education to the educationally backward community irrespective of religion. Most of these Madrasahs have come up in remote rural areas with donations (Zakat) of the local muslim population. Most of the students in these Madrasahs are first generation learner. Had there been no Madrasah, they could not have seen the light of education. Admission of a student or appointment of a teacher in a Madrasah is open to all sections of the people of the country.

Since 1927, a large number of students after passing High Madrasah Examination conducted by Madrasah Board, have become well established in their social and professional life as doctors, engineers, teaching personnel and social activists in Government and non-Government educational institutions (colleges and schools), legal practitioners in later life. At present a good number of non-muslim students have passed High Madrasah (Class X) Examinations, conducted by this Board and at present they are prosecuting studies in Madrasahs affiliated to this Board. Madhyamik (Secondary) Pariksha and High Madrasah/Alim Examination are being treated as equivalent in West Bengal by Government orders/circulars in Central Government services also. Of late, some quality students have qualified for Joint Entrance (Engineering and Medical) Examination.

Collaboration with the UNICEF

Diseases like Polio, Tetanus Whooping Cough, Measles, Dyphtheria and Tuber Culosis are some of the very menacing and infectious diseases killing thousands of infants, would-be-mother in our country. Of late, the UNICEF and National Government are trying hard to eradicate these diseases from the community. In West Bengal the Polio menace attacked 16 infants up to March, 2003 in different districts of West Bengal. As a result the UNICEF and the Government of West Bengal launched vigorous sensitisation campaigns. But total results can not be achieved due to the existence of pockets of harder resistance mostly in the minority dominated areas. The UNICEF as such sought the assistance of the Madrasah Board to fight out the challenge. Immediately two cells (1) Polio Eradication with Prof. Sudin Chattopadhyay as Director and (2) Routine Immunisation with Prof. Md. Refatullah as Director were formed to take prompt actions in these regards. The Board under the guidance of Dr. A Sattar, Hon'ble President and Mr. G.H. Obaidur Rahaman, Secretary chalk out strategies. Altogether Districtwise officers and nearly 3796 volunteers and thousands of teachers and students from 508 Madrasahs jumped into the action with rallies, micking, CD shows, postering and display of banner since—April 2003. Altogether 40 sensitisation camps were organised with the teachers, students and community people and in collaboration with Districts Health Officers and Panchayat leaders. The effects are so remarkable that the percentage of polio coverage in the vulnerable districts like South 24 Parganas, Howrah, Malda, Murshidabad, Uttar Dinajpur has gone up to from poor 80% to above 95% and this achievement has been duly appreciated by the UNICEF and the Government of West Bengal. Needless to say that this may be treated as a historic landmark for an Academic Board to involve all on a sudden in these programmes and achieve such satisfying result towards community health.

Most of our left-out families are either very poor or not aware of health protection of mothers and the new babies—factors causing threats to the safety and security of these groups.

⇨ W.B.Board of Madrasa Education

W.B.Board of Madrasa Education ⇨

⇨ W.B.Board of Madrasa Education

On these backgrounds the West Bengal Board of Madrasah Education in consultation with the UNICEF, Kolkata has started this Immunisation programmes from 2004 in 63 Gram Panchayet centering round 90 High, Junior High, Senior madrasah and in the districts Malda, Murshidabad, Uttar and Dakshin Dinajpur, North and South 24 Parganas. The district level activities will be organized in collaboration with the related recognized madrasahs, appointed district level extension officers and female volunteers. The detail programme schedules including training of volunteers, meeting with community leaders and local Governments. The whole eradication activities will be conducted in collaboration with the Medical Officials at the district level. The Madrasah Board hopes that this programme, unlike Polio Eradication programme, will be highly successful and go to the extent of winning confidence of the people which, in turn, will solve the problems of enrolment, retention and drop at the elementary level. There is a specific R.I. cell in the Board, headed by Prof. Md. Refatullah and guided by Dr. A. Sattar, the President and G.H. Obaidur Rahaman, the Secretary of the Board. Needless to say that the Board has undertaken these social projects from humanitarian points of view and as the Board thanks that 'Health' constitutes one of the four fundamental pillars.

The Madrasah Education Committee, West Bengal

The year 2003-2004 is memorable in the history of school education in West Bengal due to the fact that the State Government was bent on reforming the entire School Education System. The School Education Committee was appointed for bringing about reforms at the general School level. There is demand for modernized and quality education at the international, national, State and institutional/madrasah levels. The State Government, to keep pace with the new trends appointed in 2001 a high powered Madrasah Education Committee with Dr. A.R. Kidwai, the Ex-Governor of West Bengal and Bihar, distinguished educationist as its Chairman to suggest to the Government the measures/reforms/changes necessary in the curriculum, syllabus, examination, management of all categories of madrasahs including Calcutta Madrasah to enhance their relevance, improve quality, make it up-to-date, democratic, scientific and secular. The Chairman with the committee members submitted a historic report on 30th September, 2002 to the State Government. It is expected that these recommendations can open new chapter in the history of Madrasah Education System.

Computer Education

The present age is characterized by explosion in knowledge, communication and technology. It has cast its shadow on every walk of life including education. True to the tune of the age the State Government has introduced Computer Literacy Programme to 18 High Madrasahs till date. The Board of Madrasah Education, accordingly, has introduced Computer Application as an additional subject in High Madrasah Examination since 2001. The first group of students appeared at this additional subject in the just concluded High Madrasah Examination in 2003. Needless to say that this computer education has been highly appreciated by the common public and the students as a whole. The Board has already issued circulars to the all Heads of all High Madrasahs to introduce computer literacy education from class VII to class XII. A new venture with the West Bengal University of Technology on Computer Education is in process.

UNICEF activities under the W.B.D.P.E.P.-Quest for Quality

The West Bengal Board of Madrasah Education has been included in the W.B.D.P.E.P. for the expansion of literacy of and universal education in the comparatively backward Muslim community. Madrasahs have a major role to play in this regard.

Programmes undertaken

- (1) Preparation of Text books on special subjects: Draft Manuscripts for Classes I and II have been submitted for publication and distribution to madrasahs.
- (2) Status study on Senior Madrasah: A comprehensive Survey Proforma has been designed to have a status study on the Senior Madrasah Education System. The study embodies questionnaire on the infrastructural, educational and other management details of a Senior Madrasah in a comprehensive manner. The Proforma is being computerized.
- (3) Advance of Rs. 10,000/- developing library system and purchase of books to each Senior Madrasahs in D.P.E.P. Districts in the State.
- (4) Release of TLM grant @ Rs. 9000/- for preparation of low or non-cost teaching aids so that the quality of teaching-learning may improve through activity mode in the classroom.
- (5) Grant of Rs. 1.25— 1.50 Lakhs towards infrastructural developments, toilet and drinking water facilities.

**Orientation Programme for Quality Improvement
Collaboration with DPEP/SSA**

IV.	6-Day In-Service Training on Gen. subjects & Pedagogy of Pry. Teachers. (DPEP)	1 No	North 24-Parganas
V.	3-Day Sensitisation Programme on Gender Equity Disability. (SSA/DPEP)	3 Nos.	North & South 24-Parganas, Nadia Murshidabad (Jr. Sr. & H.M.)
VI.	Text Books (VI-VIII) SSA	12 Nos.	Bengali, History, L.Sc. P.Sc, Geography.
VII.	Arabic (I + II) DPEP	2 Nos.	Primary Section

(i) Collaboration with WBDPEP

3-days Orientation-cum-workshops were organised with Senior Madrasah teachers from Malda, Kolkata, South 24-Parganas, Murshidabad, Nadia district. About 170 teachers on general subjects participated in the said camps. The persons deputed by the WBDPEP conducted the said training with satisfaction to all. More such camps will be organized for the remaining left out districts in the coming year.

(ii) Collaboration with S.S.A.

The inclusion of the Board within SSA is a positive development for all round development for all round development in education up to elementary level. The Board has already submitted various proposals on Formal and Non-formal areas with a view to conducting survey, preparing status report on madrasah education, preparation and printing of text books. training of the Heads of all madrasahs on educational planning management and administration, sensitization of the members of the Managing Committee of madrasahs, awareness of the members of the Board on SSA, orientation of teachers up to class VIII and enrolment drive to meet the requirement of UEE in the State.

(iii) Collaboration with West Bengal Board of Secondary Education

It seems sweeter if there is warm collaboration with other State Boards of Education. One such was with the W.B.B.S.E. in connection with the training of madrasah teachers on computer literacy programme. Madrasahs got this privilege side by side with the teachers from secondary schools.

(iv) Collaboration with SCERT, West Bengal under SOPT scheme

The WBBME also remembers with gratitude the educational assistance and expertise it received from SCERT, West Bengal. The SCERT, as in the case of other Boards, advanced some fund under SOPT, a Central Government assisted project. Already 1700 teachers from all categories of madrasahs had been oriented on quality teaching-learning, evaluation.

question setting, micro teaching, school complex, environment, value education, inclusive of gender education, demonstration, preparation of TLM etc. Side by side, training on teaching-learning and evaluation of English have been completed for some teachers. The total coverage will be done after receiving funds from the MHRD through SCERT, West Bengal. These were the rare experiences to the participating teachers who had such training experience for the first time in their whole service careers. Many distinguished educationalists graced these orientation programmes and inspired the teachers.

(v) Collaboration with Rabindra Mukta Vidyalaya

The Madrasah Board feels that it has a bigger role to play for the education of the dropout after class VIII and economically and socially backward children and adults under the innovative scheme of the Rabindra Mukta Vidyalaya. These Madrasah centers are likewise open to all irrespective of religion, caste, creed and gender. Some limited (03) centres have been started at present in some High Madrasahs. The Board desires to open more such centres in collaboration with the RMV.

(vi) Collaboration with State Council of Technical Education—Vocational Education

Present day madrasah education needs both Academic and Vocational Education due to the economic backwardness and huge unemployment within the hinterland of each madrasah. The Madrasah Board has, thus, entered into effective collaboration with the State Council of Technical Education for introducing vocational education into 20 recognised Madrasahs. The Council, in consultation with the Board, had already taken steps to conduct status survey of these Madrasahs and it is expected that this course will be started by 2004-2005. Undoubtedly, this Collaboration will help the students for self-sufficiency in life.

SANSKRIT EDUCATION

The Government of West Bengal is aware of spreading Sanskrit Education through out the State. Because of this, various Government sponsored and non-Government Sanskrit Tols (DA getting) are formed in various districts. V.S.S.P. has been formed to make better provision for development, expansion, management and control of Sanskrit Education.

There are 698 non-Government, 2 sponsored & 4 Government Sanskrit Tols with 934 Adhyapakas (Pandits) & 120 non-teaching staff excluding the staff of the Parishad. The Director of School Education, West Bengal releases grants to the authorities of Government and sponsored Sanskrit Tols directly and also releases grants to non-Government. Tols through Vangiya Sanskrit Siksha Parishad (VSSP) to incur various expenditure including payment of salary to Adhyapakas and staff. An amount of Rs. 34,48,90,07 were spent for the financial year 2001-2002. Each tol has a separate Managing Committee which supervises the Tols locally.

V.V.S.S.P. & its Responsibilities

V.S.S.P. is the main statutory body which looks after Sanskrit Education with the help of School Education Department and Directorate of School Education. An Ad-hoc Committee is formed by the State Government for one year duration comprising 10 eminent educationist under the Chairmanship of Dr. Murarimohan Vedantaditirtha with the authority to perform and discharge all powers, function and duties of the Parishad. This Committee is also empowered to prepare syllabus and curriculum to take Examination to issue certificates to qualified candidates and also to release grants (DA only) to Adhyapakas, clerks, servants, students, of the Tols and staff of the Parishad.

Subject Taught

Laghu Kaumudi, Siddhanata Kaumudi, Panini, Saraswat, harinamamrita, Kalap, Sankshipatsar, Mugdhobodh, Panini Bhasavritti, Kavya, Nyaya (Ka, Kha, Ga) Nyaya (Gha), Vedanta (Ka, Kha, Ga), Sankhya, Upanishad, Puran, Jyotish, Mimansa, Sadharan Darshan, Vaisnav Darshan, Veda, Paurohitya, Smriti (Ka, Kha, Ga), Pali (Suttapaitak Binaypitak, Abhidhanuapitak).

CHAPTER VIII

PHYSICAL EDUCATION

Physical Education, Games and Sports plays an important role of the Educational Process. It is not a frill or an ornament tacked on to the School Education Programme as a means of keeping students busy. It is instead a vital part of the total education. Through a well directed and organised Physical Education Programme, young people develop skills from the worthy use of leisure time and holistic development of personality. Engagement in activities, conducive to healthful living develop socially and contribute to their physical and mental health.

For the above mentioned purpose every year schools are provided with funds for sports equipments, Gymnasium and holding coaching camp for school students and conducting Central Refresher Course for Physical Education Teachers. Funds are also provided for holding sports and games activities for school students throughout the year. Most of the activities for holding sports and games and coaching camps in districts are organised through different "DISTRICT SCHOOL SPORTS ASSOCIATIONS (D.S.S.A.)" under active supervision of their mother organisation, "WEST BENGAL SCHOOLS SPORTS ASSOCIATION (W.B.S.S.A.)", who takes the lion's share of these responsibilities on behalf of School Education Department. Of course, all the activities are done through the Physical Education Section of the School Education Directorate.

The District Officer for Physical Education and Youth Welfare (W.B.E.S.) supervises the activities of the District Schools Sports Association, Sub-Divisional and Zonal School Sports Association. The D.O.P.E. and Y.W. acts as the Liaison Officer between the local administration and different Associations. The D.O.P.E. and Y.W. is the Ex-Officio Vice-President of the District Schools Sports Association, member of the Siksha, Sasthya-O-Krishi Stahayee Samitee of the Zilla Parishad and Ex-Officio Secretary of the District Youth Welfare Council.

In addition to normal assignments the District Officer of Physical Education also act as the Liaison Officer between Block and District Level Organisations for the promotion of School Sports and Physical Education.

In the year 2003-2004, One hundred (100) Assistant Teachers in Physical Education took part in the Central Refresher Course and the said course has been successfully completed. The disciplines of the said Course were Athletics, Kho-Kho, Kabaddi, Yogasans and Gymnastics.

This year the State School team had participated in 18 disciplines in the National School Games Competitions under the aegis of "SCHOOL GAMES FEDERATION OF INDIA (S.G.F.I.)". Out of which Three National School Games were held in this State. These were Athletics, Gymnastics and Yogasans (all age groups Boys and Girls). List of participants in various Age Groups both Boys and Girls of Zonal level in different districts during the year 2003-2004 is marked at Annexure 'Y' and detailed Result of the State and National School Games Competition during 2003-2004 is appended at Annexure 'Z'.

In order to promote Football and Hockey in the Schools all the participating schools of the State Level Tournaments of the Dr. B. C. ROY MEMORIAL CUP in Football (leading to Subrata Mukherjee Cup) and Junior Nehru Hockey have been provided special grant. With a view to encourage participation in indigenous games the champion and runners-up schools of other tournaments are extended financial assistance under "Incentive Scheme".

From 2001-2002 academic year the State's only Government Sports School under the title of "Dr. B. R. Ambedkar Sports School has started functioning temporarily at Banipur Education Complex, Banipur in North 24-Parganas with 30 students in Class-V (15 Boys and 15 Girls). In 2002-2003 academic year the said sports school has been set up there permanently by issuing a Gazette-Notification bearing No. 34-SE (Social), dt. 05.06.2002 published in the Kolkata Gazette. At present the total number of students of the said sports school is 113 in Class-V, VI, VII & VIII and the students are at present trained there in Athletics, Gymnastics and Archery. This is a fully residential sports school. The State Government bears all the financial liability and other responsibilities of the said sports school. In the State and National Level Games at the open and school meet the students of the said school got satisfactory result in Athletics, Archery and Yogasana in the year 2003-2004. A detailed result sheet is enclosed herewith in Annexure 'X'.

In Primary Level, this department also provide fund for purchase of sports equipments and for physical education activities in Primary/Junior Basic Schools of all Districts. To encourage the primary school children in games and sports, every year a District and State Level Annual Primary Sports Meet is held in our State. This year the 21st Sports Meet was held at Cooch Behar Stadium in the district of Cooch Behar.

ANNEXURE Y

List of Number of Participants in Different Disciplines, throughout the year in different Age Groups, both Boys and Girls from Zonal Level in different Districts of the State during 2003-2004

CHAPTER IX

RABINDRA MUKTA VIDYALAYA WEST BENGAL

Address : Bikash Bhavan, East Block, 2nd Floor, Bidhannagar, Kolkata-700 091
Phone No.: (033) 2358-7102 (Chairman)
(033) 2359-7711 (Director)
(033) 2321-3261 (Office)
Fax No. : (033) 2359-7711
E-mail : websos@vsnl.net

Formal education at the school level has been vastly expanded in West Bengal with the aim of ensuring 'education for all'. The process is still continuing. Yet there are many people in our society who could not avail themselves of this opportunity at their proper age—and cannot do so even now—because of socio-economic and various other hurdles. It is the urge to reach education to this section of men and women of different age groups that made the State Government appreciate the need for open learning system and set up the State Open School as a wing of the School Education Department in 1997. In 1998, it was named Rabindra Mukta Vidyalaya (RMV) which subsequently became a Statutory Organisation with effect from 1st August, 2001 on the basis of Rabindra Mukta Vidyalaya Act, 2001, passed by the West Bengal State Legislature.

RMV imparts open learning through self-study materials and personal contact programmes. More flexible and less rigid rules and procedures have been formulated taking into account the special need and circumstances of the target group of learners. RMV is conducting study, examination and certification at the Secondary (Class X) and Higher Secondary (Class XII) levels, and contemplating further diversification and expansion of programmes. RMV has taken up Upper Primary Programme for out-of-school children in the age group of 9+ to 13+ jointly with Paschim Banga Rajya Prarambhik Siksha Unnayan Sanstha this year.

The study centres of RMV are located mostly in Government aided Primary, Upper Primary, Secondary, Higher Secondary schools and Madrasahs spread over all the districts of West Bengal. For secondary and higher secondary education some of the study centres are N.G.O.s, a few of which cater to the needs of physically and mentally handicapped learners.

The activities of Rabindra Mukta Vidyalaya have been further consolidated and expanded in 2003-2004. The number of study centres for Madhyamik rose from 106 to 125 and for Higher Secondary from 32 to 44.

There has been a marked increase in the number of enrolment of learners both for Madhyamik and Higher Secondary Courses in 2003-2004. In this year 15328 learners have registered themselves for the Madhyamik Course as against 7995 learners registered in 2002-2003. For Higher Secondary Course 1242 learners have been registered in 2003-2004 as against 848 in the previous year.

The West Bengal Council of Higher Secondary Education has declared learners passing Madhyamik Examination from Rabindra Mukta Vidyalaya eligible for admission into the affiliated schools and colleges of the Council. The H.S. pass outs of RMV have been declared eligible for admission to Graduate courses under the University of Calcutta.

Rabindra Mukta Vidyalaya has become a member of the Council of Boards of School Education in India (COBSE).

Equivalence of Certificates issued by Rabindra Mukta Vidyalaya

Madhyamik (Secondary) and Uchcha Madhyamik (Higher Secondary) certificates awarded by Rabindra Mukta Vidyalaya, West Bengal to successful candidates who have cleared the compulsory subjects in the examination similar to those in the Madhyamik Examination under West Bengal Board of Secondary Education and cleared the compulsory and minimum number of Elective subjects as stipulated for the Higher Secondary Examination under West Bengal Council of Higher Secondary Education respectively have been recognised by the Government of West Bengal by Government order No. 742-SE (Apptt) dated, Kolkata, the 31st July, 2002.

Target Groups

Rabindra Mukta Vidyalaya is open to all. But neo-literates, school drop-outs, unemployed and self-employed young men and women, whole-time or part-time workers in different establishments, peasants, elderly people, the handicapped and other weaker sections of the society are the main target groups of Rabindra Mukta Vidyalaya.

Upper Primary Programme

With a view to providing educational facilities to the children in the age group of 9+ to 13+ who don't normally accommodate themselves in the formal system or who are confirmed drop-outs, RMV has undertaken Upper Primary Programme jointly with Paschim Banga Rajya Prarambhik Siksha Unnayan Sanstha (PBRPSUS) this year.

The programme will be conducted through accredited study centres where classes will be held at least four days a week.

Role of RMV in the programme

- (1) Developing study materials for Classes VI, VII and VIII and sending these to the DPOs of the districts for printing and distribution to the study centres.
- (2) Accreditation of upper primary study centres on the basis of the proposals sent by the DPOs of the districts.
- (3) Preparation of evaluation sheet and printing of the same for all the children of Class VIII and model evaluation sheet for other classes.
- (4) Conducting evaluation in collaboration with District Resource Group (OBE) at the end of Class VIII and issuing certificates to successful learners.
- (5) Conducting the training of Key Resource Persons at the state level.
- (6) Visiting the training programme at the district level and visiting the study centres.
- (7) Monitoring and supervision of district and study centre activities.

RMV has developed study materials of Bengali, Science and Mathematics for Class VI, and of Bengali and Mathematics for Class VII. The study materials have been sent to the districts. RMV has already given accreditation to 185 study centres.

A small space has been provided by the Government of West Bengal and an SSA unit has been opened there after renovation.

Courses offered in Secondary Level

A wide range of subjects—(1) Bengali (two papers in Bengali have been introduced from June, 2003 admission), (2) English, (3) Mathematics, (4) Physical Science, (5) Life Science, (6) History, (7) Geography, (8) Political Science, (9) Economics, (10) Home Science and (11) Commerce are at present being offered to give learners sufficient choice. A learner is free to choose as many subjects as he/she desires to learn—may be one or all of the listed subjects. But if a learner desires equivalence he/she will have to clear all the subjects stipulated compulsory by the West Bengal Board of Secondary Education.

Courses offered in Higher Secondary Level

Higher Secondary Course in the following subjects has been introduced from August, 2001—(1) Bengali, (2) English, (3) History, (4) Commercial Geography, (5) Political Science, (6) Education, (7) Accountancy, (8) Business Organisation and Management. A learner is free to offer any number of subjects according to his/her choice, but if a learner desires equivalence he/she will have to clear the compulsory and minimum number of Elective Subjects as stipulated for the Higher Secondary Examination under West Bengal Council of Higher Secondary Education.

Transfer of Credit

The system for Transfer of Credit for Secondary Education has been introduced from the December admission session, 2003. Credits of a maximum of four subjects may be transferred from West Bengal Board of Secondary Education, Tripura Board of Secondary Education, NIOS, and other State Open Schools and credits of a maximum

of three subjects may be transferred from other State and Central Boards. For transfer of credit in a subject a learner is required to secure not less than 34% of marks in that subject.

For a learner of RMV who could not pass in all the subjects in five years, the credits of all the subjects in which they obtained pass marks will be transferred if she/he takes readmission.

Study Materials and Learning Assistance

Study Materials specially designed for self-learning have been prepared by subject experts and experienced teachers. Students get the Study Materials of the subjects offered by them free of cost through their Study Centres immediately after registration. Study Centres engage qualified teaching staff with the approval of Rabindra Mukta Vidyalaya who render assistance through personal contact programme (PCP). Teaching sessions are conducted on days and time to suit the convenience of the learners of the locality.

Examination

(MADHYAMIK) Examinations are held twice a year—once in June and the other in December. A learner is to take his/her first Madhyamik Examination on completion of at least one year after registration. He/She need not appear in all his/her subjects at a time and can avail himself/herself of a maximum of nine chances at an interval of six months within five years to complete the course. Credits are stored till certification criteria are fulfilled. Of course a student can sit for the examinations in all the subjects after one year i.e. a learner may pass the Madhyamik Examination one year after his/her admission.

(HIGHER SECONDARY) Examination is scheduled to be held once in a year. A learner can sit for the examination with a maximum of three subjects on completion of at least one year after registration and he/she can avail himself/herself of a maximum of five chances at an interval of one year within five years to complete the course. Certificates will be issued to the students passing with two language subjects and three optional subjects.

A list of Secondary and Higher Secondary Study Centres enjoying recognition is given below:

Sl. No.	District	Name and Address
*1.	Cooch Behar	Gosair Hat Uchcha Vidyalaya, Gosair Hat Bandar, PIN 736 172
*2.	Jalpaiguri	McWilliam Higher Secondary School, P.O. Alipurduar Court, PIN 736 122
*3.	Jalpaiguri	Caesar School, Mal, P.O. Mal, PIN 736 221
4.	Jalpaiguri	Jalpaiguri Meherunnisa Uchcha Vidyalaya, P.O. Jalpaiguri
*5.	Darjeeling	Jyotsnamoyee Girls' High School, P.O. Siliguri, PIN 734 404
*6.	Dakshin Dinajpur	Teor Krishnastami High School, P.O. Teor, PIN 733 145
*7.	Uttar Dinajpur	Raiganj Coronation High School, P.O. Raiganj, PIN 733 134
8.	Dakshin Dinajpur	Noorpur High Madrasah, Vill. Noorpur, P.O. Aminpur, PIN 733 132
9.	Dakshin Dinajpur	'ASHA' Paschimbanga Bijan Mancha, Gangarampur Zonal Office, Gangarampur, PIN 733 124
*10.	Malda	Malda Town High School (H.S.), P.O. Malda, PIN 732 101
*11.	Murshidabad	Brahma Vidyanubarti Sangha, P.O. & Village Gangedda, PIN 742 137
12.	Murshidabad	Rasora Ambika Uchcha Vidyalaya, P.O. Rasora, PIN 742 139
*13.	Murshidabad	Padmanavapur High Madrasah, P.O. Padmanavapur, P.S. Hariharpara, PIN 742 166
14.	Murshidabad	Kusabaria High School, Vill. & P.O. Kusabaria, P.S. Domkal, PIN 742 303
*15.	Murshidabad	Nazirpur Esserpara High School, Vill. Nazirpur, P.O. Islampur, PIN 742 304
*16.	Murshidabad	Minerva Educational and Welfare Society, Sadikhardiar, Jalangi, PIN 742 305
17.	Murshidabad	Boalia Health Care Association, Vill. Boalia, P.O. Baghdanga, PIN 742 138
*18.	Murshidabad	Panchgram High School, P.O. Panchgram, PIN 742 184
19.	Murshidabad	Singer High School, P.O. Singer, Nabagram, PIN 742 184
20.	Murshidabad	Prabharani Educational & Charitable Social Trust, 2. Banjetia, P.O. Kashimbazar Raj, Berhampur, PIN 742 101

Sl. No.	District	Name and Address
21.	Murshidabad	Jangipur Muniria High Madrasah, P.O. Jangipur
22.	Murshidabad	Bartanabad Educational & Social Welfare Society, Vill. Bartanabad, P.O.-P.T. Rasulpur, P.S. Domkal

**Indicates only Higher Secondary.

ACTIVITIES AND ACHIEVEMENTS

District Conventions

To take the message of Rabindra Mukta Vidyalaya to all corners of the state and achieve a planned and balanced growth the Vidyalaya organises, district conventions involving Zilla Parishads, D.I. of Schools and Teachers' Organisations. In 2003-2004 four such conventions were held at Dhupguri, Siliguri, Balurghat and Malda. All were largely attended by eminent educationists, representatives of Panchayats and teachers of surrounding schools and colleges who felt the need for working together to expand the field of RMV.

SUCCESS OF A TOTO LADY: A LANDMARK

SUCHONA TOTO is the first lady in her community in India to qualify in the Secondary Examination and that was from Rabindra Mukta Vidyalaya in June, 2003. While narrating the events of her struggling life in the convention at Dhupguri she became emotional to express that her dream would have remained unfulfilled if she failed to take the help of RMV, a unique system for the people of her class. This is a landmark in the sense that Rabindra Mukta Vidyalaya is in the right direction to achieve its goal.

In the said convention Suchona Toto was offered a cash reward by the Chairman of Rabindra Mukta Vidyalaya in recognition of her zeal for education.

Workshops

Out of funds sanctioned by NIOS the Vidyalaya organised two workshops on Development of Study Materials mainly for Higher Secondary Science courses. The first workshop, held in August, 2003 for two days was attended by eminent educationists, writers and members of the syllabus committees. The main objective was to formulate the principles and guidelines for preparing study materials in open learning system of education, to finalise the syllabi of different subjects and to allot chapters to different writers. In the second workshop, held in March, 2004 the writers exchanged their views over the prepared materials to give them a final shape after necessary changes. The two workshops created a new dimension in the most difficult and important matter of writing study materials in the open system of education in school level, which is in experimental stage with no clear methodology developed as yet.

Vocational courses

In order to introduce need-based, purposeful vocational courses the Vidyalaya has planned to conduct a survey in some selected regions of the State. Preparatory to this the following steps have been taken to study the experiences of others and to prepare a survey design.

- (i) A meeting was held with the representatives of different organisations/departments working in this field.
- (ii) Suggestions were invited from interested people and organisations through newspapers.
- (iii) A discussion was held with a team of experts having experiences in conducting field survey.
- (iv) A workshop was conducted to formulate a workplan/questionnaire for collecting data through study centres.

Meeting with the delegates from Bangladesh

A team of nine delegates including two ladies, led by Md. Ansaruzzaman, Professor and Dean of Bangladesh Open University and accompanied by the officials of NIOS came to visit RMV on 18.07.03. Some senior people attached to NGOs working in the field of education at Bangladesh were also in the team. After giving them a cordial reception the authorities of Rabindra Mukta Vidyalaya sat with them in a meeting where views were exchanged at length on the present systems followed by the B.O.U. and RMV and future plans to meet the expanding need. The delegates were happy to receive the study materials, published by RMV and to see the video cassettes of a television programme on open education in school level, participated by Sri Kanti Biswas, Hon'ble Minister of Education (Primary, Secondary and Madrasah), Government of West Bengal, Prof. Ranjugopal Mukhopadhyay, Chairman, RMV and Dr. Prasanta Kumar Bhaumik, Director, RMV. The Vidyalaya has accepted invitation of Prof. Ansaruzzaman to visit their University.

Enrolment

Number of learners registered up to December, 2003 in the Madhyamik Course : 36,185

Number of learners registered up to August, 2003 in the Higher Secondary Course : 2,522

Results of Examinations**Madhyamik Examination**

To examinations were held—one in June, 2003 and the other in December, 2003.

The results of the examinations are given below:

TABLE 1

	Date of commencement	Date of completion	Date of publication of result
June, 2003 Examination	June 10, 2003	June 21, 2003	August 14, 2003
December, 2003 Examination	December 9, 2003	December 20, 2003	February 19, 2004

TABLE 2

Future Programmes envisaged

- (i) Introduction of Vocational courses on the basis of need survey which is being conducted.
- (ii) Introduction of Economics, Physics, Chemistry, Mathematics and biology at the Higher Secondary level.
- (iii) Conducting survey to identify areas that need open schooling.
- (iv) Studying the desirability and feasibility of using modern information and communication technology for helping the learners.
- (v) Undertaking research activities and setting up a library.
- (vi) Organising seminars/workshops for the orientation of teachers and learning assistants.
- (vii) Keeping track of pass-outs in academic and work-place.
- (viii) Bringing the out-of-school children of the age group 9+ to 13+ in the Upper Primary Programme.

National Foundation for Teachers Welfare (N.F.T.W.)

The N.F.T.W. was set up in 1962 under the Charitable Endowments Act 1890. The main object of the scheme is to provide relief to teachers and their dependents who may be in indigent circumstances. A General Committee has been set up under the Chairmanship of the Union Education Minister for the management and administration of the Foundation.

Funds of the Foundation are made up of the contributions paid by the Union and State Government and the collections made by the States/Union Territories. A campaign for the collection of funds is generally initiated by the States/Union Territories on the occasion of the Teacher's Day which is celebrated on the 5th September every year. The collection is done purely on a voluntary basis.

The funds of the Foundation are operated from the New Delhi Branch of the State Bank of India.

The State Government have been a rised to start the programme of assistance under the scheme of the Foundation with effect from September 5, 1964—Teacher's Day. Eighty per cent of the collection made in any State/Union Territory can be utilised in giving assistances to teachers in the State/Union Territory and only twenty perr cent are to be transferred to the corpus.

In 2003, the particulars of State Awardees paid to the teachers are abridged below:

State Awardees—2003.

Primary 6 and Secondary 9 Teachers.

Total 15 Teachers.

Rs. 7,000/- (Rs. 7,000/- x 15 Teachers) = Rs. 1,05,000/-

"SIKSHA DARPAN"

'Siksha Darpan', the only Government journal on Education of the State aspires to create a space for Educationists, Students, Teachers, intellectuals and all concerned to exchange reviews, information and approaches on Education. The writers of repute like Pabitra Sarkar, Sukumari Bhattacharya, Amiya Kumar Bagchi, Paresh Ch. Mazumder, Ramkrishna Bhattacharya, Sankho Ghosh, Asoke Mitra, Satyendra Nath Ray, Somendra Nath Bandhopadhyay, Kanti Biswas, Amitava Bhattacharya, Dipendu Chakraborty and others are regularly contributing articles on reviews in Siksha Darpan. It has been accepted by the people with appreciation. Related to International news on Education are also published here. Educational profiles of districts are a special feature of the journal.

WEST BENGAL SCHOOL SERVICE COMMISSION

(A Brief Report of 2003-2004)

The Act

The West Bengal School Service Commission Act, 1997 (West Bengal Act IV of 1997) was enacted vide notification No. 936-L dated 1.4.97 and came into being with effect from 1.11.97 for the purpose of recruitment of teachers including Headmasters/Headmistress/Superintendents of Senior Madrasahs in recognised Non-Government Aided schools including Madrasahs in West Bengal.

The State Government under the Act appointed and constituted (a) a Central Commission by the name of the West Bengal Central School Service Commission; and

(b) Regional Commission by the name of West Bengal Regional School Service Commission in respect of regions with territorial jurisdiction.

- | | | |
|----------------------------|---|---|
| (i) Eastern Region | : | with the Districts of Burdwan, Birbhum, Hooghly. |
| (ii) Southern Region | : | with the Districts of Kolkata, South 24-Parganas, Howrah. |
| (iii) South-Eastern Region | : | with the Districts of Nadia, North 24-Parganas. |
| (iv) Western Region | : | with the Districts of Purba Medinipur, Paschim Medinipur, Bankura, Purulia. |
| (v) Northern Region | : | with the Districts of Coochbehar, Jalpaiguri, Siliguri (Non-DGHC area of Darjeeling), Dakshin & Uttar Dinajpur, Malda, Murshidabad. |
| (vi) Hill Region | : | DGHC areas of Darjeeling District. |

The Regional Commission under the Act consists of five members, one of whom shall be the Chairman. The office of the Chairman is whole time, the other members being honorary both for the Regional Commission and Central Commission. The Central Commission has senior members including the Chairman.

Functions

The duty of the Regional Commission is to select persons for appointment to the posts of teachers in schools within its territorial jurisdiction. A teacher under the Act means an Assistant Teacher or any other person, holding a teaching post of a school and recognised as such by the Board of Secondary Education or the Higher Secondary Council or the Board of Madrasah Education, as the case may be and includes the Headmaster or the Headmistress but shall not include the Assistant Headmaster or the Assistant Headmistress or the teacher holding a post against short term vacancy caused by deputation, leave or lien.

The Act is not applicable to a School established and administered by minority whether based on religion or language or a school under any Trust established and administered by minority whether based on religion or language or a school not in receipt of any financial assistance from the State Government or a school in receipt of a financial assistance from the State Government towards dearness allowance only or teachers of such school or a Government School.

The manner and scope of selection of persons for appointment to the posts of Teachers shall be such as may be prescribed. The Central Commission shall monitor, supervise, control and co-ordinate the activities of the Regional Commissions which shall be subordinate to the Central Commission.

Regional Level Selection Test

The first Regional Level Selection Test for selection of Asstt. Teachers was held on 10.5.98 followed by the 2nd RLST 1999 held on 26.3.2000, the 3rd RLST 2001, on 14.10.2001 and on 29.12.2001 (for Eastern Region only) and the Fourth RLST 2002 held on 16.3.03. Advertisement for the 5th RLST has been issued on 1.3.2004 for holding the Test on 18.7.2004.

DIAGRAM - 1

Number of applicants for RLST '98, RLST '99, RLST 2001 and RLST 2002

Qualifying marks in the RLST for Asstt. Teacher

For Assistant Teachers a written test on the subject (Paper I) is held out of 40 marks and a test on general awareness etc. (Paper II) is held out of 20 marks while the academic score is counted out of 30 marks as prescribed. Qualifying marks for General, OBC and PH Category candidates is 40% in Paper I which is pre-condition for evaluation of the answer scripts in Paper II. Qualifying marks in Paper I, and in respect of SC/ST candidates the same have been waived for the 5th RLST scheduled to be held on 18.7.2004 (Advertisement issued on 1.3.2004). The Commission decided that while the qualifying marks in Paper I is 40% relaxation may be given regionwise, Subjectwise and categorywise.

Table - 1

Selection Procedure for Asstt. Teachers

Academic		30 marks
Written Test	Paper I	40 marks
	Paper II	20 marks
Personality Test		10 marks
Total:		100 marks

Written Test for selection of Headmaster/Headmistress etc. has been waived and the criteria for selection has been determined as follows:

Table - 2

Selection for the post of Headmaster/Headmistress/Superintendents of Sr. Madrasah

Academic and Professional		30 marks
Higher Qualifications		3 marks
Experience in Teaching		7 marks
(Up to 10 years	Nil	
Above 10 years but up to 15 years	3 marks	
Above 15 years but below 20 years	2 marks	
20 years & above	2 marks)	
Personality Test		10 marks
Total:		50 marks

Applications for Headmaster/Headmistress etc. must satisfy the following requirements:

- (a) 45% marks in Secondary & Higher Secondary level;
- (b) 40% marks in Hons. level or 45% marks at Pass level without Hons;
- (c) 40% marks in Post-Graduate level;
- (d) Bachelor of Education.

The RLST 2002 for assistant teachers was held on 16.3.2003 throughout the State and the number of centres of Test were as follows:

Table - 3

Region	No. of Centres	
	RLST 2001	RLST 2002
Northern	88	87
Western	101	93
Southern	82	83
Eastern	147	141
	418	404

The following vacancies have been reported regionwise for recommendation relating to RLST 2001 and RLST 2002 for Assistant Teachers.

Table - 4

Region	No. of Vacancies received		Recommendations made	
	2001	2002	2001	2002
Southern	2338	2583	2477	2196
Northern	2168	2215	1913	1777
Eastern	4617	3454	4651	2486
Western	2648	2421	2807	2291

The vacancies in different subjects include male, female, SC, ST, OBC & PH categories in Schools and Madrasahs with Bengali, Hindi, Oriya, Telegu, Urdu, Nepali mediums etc. As per provision of regulations qualified candidates to the tune of 2.5 times of the vacancies are called for Personality Test (10 marks) and 1.5 times of the vacancies are considered for preparation of panel. Panels are prepared subjectwise, mediumwise, sexwise, categorywise for Higher Secondary/Secondary Schools and Madrasahs. A panel remains valid for one year and, in special circumstance, the validity is extended for one year up to a maximum period of three years.

Subject identification and advertisement of vacancies

The Commission at the outset identifies the subjects Regionwise, categorywise and sexwise for advertisement. Candidates belonging to Reserve categories viz. SC, ST, OBC, PH both male and female are eligible to apply against general categories and are considered on merit besides consideration against particular category if vacancy exists. The number of vacancies available categorywise and sexwise are advertised at the time of publication of result for Personality Test i.e. 2.5 times of the vacancy on the basis of Academic Score Paper I & Paper II and for preparation of panel 1.5 times of vacancies are considered on the basis of Academic Score, Paper I, Paper II & Personality Test.

Further recommendations on the basis of RLST-2002 for Asstt. Teachers are in progress.

Hill region recommended 36 candidates against RLST-1999 but they could not be appointed because of opposition of DGHC. Being single cadre vacancy no separate SC/ST figures maintained for Headmaster/Headmistress/Superintendent etc.

Recommendation for RLST - 2003 (H.M.) is also in progress.

Court Cases

Several court cases particularly writ petitions under Article 226 have been brought against the Commission. 1172 cases have been instituted against the Commission out of which 323 cases have been disposed of till March, 2003.

Table - 9
Court Cases

Region	Disposed of	Pending Total No.of cases
Northern	54	186
Southern	176	213
Eastern	44	248
Western	49	202
	323	849

Panels of Lawyers (both Senior and Junior) have been prepared. Each Region has been allotted at least 2 Lawyers. A Lawyer-in-charge has been engaged to coordinate. Thus, arrangement has been made to cope with the volume of cases.

Meetings

The Commission periodically held its meeting to transact business as per agenda and to frame rules, procedure etc. as per Table 10. The Regional Commissions are advised from time to time for smooth functioning of the Commission and in larger public interest. An interactive meeting was held with the MIC, School Education Department on 23.12.2003 with Chairman, Central Commission and Chairpersons of all Regions on policy issues.

Accommodation

The Central Commission is housed in ATI Complex, Block FC, Sector-III, Salt Lake, Kolkata-700 106 while the Regional Commissions are located as in Table 11.

All the office premises are hired on rental basis and the accommodation is too inadequate to cope with the volume of work.

Possession of 8.77 cottahs of land has been taken by the Central School Service Commission at Block EE, Plot No. 11 & 11/1, EE Block, Salt Lake for construction of a four storeyed building with probable cost of Rs. 1 crore for which necessary provision in the budget has been made.

A Building Committee has been constituted. The Building Committee met on 14 occasions to consider and decide vital issues relating to construction.

The foundation stone for the building of the Commission 'Acharya Sadan' was laid down by the Hon'ble M.I.C. School Education Deptt. on 3.6.2003. The construction of the building started with effect from 23.6.2003 and the work is nearing completion. It is expected that the building "Acharya Sadan" will be inaugurated sometime in July 2004.

The Western Region has shifted its office from the present premises to the District Primary Council Building on rental basis in the campus of District Megistrate, Bankura. Under an arrangement between the Regional Commission Western Region and the District Primary Council, Bankura the old building of the Primary Council, Bankura was handed over to the Western Region and the building has been named as 'Acharya Bhavan' which was inaugurated by the Hon'ble M.I.C., School Education.

Typist—1
Record Supplier—1
Orderly Peon—2
Peon-cum-Guard—3

In the absence of necessary recruitment rules and in view of ban on recruitment, the Central Commission and Regional Commission have to get the work done by appointing retired Government personnel as per rules. A draft of West Bengal School Service Commission (Recruitment, Terms and Condition of Service of Employees) Regulations, 2002 had been approved by the Government Notification in this regard is under process. A revised proposal restricting the personnel strength for better functioning of the Commission has been submitted to the Government. Necessary sanction is awaited.

Publications

The Central School Service Commission published a book on Compendium of Ordinance, Act, Rules, Procedure, Regulations and Government orders. The book was released on 12.3.2004 by Mr. Kanti Biswas, Hon'ble Minister-in-charge of School Education.

Workshop

A Workshop on Role of Bank for selling of Brochures with application form for Assistant Teachers and Submission of form duly filled in by the applicants was organised which was participated by the Deputy General Manager and Regional Managers of Allahabad Bank and the Chairpersons of the Regional Commission on 12.3.2004

Use of Computer

The Central Commission conducts RLST through Regional Commissions and necessary data processing, pre & post examination works are being done by hiring Computer Agencies. The Central Commission has no Computer system of its own. In order to tackle the volume with quality the need for own house Computer needs no emphasis. This aspect deserves attention and as such steps are being taken to make necessary provision for the purpose while planning for building and restructuring of the personnel is made. This initial requirement deserves scrutiny for which Dr. Manab Sengupta, Secretary, Faculty of Science and Technology, University of Calcutta was requested for a visit and favour the Commission with a report stating the minimum cost. Dr. Sengupta visited and discussed the issues. The report is awaited.

Eastern Region	1 Computer
South Eastern Region	No

Amendment to the Act

The West Bengal School Service Commission (Second Amendment) Act, 2001 was published on January 25, 2002 in the Extraordinary Gazette:

Section 2(P)

Section 2(P) of the Act after amendment reads as follows : "Teacher" means an Assistant Teacher or any other person, holding a teaching post of a School and recognised as such by the Board or the Council or the Board of Madrasah as the case may be, and includes the Headmaster or the Headmistress, but shall not include the Assistant Headmaster or the Assistant Headmistress or the Teacher holding a post against short term vacancy caused by deputation, leave or lien.

Amendment to Procedure

Degree with vocational courses satisfying requisites in school subjects are eligible with the withdrawal of embargo vide notification No. 186-SE(S) dt. 3.2.2004.

Section 9A

Section 9A has been included under the Act to read as follows:

Power of State Government to stop financial assistance to school for wilful failure to issue appointment to the post of Teacher

If the State Government is of the opinion that the Managing Committee, by whatever name called, or the ad-hoc Committee, or the Administrator, if any (where there is no Managing Committee), of a school wilfully fails to discharge its function to issue appointment letter to the post of Teacher in such school on the recommendation of the Regional Commission having jurisdiction, it may, by order, and for reasons to be recorded in writing, stop all financial assistance to such school and also issue of a direction upon the West Bengal Board of Secondary Education or the West Bengal Council of Higher Secondary Education or the West Bengal Board of Madrasah Education, as the case may be, to withdraw recognition of such school.

Participation of experienced college and University teachers and experts

Services of Teachers of different Universities and Colleges affiliate thereto are gainfully utilised along with the services of experts of important institutions in the matter of framing, developing and revisions of syllabi in different subjects. Besides, their participation in the whole examination process particularly in paper setting, moderation, invigilation, supervision, evaluation and attending Personality Test Boards deserves appreciation. The period of their participation in serving in Commission is required to be deemed to be on duty. This aspect holds good in respect of the members of the Commission who are not whole timers. The matter has been taken up with the Government for issue of necessary directions/notification. Of course, Government by notification No. 21-Edn (C.S) dated 6.1.03 permitted the period spent by teachers of College/University (including Principal) for purpose of acting as Members of the Commission, Personality Test Board or for attending meeting of the Commission besides holding whole time office as Chairman/Member as on duty. The services of teaching and non-teaching employees of the Schools are also utilised at the time of conducting RLST for Assistant Teachers.

Fax machines have been installed in all the Regional Offices and Central Commission Office to strengthen the tele-link and effective communication. The fax numbers are as follows:

Communication

Region	Fax No.
Central Commission	2321-4552
Southern Region	2422-0470
Eastern Region	(0342)-2622056
Western Region	(0342)-255065
Northern Region	(03512)-221137
Hill Region	(0353)-255445
South-Eastern Region	25840962

The Commission for the first time opened its website to show the status of the applicants particularly in respect of ineligible candidates for whom 'No Admit Cards' were issued showing the reasons thereof. In all other cases, eligible candidates were directed to report to the concerned Region for duplicate admit cards and/or corrections if any. The programme for issue of duplicate admit cards districtwise and datewise was displayed. The subjects in Paper I (Hons./P.G. and Pass) and Paper II showing sessionwise, viz. morning and afternoon with timings for RLST 2002 held on Sunday, the 16th March, 2003 were displayed. Quite a good number of candidates visited the website with their form No. The website No. is www.wbschoolservcom.com. Use of modern technology contained the unnecessary visits of candidates to the Regional Offices and the work relating to duplicate admit cards was completed peacefully.

The Government has been moved for taking action against the recalcitrant schools who did not issued appointment letters to the candidates recommended by the Commission.

Website of the Commission

All advertisements for selection of Asstt. Teachers and Headmaster etc. and the notifications relating to results of RLST and related information are available at the website: www.wbschoolservcom.com.

Uniqueness of the functioning of the Commission

The School Service Commission is a unique body which can claim to be the first of its kind in the country. Systems have been developed to cater to more than seven thousand Secondary Schools, more than three thousand Higher Secondary Schools and more than two thousand Jr. High Schools and five hundred seven Madrasahs. Spot evaluation of answer scripts duly coded, decoding of answer scripts after evaluation to maintain anonymity and to be free from bias, scanning of ICR sheets of the objective type questions in Paper II and transparency are a few of the unique features of the system followed by the Commission.

CHAPTER X

TRAINING AND EXAMINATION

This Directorate conducted following six types of examinations up to 2002:

- (i) Primary Teachers' Training examination
- (ii) Pre-primary Teachers' Training examination
- (iii) Central and Middle Scholarship examination
- (iv) Lady Brabourne examination
- (v) National Scholarship Examination for talented students of rural areas
- (vi) NTS examinations

But after the introduction of West Bengal Primary Education (Amendment) Act, 2002 with effect from 2/12/2002 (vide G.O. No. 1307-SE(Pry)) the responsibility of conducting the Primary and Pre-primary Teachers' Training Examination has been vested with the West Bengal Board of Primary Education from the session 2002-2003. Hence the Directorate now conducts remaining four types of examination. The Lady Brabourne Examination is conducted by the Women education cell of this Directorate. The Training and Examination Cell has been given the responsibility of conducting Scholarship examination w.e.f. 2002-2003. So the Basic Training and Examination Cell of this Directorate will conduct the following three examinations with effect from 2003-2004.

- (i) Central and Middle Scholarship examination
- (ii) National Scholarship Examination for talented students of rural areas
- (iii) NTS examinations

A brief description of different examinations are given below.

PRIMARY TEACHERS' TRAINING EXAMINATION

Examination Scheme

Group—A: Knowledge based subjects (theoretical)—Full Marks of the Group: 150

- (1) Modern Trends and problems of Pry. Education.
- (2) Child Psychology and Child Study.
- (3) School Organisation, Administration, General Methodology & Evaluation.

Each carrying Full Marks: 50 (Internal—10, External—40).

Group—B: Contents and skill based subjects (theoretical)—Full Marks of the Group: 400

- | | |
|---------------------|-------------------------------|
| (1) Mother Language | Each carrying Full Marks: 100 |
| (2) Arithmetic | (Internal-20, External-80) |
| (3) English | Each carrying Full Marks: 50 |
| (4) Natural Science | (Internal-10, External-40) |
| (5) History | |
| (6) Geography | |

Group—C: Practical based subjects and Practice Teaching—Full Marks of the Group: 500

- | | |
|---|------------------------------------|
| (1) Practical Teaching: | Carrying Full Marks: 300 |
| | Internal 140 (Micro-40, Macro-100) |
| | External 160 (Micro-60, Macro-100) |
| (2) Health and Physical Education | Each carrying Full Marks: 50 |
| (3) Creative Work | (Internal- 20, External-30) |
| (4) Productive Work | |
| (5) Work relating to Direct Experience—Full Marks: 50 (Internal only) | |

Group—D: Compulsory Optional subject: Full Marks: 50 (Internal-10, External-40)

Summary of the Scheme

	Internal	External	Total
Group-A	30	120	150
Group-B	80	320	400
Group-C	250	250	500
Group-D	10	40	50
Grant Total	370	730	1100

Total Marks: 1100;

Pass Marks: 440 (40%)

For Division:

1st Division: 660 (60%)

2nd Division: 440 (40%)

PRE-PRIMARY AND PRIMARY TEACHERS TRAINING EXAMINATION

There are two institutes in Kolkata district only viz.:

- (1) Teachers' Training Department, Gokhale Memorial Girls School & College and
- (2) Chittaranjan Teachers' Training Institute where the trainees can appear at the aforesaid Examination on completion of two years Training Course. This Examination is generally held in the month of June every year simultaneously with the PTT Exam. The venues are the respective institutes. The intake capacity of two Institutes is 80 and 35 respectively.

The subjects taught in this training and full marks of the examination are as under:

Group—A: Knowledge based subjects: (Theoretical)	Full Marks—450
(1) Modern Tr. & Problems of Pry. Edn. And History of Edn.	Carrying Full Marks—100
(2) Educational Psychology and Child Study	Carrying Full Marks—100
(3) School Org. Admn. Gen. Methodology and Evaluation	Carrying Full Marks—100
(4) Pre-Pry. Education	Carrying Full Marks—100
(5) Health and Hygiene	Carrying Full Marks—50
Group—B: Contents and skill based subjects	Full Marks—400
	Pass Marks—160
(1) Mother language	Carrying Marks—100
(2) Arithmetic	Carrying Marks—100
(3) English	Carrying Marks—50
(4) History	Carrying Marks—50
(5) Geography	Carrying Marks—50
(6) Natural Science	Carrying Marks—50

Group—C: Practical based subjects and
Practice teaching
(1) Teaching Practical
(2) Games and Physical Culture
(3) Music and Cultural Activity
(4) Creative activity
(5) Productive activity
(6) Work relating to direct experience

Full Marks—700
Pass Marks—280
Carrying Full Marks—400
Carrying Marks—50
Carrying Marks—50
Carrying Marks—75
Carrying Marks—75
Carrying Full Marks—50

Group—D: Compulsory optional subjects:
Carrying Full Marks—50

Total Full Marks—1600

Pass Marks—640 (40%)

For Division Distinction : 1280 (80%)
1st Division : 960 (60%)
2nd Division : 640 (40%)

PRIMARY TEACHERS' TRAINING INSTITUTES

At present total number of PTTIs in the State is 135. The PTTIs in the State are of 4 categories, viz. Government PTTIs, Government Sponsored PTTIs, Non-Government Aided PTTIs and Non-Government Unaided Privately Managed PTTIs. Detail break up with intake capacity is given below:

		Co.-Ed.	Male	Female	Total	Intake Capacity
A.	Government	20	12	03	35	4088
B.	Government Sponsored	08	04	04	16	1890
C.	Non-Government Aided	00	00	07	07	618
D.	Non-Government Unaided	76	00	01	77	9575
	Total:	104	16	15	135	16171

Out of 35 Government PTTIs two institutes viz. Kolkata Women's Government PTTI, Hasting House, Kolkata and D.L. Roy Government PTTI, P.O. Krishnanagar, Dist. Nadia are controlled by the Joint Director of School Education in charge of Government schools.

Government sponsored institutes have their Governing Body formed according to the rules framed by the relevant Government order except Sri Ramkrishna Government Sp. PTTI, Darjeeling which is running under the control of Administrator.

Out of 07 non-Government aided institutes, Two viz. (i) Teachers' Training Department, Gokhale Memorial Girls School and College and (ii) Chittaranjan Teachers' Training Institutes both in Kolkata offer two years' course.

77 non-Government unaided privately managed PTTIs have been affiliated by WBBPE and entire financial responsibility of these PTTIs is borne by the institute authority concerned.

Entire financial responsibility of the 58 PTTIs is borne by the State Government. Almost all the institutes are residential in nature. It is compulsory to reside within the campus on the part of the teachers and staffs. All the

Training Institutes offer training by living together inculcating homogenous Indian Life style and ensuring unity and integrity of the nation.

In Government, Government sponsored and Government aided PTTIs 50% of seats are filled up from amongst the existing untrained teachers on deputation and rest 50% are selected from the applications of fresher candidates purely on the basis of marks obtained in the Madhyamik Pariksha, co-curricular activities and performance in the written/oral interview.

The total sanctioned strength of the teaching staff in all the Government, Government Sponsored and Non-Government Aided 58 Institutes is 365. The teaching personnel in each institute comprises of one Principal or Lecture-in-Charge, 3 or 4 Lecturers, one Music Teacher/Music Instructor, one Art and Craft Teacher and Hindi Teacher.

Curriculum of PTTI

The West Bengal Board of Primary Education vide their No. 437/BPE/2001 dated 15/5/2001 has prescribed curriculum to be followed in all PTTIs of the State. The salient features of the prescribed curriculum is stated below.

The curriculum of PTTI is divided into four broad sections namely:

- A. Knowledge based area,
- B. Skill based area and contents and methodology of primary text books,
- C. Practical subject work and practice teaching, and
- D. Compulsory optional subjects for acquiring knowledge in different areas of primary education.

Group—A: *Knowledge based subjects*

- (a) Modern Trends and problems of Primary Education and its problems,
- (b) Child Psychology and child study/Action research project,
- (c) School Organisation, Administration, General Methodology, Evaluation and simulation/case study in educational management.

Group—B: *Skill based subjects*

- (a) Contents and methods of teaching Mother Language (Bengali, Hindi, Urdu, Nepali, Oriya and Santhali),
- (b) Contents and methods of teaching Arithmetic,
- (c) Contents and methods of teaching English (second language) construction, administration of diagnostic tests and interpretation thereof,
- (d) Environment based subjects:
 - (i) Contents and method of teaching Natural Science,
 - (ii) Contents and method of teaching History,
 - (iii) Contents and method of teaching Geography.

Group—C: *Practical based subjects and Practice Teaching*

- (a) Physical and Health education and participation in games and sports,
- (b) Creative work and productive work,
- (c) Direct experience based activities, participation in work experience projects and participation in school activities/features, cultural activities and supervised library works etc.,
- (d) (a) Practice teaching (demonstration lesson and discussion on teaching aids) including micro teaching,
- (b) Practical works—
 - (i) conduct of micro teaching/simulative teaching lessons,
 - (ii) observation of demonstration lessons,
 - (iii) observation lessons,
 - (iv) operation of audio-visual equipment and
 - (v) discussion and preparation of teaching-learning materials.

Group—D: Compulsory Optional subject

Student-trainee will take up one of the following subjects—

- | | |
|--|-----------------------------|
| 1. Pre-primary education | (theoretical only) |
| 2. Social education | -do- |
| 3. Evaluation and measurement in primary education/
preparation/administration and interpretation of
achievement interest and intelligence tests | -do- |
| 4. Special Music | (theoretical and practical) |
| 5. Special fine arts | -do- |
| 6. Sewing and Needle Works | -do- |
| 7. Computer practice for necessary computer literacy | -do- |

Evaluation System

The success of a trainee of a PTI shall be determined on the basis of internal Evaluation and External Examinations separately or taken together. The internal performance of works of a trainee shall be evaluated on the basis of works done in the institute throughout the year.

Duration of the Course

The duration of the courses of studies including examinations in a PTI shall be of one year generally from 1st July to 30th June.

CENTRAL AND MIDDLE SCHOLARSHIP EXAMINATION

This scheme is in operation since 1971-72 and the examination is held in the month of February every year. The examination centres are selected by the D.I. of Schools (SE) of the respective district. Both boys and girls students of Class VI in recognised Jr. High Schools of the State can appear at this examination. The awardees are granted scholarship @ Rs. 5/- per month for four years in recognition of their meritorious performance and top position in the examination. The number of awardee is such a number of successful candidates as are covered within the quota sanctioned for the concerned year.

**NATIONAL SCHOLARSHIP EXAMINATION FOR TALENTED STUDENTS OF
RURAL AREAS**

This scheme is in operation since 1971-72 and the examination is held generally in the month of February every year. The Centres are selected by the respective District Inspector of School (SE). Both boys and girls students reading in Class VIII in recognised Secondary and Higher Secondary Schools of the rural areas of the State can appear at this Examination. Scholarship @ Rs. 30/- per month for day scholar and @ Rs. 100/- per month for Boarders is granted for three years/to such number of successful candidates as are covered within the Blockwise and districtwise quota for the concerned year.

It is necessary to note that the rate of scholarship per month both the Central and Middle Scholarship Examination and National Scholarship Examination for talented students of rural areas remains unchanged since introduction.

The Works performed by the Training and Examination Cell

The aforesaid three examinations involve continuous and time bound work throughout the year and are confidential in nature. The works are divided into pre-Examination and post-Examination works and are conducted in similar manner as adopted in any Public Examination.

The pre-examination works include process like subjectwise paper-setting, moderation, printing of question papers, blank answer-script preparation and distribution of those to the districts as per schedule approved before hand. Approval of descriptive roll, holding of examination etc.

The post-examination works include processes like receipt of answer-scripts and distribution of same to the Examiners, result processing centre receipt of mark-rolls from examiners, tabulation of subjectwise marks, correction of certificate and mark sheet, issuing of duplicate mark sheet and certificate verification of mark sheet and certificate of P.P.T. Exam., P.T. Exam., Sr. training and P.G.B.T. Examination and verification of marks of empanelled candidates sent by the Chairperson of respective districts up to 2002.

Statement showing the number of candidates enrolled, appeared at the Examination and Result of Examination held in the year 2003

Sl. No.	Name of the Examination	No. of candidates enrolled	No. of candidates appeared in the Exam.	No. of successful candidates/ No. of awardee	Percentage of pass
1.	Central and Middle Scholarship	1706	1322	261	27.31
2.	National Scholarship	11213	9206	933	10.13

**A BRIEF NOTE ON NATIONAL TALENT SEARCH EXAMINATION
(STATE LEVEL)**

National Council of Educational Research and Training under its National Talent Search Scheme, awards 1000 scholarships throughout the country each year out of which 15% scholarships for SC candidates and 7½% Scholarship for S.T. Candidates are fixed.

The purpose of the scheme is to find out brilliant students at the end of Class X and to give the financial assistance for obtaining quality education, so that their talent may develop further and they may serve the discipline as well as the country.

Under the scheme, the selection process involves two-stage selection process through:

- (1) State Level Examination
- (2) National Level Examination

On the basis of enrolment of States/UTs at the Secondary stage, a fixed no. of quota is allotted by NCERT to each State/UT. The scholars are searched out on the basis of the merit of the result of State Level Examination. The said exam. in West Bengal will be held in the month of November each year (3rd Sunday of November) from the session 2003-2004.

All the students studying in Class X in any recognised Secondary school including Kendriya Vidyalaya, Naodyaya Vidyalaya, Schools under CBSE/ICSE Board are eligible to appear at the State Level Examination. In our State students reading in class X and who have secured 50% and above marks excluding additional subject in the last examination in Class IX are generally allowed to appear at the State Level Examination. In case of SC/ST students the qualifying marks at the the end of Class IX is 40% and above.

For wide publication of the State Level NTS Examination, the following measures are taken in April/May each year:

- (1) Advertisement in all the State Level Leading dailies,
- (2) Telecasting on Television,
- (3) Broadcasting in Radio through AIR, and
- (4) Information to the Secondary Schools through the District Inspector of Schools (SE).

In the State Level NTS Examination no fee is charged from the students and no award/prize or scholarship is given to the qualified candidates at the State Level Examination.

The State Level Examination consists of two parts:

- (1) Part-I—Mental Ability Test (MAT) carrying 100 marks.
- (2) Part-II—Scholastic Aptitude Test (SAT) carrying 100 marks.

In each part students are to answer every question which carries 1 mark without having any alternative. In Scholastic Aptitude Test out of 100 marks allotted in Science Group (Physics, Biology, Chemistry), 40 marks in Social Science Group (History, Geography and Civics) and 20 marks for Mathematics. No negative marking is made in the evaluation and duration of Examination is 1½ hours in each part. The qualifying marks in both the part is 40 for General candidates and in case of SC/ST it is 32.

During last academic year State Level NTS Examination 2003-2004 was held on 23.11.2003. All necessary steps were taken for smooth conduct of the Examination.

Some information about the NTS Exam. 2003-2004:

- (1) The Liaison Officer in the State Level NTS Exam. 2003-2004: Sri Sudarshan Das, Asstt. Director of School Education (T&E), West Bengal.
- (2) Total enrolment at the NTS Exam. 2003-2004: 7972
- (3) Total candidates appeared: 5007 (Gen-4531, SC-419, ST-57)
- (4) Total no. of Exam. centres: 50
- (5) State quota at the National Level NTS Exam: 240 (Gen-173, SC-53, ST-14)

The relevant information of State Level NTS Exam. 2004-2005:

- (1) The Liaison Officer in the State Level NTS Exam. 2004-2005: Sri Sudarshan Das, Asstt. Director of School Education (T&E), West Bengal..
- (2) The State Level NTS Examination 2004-2005 will be held on 28.11.2004 (Sunday).
- (3) Announcement regarding the Exam. has been made through Radio, T.V. and leading dailies.
- (4) The application forms will be distributed to the candidates through D.I. of Schools (SE) on 21.6.2004.
- (5) Last date of submission of the Application forms by the candidates to the D.I. of Schools (SE) is 31.8.2004.

DIET – A Status Report

1. Background:

Universal elementary education and eradication of adult illiteracy are the basic goals of educational development in India since independence. In order to cope with this challenge Government of India adopted National Policy of Education in 1986. Improvement in quality in education is one of the major components of such National Policy of Education with the introduction of MPE 1986 and its programme of Action 1992 restructuring & re-organisation of teacher education for improvement of quality of teacher's training are felt by Government of India. One of the five components of the programme is the establishment of the Dist. Institute of Education and Training (DIET).

2. Mission of DIET:

DIET's only mission is to provide academic and resource support at the grass root level through various strategies and programme for universal elementary education and adult education (15-35 age group). DIET will be expected to become a model for another educational institutions in the district in terms of meticulous, efficient and effective planning and execution of functions, harmonious and creative organisational climate, maintenance of a clear and attractive campus and so on.

3. Organisational structure of a DIET:

Each DIET would comprise of the following seven academic branches :-

- (a) Pre-Service Teacher Education (PSTE) Branch;
- (b) Work Experience (WE) Branch;
- (c) District Resource Unit (DRU) for Adult and Non-formal Education;
- (d) In-service programme, Field interaction and innovation co-ordination (IFIC) Branch;
- (e) Curricular material Development and Evaluation (CMDE) Branch;
- (f) Educational Technology (ET) Branch;
- (g) Planning & Management (P&M) Branch.

4. Position of DIET in West Bengal

In West Bengal the Government of India has already sanctioned 16 DIETs one in each district during 9th plan period. Out of 16 DIETs 13 (thirteen) DIETs would be established by way of up-gradation of the existing Government PTIs and the remaining 3 (three) DIETs would be new set up. The State Government has also decided to set up 3 (three) new DIETs for Kolkata, Purba Medinipur and Darjeeling (in Siliguri) districts.

As the total no. of districts in West Bengal is 19, Government of India is being moved for sanctioned of 3 new DIETs. The names of DIETs are mentioned hereunder:

(a) By upgradation

Sl. No.	Phase	District	Name of DIET	Up-graded from
1	1st phase	North 24-Parganas	Banipur	Banipur Govt. PTI (Unit I & II)
2		Malda	Sovanagar	Sovanagar PTI
3		Paschim Medinipur	Jhargram	Jhargram Govt. PTI
4		Jalpaiguri	Belakoba	Balakoba Govt. PTI
5		Bankura	Chhandar	Chhandar Govt. PTI
6	2nd phase	Howrah	Jagatballavpur	Jagatballavpur Govt. PTI

Sl. No.	Phase	District	Name of DIET	Up-graded from
7		Hooghly	Gandhigram	Gandhigram Govt. PTTI
8		Nadia	Barajagulia	Pragnanananda Govt. PTTI P.O. Barajagulia Shikshaniketan
9		Burdwan	Kalanabagram	Govt. PTTI P.O. Kalanabagram
10		Murshidabad	Berhampore	Berhampore Govt. PTTI
11		Cooch-Bihar	Cooch-Bihar	Cooch-Bihar Govt. PTTI
12	3rd phase	Uttar Dinajpur	Tarangapur	Tarangapur Govt. PTTI
13		Dakshin Dinajpur	Balurghat	Balurghat Govt. PTTI

(b) *New set up:*

Sl	Phase	District	Name of DIET
1	2nd phase	Birbhum	Abdarpur, Suri
2		South 24-Parganas	Joynagar (Mouzpur)
3	3rd phase	Purulia	Vivekananda Nagar

(c) *Proposal of sanction of 3 new DIETs:*

There are three districts namely Kolkata, Purba Medinipur and Darjeeling where no DIET is sanctioned by Government of India till date. So the State Government has decided to set up three new DIETs so that the aims and objectives of the NPE as well as the quota of the State Government are fulfilled. Steps have already been taken by the State Government to send the proposal to Government of India for sanction of such three new DIETs.

5. Operationalisation of DIETs:

In accordance with the terms and conditions of MOU signed by the Government of West Bengal with the Government of India our State has already taken some sincere steps to operationalise DIET as follows:

(a) *Infrastructural Development*

PWD was entrusted by the State Government for Civil and Electrical works for 16 DIETs. PWD has completed both Civil and Electrical work of all the 16 DIETs under different phases, except some minor and additional works. The charge of the completed DIET Buildings has already been taken over by the concerned authority. Additional plan and work thereof will be completed by the PWD Department shortly as per provision of fund.

(b) *Procurement of Furniture and Equipment*

In the first phase SE Department of the State Government released fund amounting to Rs. 50 lakh in favour of D.S.E., W.B. for procurement of Furniture, Equipment, Library Books, Computer etc. for five DIETs. A purchase Committee has already been framed for purchasing such materials. The Committee completed its responsibility to supply such materials to 5 DIETs in the 1st phase within a stipulated time.

Rs. 59,32,696/- are spent for such purpose. Fund for the remaining 11 DIETs would be released shortly by the SE Department for the same purpose.

(c) Faculty & Recruitment thereof :

The existing qualified teaching and non-teaching staff of the PTTIs have been working under PSTE Branch in 16 PTTIs which were upgraded to DIET. Besides 90 posts of both teaching and non-teaching staff including principals for five DIETs have already been created by the SE Department. vide Memo. No. 1004(PE) dt. 24.9.98. PSC has taken steps for filling up the post of teaching, librarian & technicians. The selection process for PSC post except Lecturer has already been completed. Four principals, some Librarians and Technicians have already joined.

The post of Head Clerk and Accountant will be filled up by D.S.E. through promotion and other non-teaching post will be filled up by the District Authorities as per recruitment rules vide Memo. No. 1885-SE (P.E.) dt. 14.12 2000. Both the D.S.E. and the District Authorities have taken initiatives to fill up such non-teaching posts. In the meantime Cabinet already approved 325 posts both teaching and non-teaching for 11 DIETs. The concerned authorities have taken steps to fill up such vacant posts at an early date. The staff position as per Government of India Norms is noted below and the State Government will decide its Norms:

Staff Position per DIET (as per GOI Norms)

Sl.No.	Teaching staff	No. of posts	Scale of pay (Rs.)
1	Principal	1	10000-15525
2	Vice-Principal or Senior Lecturer	7	6000-12000
3	Lecturer	17	6000-12000
<i>Non-Teaching Staff</i>			
4	Technician (Instructor)	3	5550-11325
5	Head Clerk	1	4500-9700
6	Accountant	1	4000-8850
7	Librarian	1	4650-10175
8	Hostel Warden	1	4000-4450
9	Hostel Superintendent	2	6000-12000
10	Medical Officer	1	2000 (Contractual Per month Honarium)
11	Group 'D'	6	2600-4175
12	Steno-cum-Clerk	8	3350-6325

(d) Administrative and Academic issues

The D.S.E., W.B. is entrusted to look after the overall administrative & financial control of DIETs. Syllabus, Curriculum Training models and other instructional package will be developed by the WBBPE & SCERT jointly.

(e) Supervision and Monitoring

Under the active participation of the Hon'ble MIC (P+S+M), Government of West Bengal, SE Department & DTE. of School Education several steps have been taken to supervise & monitor the DIET scheme so that the full fledged 5 DIETs in the first phase may be operationalised shortly and the remaining 11 DIETs may be operationalised within this or next financial year with a view to this objective monthwise meeting with the key functionaries is being arranged regularly under the Chairmanship of the Hon'ble MIC (Primary, Secondary and Madrasah Education.), Government of West Bengal & follow up action is also being taken as per proceedings taken in the meeting. Even Sr. JDSE & DDSE visit frequently at each DIET to oversee the latest development as per Government of India Norms.

Last of all, it will be expected that DIET in our State will really become a model in terms of improvement in quality in Education & Teacher Education for another Educational Institutions in the Districts for UEE & Adult Education within a very short time.

Report on Lady Brabourne Needle-Work Diploma Examination, 2002-2003

Lady Brabourne Needle-Work Examination is conducted by the Director of School Education, West Bengal and controlled by the Deputy Director of School Examination (Women), through the Officers of the District Inspector of Schools (S.E.). This Examination is exclusively for women teachers and women students, which is held yearly in three phases; viz. Primary, Middle and Final.

The Examination, 2003 was held in 29 (twenty nine) centres and the number of candidates appeared as follows:

Primary	1,316
Middle	827
Final	614

The Examination consists of parts i.e. Part-I—Specimen and Part-II—Theoretical and Practical taken together. Distribution of works in two parts is as follows:

	Full Marks	Pass Marks
Part-I (Specimen throughout the year as per prescribed syllabus)	200	100
Part-II Paper-I	100	40
Paper-II	100	40

Candidates who obtain 70%, 55% and 45% marks in aggregate are placed in First Class, Second Class and Third Class respectively.

The rates of Examination are as follows:

Primary—Rs. 3/-, Middle—Rs. 4/-, Final—Rs. 5/- only.

The grant is placed at the disposal of Director of School Education, West Bengal and subsequently distributed to all the districts according to the enrolment of the candidates.

The concerned examiners and paper setters get remuneration. Contingent expenditure incurred for conducting the Examination are sanctioned to the District Inspector of Schools (S.E.) for the allotment of Director of School Education.

Successful candidates are awarded certificates from the Directorate.

CHAPTER XII

BUDGET ON SCHOOL EDUCATION

2004-2005

Government expenditure is usually classified in different ways. Estimation of income and expenditure of any establishment is defined as Budget Estimate. In Education widely used system is to classify the Budget as well as income and expenditure into i.e. Plan and Non-Plan'. ' Plan Expenditure comprises all the estimation of expenditure in respect of a new Project/Scheme initiated in a particular period. It includes both Capital and Non-Capital. After completion of a Plan period if any Scheme continues during the next Plan period its expenditure falls under committed head of account and after completion of two Plan periods the expenditure of that particular scheme falls within the Non-Plan estimation. Non-Plan estimation is to be made for the schemes which started functioning in the earlier plan period/periods.

As per existing financial rules Budget Estimate is prepared in the regional unit and the regional unit transmits the same to this Directorate where compilation of Budget works is undertaken to prepare the State Education Budget.

From the current year (2003-2004) Budget estimate for School Education is presented to the State Assembly under Demand No. 15 which is independent Demand for the School Education only. The School Education has to maintain Primary to Higher Secondary institutions along with Sanskrit Tole and non-Government recognised Madrasahs. Budget estimation of School Education Department comprises cost towards Maintenance of the teaching and non-teaching staffs of those institutions and other Development works for the infrastructure of the School Education.

**To have an idea about the State Education Budget the abstract of
Union Education Budget is given blow**

India	2003-2004 (in crore)	2004-2005 (in crore)	Additional allotment in this year (in crore)
Elementary Education	4,669	5,752	1,083
S.S.A. (Part of the above figure)	235	252	—
Secondary Education	1,408	1,434	26
Higher Education	1,771	1,796	25
Total Budget for Education	9,861	11,062	1,201
		(+ 12%)	

Total Budget of Government of India except Railway Budget is Rs. 4,70,910 crores.

Education Budget constitute 2.3% of total Budget.

Professors versus bada babus

AN ACADEMIC knows what he can do and what he cannot. An administrator thinks he can do everything.

An academic knows and realises that he knows a few things about a few things. An administrator feels he knows everything about everything.

An academic believes he can learn from others. An administrator feels he can always teach others.

An academic believes in taking everybody along. An administrator feels he can always ignore others and bulldoze his own ideas.

An academic displays contentment. An administrator is always discontented because of over-ambition.

An academic is always ready to accept his mistakes while an administrator always tries to find reasons to rationalise them.
